Sino-Russian Relations R.K.I. Quested, 2014-02-25 This book provides a systematic history of Sino Russian relations a history which is invaluable in forming an understanding of relations between the two nations today Becoming neighbours in the seventeenth century their changing relations in peace and war in isolation cooperation and confrontation have steadily assumed a greater importance in world politics and become increasingly important to the stability of international relations

Russia and China Mark Mancall, 1971 Russia and China. Allies or Competitors? Maximilian Mai, 2015-04-08 Seminar paper from the year 2014 in the subject Politics Region Far East grade 1.0 Martin Luther University Institut für Politikwissenschaften und Japanologie course International Relations Russian Foreign Policy language English abstract Russia and China share a long common history since official relations started in 1683 with the Treaty of Nertschinsk which marks the first bilateral agreement between China and a western state Since that time Russia has been a colonial power a communist sister country a revisionist and eventually a reliable partner for China Sino Russian relations underwent many breakings and challenges making both countries common history one of the most changeful one could imagine Nowadays their relation seems to be at an all time high Notwithstanding the Ukrainian crisis Russia and China signed several important cooperation and investment agreements in May and in October 2014 including a giant gas deal for which both countries drove a ten years hard bargain and a cross currency swap This crushed western hopes for a growing gap between bear and dragon in face of Crimea annexation and caused observers to talk of a Sino Russian honeymoon However under the surface their relation is not without any problems First of all there is a problem of the base the lack of a common strategy Beyond opposing the US and the opaque overall idea of a multipolar world both countries do not share a clear vision of a future

international system Moreover there is a growing dissent in Central Asia as well as growing Chinese nationalism in combination with the unresolved Siberian question leading to worries in Russia Above all increasing economic asymmetries in China's favour nurture Russian fears of becoming a junior partner or a resource appendix to China Thus the future of Sino Russian relations remains a controversial subject Is it a natural partnership or just lack of alternatives Will they be allies or competitors

Sino-Russian Relations in the 21st Century Jo Inge Bekkevold, Bobo Lo, 2018-07-24 This book examines how recent fundamental changes influence Sino Russian relations and the wider long term implications of the revolving Sino Russian dynamic on international affairs It brings together leading scholars to examine recent developments across the whole relationship from grand strategy and global governance to bilateral energy and military ties and regional interaction in Central Asia Northeast Asia and the Middle East The Sino Russian relationship boasts major achievements but also reveals important differences and latent tensions The project is intended for policy makers academics and students of strategic studies diplomacy studies Chinese politics Russian politics and foreign policy

Russia and China Michal Lubina, 2017-10-23 This book depicts the sophisticated relationship between Russia and China as a pragmatic one a political marriage of convenience Yet at the same time the relationship is stable and will remain so After all bilateral relations are usually based on pragmatic interests and the pursuit of these interests is the very essence of foreign policy And as often happens in life the most long lasting marriages are those based on convenience The highly complex complicated ambiguous and yet indeed successful relationship between Russia and China throughout the past 25 years is difficult to grasp theoretically Russian and Chinese elites are hard core realists in their foreign policies and the neorealist school in international relations seems to be the most adequate one to research Sino Russian relations Realistically throughout this period China achieved a multidimensional advantage over Russia Yet simultaneously Russia China relations do not follow the patterns of power politics Beijing knows its limits and does not go into extremes Rather China successfully seeks to build a longterm stable relationship based on Chinese terms where both sides gain albeit China gains a little more Russia in this agenda does not necessary lose just gains a little less out of this asymmetric deal Thus a new model of bilateral relations emerges which may be called by paraphrasing the slogan of Chinese diplomacy as asymmetric win win formula This model is a kind of back to the past a contemporary equivalent of the first model of Russia China relations the *modus vivendi* from the 17th century achieved after the Nerchinsk treaty

The Limits of Sino-Russian Strategic Partnership Jennifer Anderson, 2013-09-13 Russia and China claim to have established a strategic partnership Jennifer Anderson argues that this relationship merely overlays a diplomatic agenda established in the late 1980s and that China's pragmatic limited approach coupled with Russia's domestic economic and political difficulties have meant that the Sino Russian strategic partnership is unwieldy and imprecise

China and Russia Alexander Lukin, 2018-03-16 With many predicting the end of US hegemony Russia and China's growing cooperation in a number of key strategic areas looks set to have a major impact on global power dynamics But what

lies behind this Sino Russian rapprochement Is it simply the result of deteriorated Russo US and Sino US relations or does it date back to a more fundamental alignment of interests after the Cold War In this book Alexander Lukin answers these questions offering a deeply informed and nuanced assessment of Russia and China s ever closer ties Tracing the evolution of this partnership from the 1990s to the present day he shows how economic and geopolitical interests drove the two countries together in spite of political and cultural differences Key areas of cooperation and possible conflict are explored from bilateral trade and investment to immigration and security Ultimately Lukin argues that China and Russia s strategic partnership is part of a growing system of cooperation in the non Western world which has also seen the emergence of a new political community Greater Eurasia His vision of the new China Russia rapprochement will be essential reading for anyone interested in understanding this evolving partnership and the way in which it is altering the contemporary geopolitical landscape

