*Wilderness in Mythology and Religion* Laura Feldt, 2012-10-01 Wilderness is one of the most abiding creations in the history of religions It has a long and seminal history and is of contemporary relevance in wildlife preservation and climate discourses Yet it has not previously been subject to scrutiny or theorising from a cross cultural study of religions perspective What are the specific relations between the world s religions and imagined and real wilderness areas The wilderness is often understood as a domain void of humans opposed to civilization but the analyses in this book complicate and question the dualism of previous theoretical grids and offer new perspectives on the interesting multiplicity of the wilderness and religion nexus This book thus addresses the need for cross cultural anthropological and history of religions analyses by offering in depth case studies of the use and functions of wilderness spaces in a diverse range of contexts including but not limited to ancient Greece early Christian asceticism Old Norse religion the shamanism Buddhism encounter in Mongolia contemporary paganism and wilderness spirituality in the US It advances research on religious spatialities cosmologies and ideas of wild nature and brings new

*Theology after Postmodernity* Tina Beattie, 2013-10-04 Theology after Postmodernity is a ground breaking study that has the capacity to transform the relationship between psychoanalytic theory and Christian theology Reading the theology of Thomas Aquinas in close engagement with the psychoanalytic theory of Jacques Lacan Tina Beattie shows how Thomism exerted a formative influence on Lacan and she also shows how a Lacanian approach can bring rich new insights to Thomas s theology A growing number of English speaking scholars now recognize the extent to which twentieth century French theorists and philosophers were influenced by medieval theology and there have been several studies of Jacques Lacan s Thomism However this is the first study published in English to bring a Lacanian feminist perspective to bear on the theology of Thomas Aquinas Focusing on the centrality of desire in Thomas s theology and Lacan s psychoanalytic theory Beattie follows Lacan along an overgrown and often hidden path through the changing configurations of desire gender and knowledge from their Aristotelian formation in the medieval universities to their fragmentation in the collapse of modernity s visions and values Beattie offers a penetrating critique of Thomas s Aristotelianism but she also excavates the mystical treasures within his theology This enables her to show how Thomas s God remains an unconscious but potent influence in the shaping of modern western thought and to ask what transformations might be needed in order to bring about a Thomism for our times Probing beneath the surface of Thomas s Summa Theologiae and other writings she brings to light the Other of Thomas s One God an incarnate maternal Trinity who emerges when Thomas s Aristotelian ontotheology is suspended and the more neglected aspects of his doctrinal and theological insights are allowed to emerge Lacan makes possible a renewed Thomism which offers a rich theology of creation incarnation and redemption capable of responding to some of the most urgent and far reaching challenges that questions of gender nature and God pose to Christian theological language in its classical and postmodern formations
