Brown,2016-11-03 Cedric C Brown combines the study of literature and social history in order to recognize the immense importance of friendship bonds to early modern society Drawing on new archival research he acknowledges a wide range of types of friendship from the intimate to the obviously instrumental and sees these practices as often co terminous with gift exchange Failure to recognize the inter connected range of a friendship spectrum has hitherto limited the adequacy of some modern studies of friendship often weighted towards the intimate or gendered related issues This book focusses both on friendships represented in imaginative works and on lived friendships in many textual and material forms in an attempt to recognize cultural environments and functions In order to provide depth and coherence case histories have been selected from the middle and later parts of the seventeenth century Nevertheless many kinds of bond are recognized as between patron and client mentor and pupil within the family within marriage in courtship or according to fashionable refined friendship theory Both humanist and religious values systems are registered and friendships are configured in cross gendered and same sex relationships Theories of friendship are also included Apart from written documents the range of texts extends to keepsakes pictures funerary monument and memorial garden features Figures discussed at length include Henry More and the Finch Conway family John Evelyn Jeremy Taylor Elizabeth Carey Mordaunt John Milton Charles Diodati Cyriac Skinner Dorothy Osborne Temple William Temple Lord Arlington Sir Orlando Bridgeman and Katherine Phillips and her circle especially Anne Owen Trevor and Sir Charles Cotterell Sir William Temple Robert C. Steensma,1970 **The Dutch Garden in the Seventeenth Century** John Dixon Hunt,1990 In 1988 89 the three hundredth anniversary of an important historical event the ascension of William and Mary to the thrones of England and Scotland was celebrated in the Netherlands the United Kingdom and the United States of America The symposium on Dutch garden art held at Dumbarton Oaks in May 1988 was the only scholarly event during the anniversary year that focused wholly upon gardens This wide ranging collection of essays charts the history scope and spread of Dutch garden art during the seventeenth century A group of scholars mostly Dutch surveys what has been called the golden age of Dutch garden design Essays discuss the political context of William s building and gardening activities at his palace of Het Loo in the Netherlands the development of a distinctively Dutch garden art during the seventeenth century country house poetry and specific estates and their gardens such as those of Johan Maurits van Nassau Siegen at Cleves or Sorgvliet the estate of Hans Willem Bentinck later the Earl of Portland Other contributions concern typical Dutch planting and layouts with a focus upon Jan van der Green s much

battlefields and French political institutions were introduced into many countries Among enemies as well as among friends French literature was admired and French manners were imitated This glorious period of French history had its seamy aspects however 1 France's military triumphs and cultural achievements did not imply a sound political and social structure One of the most outstanding political abuses was the sale of public offices *venalite des offices* which had become an official institution of the State Almost all offices civil as well as military from the lowest to the highest were publicly sold either by the officials or by the King himself Sale of offices is not just another form of corruption It had serious political implications because it placed power in the hands of officials who were often incapable and unreliable The bureaucracy one of the fundamental institutions of the absolute monarchy was thus deprived of much of its strength Sale of offices also influenced the social structure of the country because it only gave to wealthy people the opportunity to hold office and excluded other classes Further the creation of new offices added to the burden of the taxpayer and had a disastrous effect on France's financial system Finally the investment of a large part of the national wealth in unproductive goods affected unfavorably the economic activity of the country

State Communication and Public Politics in the Dutch Golden Age Arthur der Weduwen, 2024-07-19 State Communication and Public Politics in the Dutch Golden Age describes the political communication practices of the authorities in the early modern Netherlands Der Weduwen provides an in depth study of early modern state communication the manner in which government sought to inform its citizens publicise its laws and engage publicly in quarrels with political opponents These communication strategies including proclamations the use of town criers and the printing and affixing of hundreds of thousands of edicts underpinned the political stability of the seventeenth century Dutch Republic Based on systematic research in thirty two Dutch archives this book demonstrates for the first time how the wealthiest most literate and most politically participatory state of early modern Europe was shaped by the communication of political information It makes a decisive case for the importance of communication to the relationship between rulers and ruled and the extent to which early modern authorities relied on the active consent of their subjects to legitimise their government

Oral and Literate Culture in England, 1500-1700 Adam Fox, 2000-11-09 This book explores the varied vernacular forms and rich oral traditions which were such a part of popular culture in early modern England It focuses in particular upon dialect speech and proverbial wisdom old wives tales and children's lore historical legends and local customs scurrilous versifying and scandalous rumour mongering Adam Fox argues that while the spoken word provides the most vivid insight into the mental world of the majority in this semi literate society it was by no means untouched by written influences Even at

the beginning of the period centuries of reciprocal infusion between complementary media had created a cultural repertoire which had long ceased to be purely oral Thereafter the expansion of literacy together with the proliferation of texts both in manuscript and print saw the rapid acceleration and elaboration of this process By 1700 popular traditions and modes of expression were the product of a fundamentally literate environment to a much greater extent than has yet been appreciated
