Hale,2013-10-10 Francis Bacon long considered a minor figure in the founding of modern political thought is now recognized as one of its foremost thinkers Bacon not only championed a new type and method of scientific inquiry he also developed a plan for how modern society could be re ordered to accommodate and promote scientific progress Bacon s scientific writings cannot be wholly understood apart from his political writings and many of his works combine the two topics so subtly that it is difficult to even place them in a definitive category in this book Kimberly Hurd Hale identifies the thread in Bacon s body of work that links modern science and liberalism Hale provides a detailed analysis of New Atlantis examining Bacon s place in the founding of modern political philosophy and the ways he relates to Plato Machiavelli and Hobbes Hurd argues that Bacon s demonstration of scientific rule in the New Atlantis is not meant as a blueprint for modern society rather it shows us

the dangers of a scientific society devoid of liberty By examining what is troubling about the New Atlantis this book explains what problems lead to the emergence of Atlantean societies i e societies that are prosperous ambitious and doomed It shows that Bacon s portrait of Bensalem may provide the light necessary to guide those of us living in a world shaped by modern science through the dangerous seas **Gods of Love and Ecstasy** Alain Daniélou,1992-05 Dani u examines the earliest traditions of the Hindu and Greek gods of magical power ecstatic sexuality and transcendence Russian Stories Gleb Struve,2012-05-23 Twelve tales by such masters as Chekhov Tolstoy Dostoevsky Pushkin others Excellent word for word English translations on facing pages plus teaching and study aids Russian English vocabulary biographical critical introductions more *Bounded Wilderness* Kathryn Jasper,2024-10-15 In Bounded Wilderness Kathryn Jasper focuses on the innovations undertaken at the hermitage of Fonte Avellana in central Italy during the eleventh century by its prior Peter Damian d 1072 The congregation of Fonte Avellana experimented with reforming practices that led to new ways of managing property and relations among clergy nobles and the laity Jasper charts how Damian s notion of monastic reform took advantage of the surrounding topography and geography to amplify the sensory aspects of ascetic experiences By focusing on monastic landscapes and land ownership Jasper demonstrates that reform extended beyond abstract ideas Rather reform circulated locally through monastic networks and addressed practical concerns such as property boundaries and rights over water orchards pastures and mills Putting new sources both documentary and archaeological into conversation with monastic charters and Damian s letters Bounded Wilderness reveals the interrelationship of economic practices religious traditions and the natural environment in the idea and implementation of reform *Luther and the Reformation of the Later Middle Ages* Eric Leland Saak,2017-04-19 In 1517 Martin Luther posted his 95 Theses an act often linked with the start of the Reformation In this work Eric Leland Saak argues that the 95 Theses do not signal Luther s break from Roman Catholicism An obedient Observant Augustinian Hermit Luther s self understanding from 1505 until at least 1520 was as Brother Martin Luther Augustinian not Reformer and he continued to wear his habit until October 1524 Saak demonstrates that Luther s provocative act represented the culmination of the late medieval Reformation It was only the failure of this earlier Reformation that served as a catalyst for the onset of the sixteenth century Protestant Reformation Luther s true Reformation discovery had little to do with justification by faith or with his 95 Theses Yet his discoveries in February of 1520 were to change everything **Practicing Servant-Leadership** Larry C. Hannay, Aeterna Press, 2013-03-07 EVERY kind of effort after good has found sympathy and help in Christianity Nothing is more wonderful and nothing more suggestive of His divinity than the way in which the words and example of the Master have been found adaptable to the ideals which have possessed the souls of men in different ages and under various circumstances There was a time when men were impelled to search for and express truth the eternal truth of the nature and property of the Deity Himself At that time the life of Christ presented itself primarily as a revelation He set forth under the conditions of time and space the mysterious God whose seat is amid clouds and darkness and yet who baffles human inquiry chiefly by the garment of impenetrable light in which He has decked Himself In another age the religious spirit took a lower flight and allowed its activities to be dominated by a political conception Whole generations spent themselves in the effort to realize upon earth a veritable kingdom of God To these men Christ appeared as a monarch whose will it was their ambition to realize perfectly Aeterna Press *Congregational Hymns from the Poetry of John Greenleaf Whittier* Samuel J.