Sino-Russian Relations in the Seventeenth Century Vincent Chen, 2012-12-06 The seventeenth century was a momentous epoch While western European countries were busy expanding westward and eastward Russia quietly crossed the Ural Mountains absorbed Siberia and reached as far as Alaska Russia did not expand toward the East without opposition from the western European countries In the last half of the sixteenth century inspired by the gorgeous East the Dutch and the English made many efforts to find a northern passage to China 1 to attain gold gems silks pearls and spices They attempted to reach China by land routes but were hindered by continual wars between the Kazaks and Mongol tribes as is indicated in a letter written by an English traveler Jenkinson in 1559 They also attempted to reach China by way of the Northern Ocean but the Arctic weather foiled all of these efforts The English hoped to find a way to China as well as to India by the Ob River They knew of the Ob as early as 1555 and the next year Stephen Burrough was sent to find it He reached the Kara Strait but ice prevented him from passing through it In 1580 Arthur Pet and Charles Jackman left England with two ships in search of a northeast passage Pet went through the Kara Strait Jackman followed him in 1581 encountering much ice Eventually Pet s expedition succeeded in returning westward again through the Kara Strait but Jackman and his men were never heard from again

Russia-China Relations Sarah Kirchberger, Svenja Sinjen, Nils Wörmer, 2022-06-15 This open access book examines Russia China relations across a variety of civilian and military areas of cooperation Leading experts in the field present empirical case studies covering a wide range of strategic cooperation areas between Russia and China such as technological military economic and political cooperation The contributing authors shed new light on Chinese and Russian strategic goals external push and pull factors and mutual perception shifts and discuss the options for Western countries to influence this development This book analyses the evolution of the relationship since the watershed moment of the Crimean crisis in 2014 and whether or not a full blown military alliance as hinted in late 2020 by President Putin is indeed a realistic scenario for which NATO will have to prepare It will appeal to students and scholars of international relations political

decision makers as well as anyone interested in Eurasian politics and the potential military strategic impact of a Russian Chinese alliance for NATO

Current Sino-Russian Relations. Authoritarian Symbiosis, Strategic Partnership or Fragile Intermarriage of Limited Duration? Daniel Schmidt, 2022-03-31 Bachelor Thesis from the year 2019 in the subject Politics Region Russia grade 1.0 Rhine Waal University of Applied Sciences language English abstract In times of global political cataclysms where the old Washington led Western liberal order is stumbling with nationalism and protectionism on the rise and old alliances being challenged a new kind of super heavy Sino Russian diplomatic double star system is apparently rising in the east since 2001 Thus I dedicated this paper to the examination of the quality of contemporary Sino Russian relations The hypothesis is that if Sino Russian relations live up to the high level that is reiterated by their respective officials and state sponsored media it needs to be observable that such is thoroughly beneficial for both sides core and long term interests Therefore I have come up with a two tracked approach First I will quantitatively analyze i their voting behaviors at the UNSC and UNGA ii the development and composition of their bilateral trade levels and iii the two state s comparative classical indicators of strength i e population size GDP levels and defense spending levels Second I will qualitatively analyze how Sino Russian relations unfold within the context of i the military security focused SCO ii the regional economic agenda of the two concepts of EAEU and SREB and iii the multilateral global order aspirations of the BRICS and their recent process of institutionalization via the NDB and CRA My research implicates that the relationship has already passed its point closest to equilibrium with Russia becoming increasingly marginalized since Hence this thesis argues that albeit there are areas of matching interests the indicators point towards a questionable long term durability of the Sino Russian relationship

Sino-Russian Relations Gilbert Rozman, 1997 *Sino-Russian Relations* Nanquan Lu, National Council for Eurasian and East European Research (U.S.), 1997 The United States and Contemporary China-Russia Relations Brandon K. Yoder, 2022-04-28 China and Russia have grown progressively closer over the last two decades yielding a China Russia axis uniquely capable of challenging the United States and of revising key aspects of the international order Although the scholarly literature has offered detailed descriptions and various ad hoc explanations of this trend the Sino Russian bilateral relationship has been the subject of very little scrutiny using rigorous theory which has precluded the formation of logically coherent and empirically supported explanations for increasing China Russia cooperation Moreover the cooperative post Cold War trend in the bilateral relationship is puzzling for each of the major paradigms of international relations theory realism constructivism and liberalism This volume brings together leading IR scholars from various theoretical perspectives as well as theoretically informed experts in Chinese and Russian foreign policy The chapters develop and apply nuanced theoretical arguments to derive testable hypotheses for the cooperative trend in China Russia relations In contrast to existing scholarship the book offers generalizable insights that both improve our understanding of a crucially important contemporary case while also advancing IR theory in substantial ways
