The Hero In French Romantic Literature:

The Hero in French Romantic Literature (Classic Reprint) George Ross Ridge, 2017-11-22 Excerpt from The Hero in French Romantic Literature By the self conscious hero I refer to the essence of the romantic protagonist after his many various trappings have been stripped away He is what remains beneath a multitude of poses and superficial traits He is at once a reflection of the romantic writer and a projection of what the romantics considered the ideal man for any hero must be by definition a concept of the ideal man By studying the romantic hero in this light we can visualize to a rather fine point just what sort of configuration the romantic ideal man assumed Thus a study of the romantic hero can tell us much about the spirit of the age He can lead us straight to the writer's own psyche as both an artistic reflection and projection He can reveal the values which motivate the hero and characterize the romantic worldview For he will surely reflect the writer's beliefs and ideas as he is caught up in the social cataclysm and philosophical reorientation of romanticism Surely then the romantic hero is our best touchstone to understanding romantic literature About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The romantic hero and his heirs in French literature Lloyd Bishop, 1984 **The Romantic Hero and His Heirs in French Literature** Lloyd Bishop, 1984 Our contemporary view of the romantic hero is blurred by infrequently examined assumptions The purpose of Professor Bishop's book on The Romantic Hero and his Heirs is two fold to draw a precise and updated portrait of the original romantic hero in French literature and then to trace his legitimate heirs from the romantic period to the middle of the twentieth century and beyond By bringing together his own findings and those of other scholars he establishes the important fact of literary history that the romantic hero is the central hero of modern French literature The book offers not only a detailed description and genealogy of a significant literary hero it also provides a description of the modern sensibility This is an ambitious and convincing work of vast and precise erudition

The Christian Tragic Hero in French and English Literature George Ross Ridge, Benedict Chiaka Njoku, 1983 **Sick Heroes** Allan H. Psychological Constructs and the Craft of African Fiction of Yesteryears Linus Tongwo Asong, 2012 The novel remains the most popular genre in the African literary landscape In the very large body of criticism that has been devoted to the craft of African fiction this very stimulating study of six African novels will hold its own distinctive place for a long while It brings to African critical thought not only an exceptional acumen of interpretation and analysis but something much more important to most of the previous serious literary study than mere technical dissection a keen sense of the experience and imaginative truth that make Asong s selected African texts living books as well as authentic record of human and moral values Many of Asong s perceptions are not only critically shrewd but humanly searching alert to aesthetic quality and invention No one interested in creative criticism of African fiction will read this book without finding its approach a challenge to his or her own reading of African fiction and a stimulus to understanding the growth and enduring richness of the best of the African novel The book balances nicely in its choice of three texts in English and three in French the two dominant colonial languages in Africa South of the Sahara Even more interesting is the fact that although all the French texts have been translated into English Asong opts to treat the three in the original language in which they were conceived and executed a decision which keeps the reader as close as possible to the original idiom

The Twilight of Romanticism John David Wells, 2008-11 The Twilight of Romanticism is a fascinating account of the lives and literature of French Bohemian poets and writers of the Beat Generation in 1950 s America Beginning in 19th century France every youth generation has developed a group of rebel artists and literary outlaws who defied the middle class conventions of their time in an attempt to create new forms of literature These artists were the first ones to experiment with all kinds of depravity including mind expanding drugs insanity excessive drinking sexual experimentation and a chronic inability to settle down to a normal life This book will appeal to those persons interested in the poetic visions of Bob Dylan the sense of dread lyrics of Jim Morrison the free form poetry of Allen Ginsberg and the spontaneous prose of Jack Kerouac In addition Twilight offers a unique insight into the conflict between the desires of self expression creative artists and the utilitarian demands of a consumer ridden money obsessed culture

Variations of the Hero's Journey in Contemporary British, French and Australian Picture Books about the Great War Martin C. Kerby, Denise Burkhard, Alison Bedford, Marion Gymnich, Margaret M. Baguley, 2025-09-30 This book is grounded in the belief that every nation had its own Great War and that children s picture books are an important barometer of each country s national approach To explore the depiction of the Great War in modern Australian British and French children s picture books where this historical event is reimagined in different ways as a futile conflict as a painful victory and as part of one country s founding mythology this book uses the concept of the hero s journey as an underlying framework It claims that this monomythic pattern as developed by Joseph Campbell and modified by Christopher Vogler not only informs all picture books selected for this project but can also be used to highlight the extent to which modern children s picture book authors and illustrators conform to their respective nation s cultural memory It further maintains that the specific historical context of the Great War in these children s picture books can be used to identify a variant of the hero s journey the ordinary soldier s journey This analysis of children s picture books about the Great War through the lens of Campbell s hero s journey will be of interest to both students and researchers in the fields of children s literature literary theory history cultural studies and education

French Revolutionary Lives David A. Bell, Colin Jones, 2024-09-12 Historians have long used biography and life narratives as a means of understanding the French Revolution

as classic studies on major figures such as Robespierre and Napoleon attest At the current moment however many of the most creative such studies are focusing on relatively minor revolutionary figures Such work which combines the techniques of classic biography and microhistory reveals how the great political social cultural and religious transformations of the revolutionary era were refracted through the prism of individual experience This work often links to research and writing taking place in adjacent disciplines notably around the ideas and practices of life writing These studies themselves often grounded in the history of emotions resist the biographical illusion that an individual s essence can be inferred unproblematically from their words and actions and they also transcend the tendency to see those words and actions as merely symptoms of broader political processes By focusing on individual life stories in their own right and insisting on the slipperiness of individual identity this book explores emergent forms of subjectivity
