Bearne, Victor Watson, 2002-01-04 It is impossible to reflect upon children's books without considering the children who read them. *Where Texts and Children Meet* explores the ways in which children make meaning of the various texts they meet both in and out of school. Eve Bearne and Victor Watson have brought together chapters on all the major issues and topics in children's literacy including the meaning and relevance of terms such as literature and classic texts, an analysis of new genres including picture books and CD-ROMs, moral dilemmas and cultural concerns in children's texts, working with quality texts that children will also adore. *Where Texts and Children Meet* shows how the world of children's books is changing and how teachers can build imaginative learning experiences for their pupils from a whole range of published materials.

Restless Travellers Antonio José Miralles Pérez, 2011-08-08 The first part of this book deals with Britain's imperial age, its militants and its critics. The selection of works generates a large field of debate explored using traditional or innovative approaches. The 19th century is presented as a time for writers: J. E. Aylmer, E. Marryat, Norris G. A. Henty, Conan Doyle, who tell stories of Europeans venturing forth into uncivilised regions of the world where they meet other races. But writers of a different outlook are also considered. Before the twilight of Empire, women were born in England: Virginia Woolf and in Ireland: Elizabeth Bowen, who would use the ductile means of literature to narrate journeys into the female self instead of masculine tales set in distant lands. The imperial experience is a subject of concern and reflection with special interest when authored by natives of former colonies such as Michael Ondaatje's Hindu Sirkhero in *The English Patient* and the Nigerian girls in some of Patience Agbabi's poems. The idea of travelling into or out of the culture to which one apparently belongs and the contradictory feelings such an experience causes pervades the writer's mind and the ensuing narrative. The second part can be regarded as a North American miscellany, mostly devoted to the African culture, although also dealing with European heritage. In order to recognise Asian and South American influences as well, authors such as Fred Wah, Ariel Dorfman and Julia Alvarez have been included. Black literature is represented by two 19th century writers: Mary Ann Shadd and Martin R. Delany, who remind us of the fight against slavery and segregation and the path to equality. Various 20th century writers: Toni Morrison, Ernest Gaines, Harryette Mullen, August Wilson, address the African American's quest for identity presented by some as a journey southwards away from the place of birth or an unsatisfactory life and in search of self-knowledge in the land of their forefathers. These journeys provide materials for different genres and tones, enabling readers to examine the aspirations and fears of a community whose contribution to the history and literature of America has stimulated continuous study. The two parts of the book are connected by the underlying discussion of essential conflicts that have occupied travellers: traversing imperial spaces or experiencing foreign lands, as well as travellers who, instead of exotic adventures or romantic sojourns, want to settle in a new country, be accepted by a nation their ancestors did not know or exercise rights they were denied on their native soil.

Ariadne's Thread Anne Nénarokoff-Van Burek, 2013-04 *Ariadne's Thread* came from the need to tell stories of the amazing women in my family. All of them born in Russia before the 1917 Revolution, settled in France.

where they had to adapt to a life radically different from what they had known. When their world collapsed, they could either collapse with it or reinvent themselves. These women taught me the art of survival, resilience in adversity, self-reliance, frugality. Through them, my grandmother, my aunts, my mother, I learned lessons which are not taught in school, values which have sustained me throughout my life. These women's down-to-earth values have new relevance today in a world preoccupied by appearances and material gain. By looking at my family's collective past, I see clues for a better future. If we want a better world, we could do worse than turn to a few old-fashioned values and work at putting them into practice. The book is a tribute to the precious heritage I received from people who lived and loved fully and for whom everyday life was a celebration. I hope they will inspire many.

Ariadne's Lives Nina daVinci Nichols, 1995. Indeed, relatively little work has been done on the Cretan myth cycle as a whole, a mixture of heroic Greek legend and savage pre-Greek elements generally considered to be antithetical to evolved literary languages. As a result, although Ariadne has been extremely important in Western art from the time of ancient Greece through the nineteenth century, she is rarely included in studies of Greek myth.

Popular Culture Values and the Arts Ray B. Browne, Lawrence A. Kreiser, Jr., 2014-01-10. In countries around the world, the rise of class divisions and unbridled capitalism are changing the conventional definitions of art and aesthetics. Historically, the philanthropy of the elite has played a leading role in supporting, funding, and distributing artistic works. While such measures may be pure in intent, many worry that private funding may be gentrifying the arts and creating a situation in which art will only be valued for its prestige or, worse, its price tag. This collection of essays examines the current movement to democratize the arts and make the world of artistic endeavor open and accessible to all.
