English romance and these close readings reveal that our environmental concerns go back further in our history and culture than we think

Chaucer and his English Contemporaries Tony Davenport, 1998-07-31 Modern ways of presenting Chaucer have often made his work seem normal so that The Canterbury Tales and its much studied General Prologue are seen as archetypes of narrative and prologue Tony Davenport argues that study of Chaucer's major work alongside contemporary English poems

reveals the odd and extreme aspects of Chaucer's writing as well as the daring and experimental qualities in his work. The focus of the book is on strategies of narrative and discourse but also includes discussion of other much studied Middle English poems.

Romance and Its Contexts in Fifteenth-century England Raluca L. Radulescu, 2013 Although the anonymous pious Middle English romances and Sir Thomas Malory's *Morte Darthur* have rarely been studied in relation to each other they in fact share at least two thematic concerns: vocabularies of suffering and genealogical concerns as this book demonstrates. By examining a broad cultural and political framework stretching from Richard II's deposition to the end of the Wars of the Roses through the prism of piety, politics and penitence the author draws attention to the specific circumstances in which Sir Isumbras, Sir Gowther, Roberd of Cisely, Henry Lovelich's *History of the Holy Grail* and Malory's *Morte* were read in fifteenth century England. In the case of the pious romances this implies a study of their reception long after their original composition or translation centuries earlier. In Lovelich's case an examination of metropolitan culture leads to an opening of the discussion to French romance models as well as English chronicle writing.

The English Romance in Time Helen Cooper, 2004-06-17 *The English Romance in Time* is a study of English romance across the Middle Ages and the Renaissance. It explores romance motifs: quests and fairy mistresses, passionate heroines and rudderless boats and missing heirs from the first emergence of the genre in French and Anglo-Norman in the twelfth century down to the early seventeenth. This is a continuous story since the same romances that constituted the largest and most sophisticated body of secular fiction in the Middle Ages went on to enjoy a new and vibrant popularity at all social levels in black letter prints as the pulp fiction of the Tudor age. This embedded culture was reworked for political and Reformation propaganda and for the writing of England as well as providing a generous reservoir of good stories and dramatic plots. The different ways in which the same texts were read over several centuries or the same motifs shifted meaning as understanding and usage altered provide a revealing and sensitive measure of historical and cultural change. The book accordingly looks at those processes of change as well as at how the motifs themselves work to offer a historical semantics of the language of romance conventions. It also looks at how politics and romance intersect the point where romance comes true. The historicizing of the study of literature is belatedly leading to a wider recognition that the early modern world is built on medieval foundations. This book explores both the foundations and the building. Similarly generic theory which previously tended to operate on transhistorical assumptions is now acknowledging that genre interacts crucially with cultural context with changing audiences and ideologies and means of dissemination. The generation into which Spenser and Shakespeare were born was the last to be brought up on a wide range of medieval romances in their original forms and they could therefore exploit their generic codings in new texts aimed at both elite and popular audiences. Romance may since then have lost much of its cultural centrality but the universal appeal of these same stories has continued to fuel later works from Bunyan's *Pilgrim's Progress* to C. S. Lewis and Tolkien.

Companion to British Literature Medieval Literature 700 1450 **Boundaries in Medieval Romance** Neil Cartlidge, 2008

Medieval romance frequently and perhaps characteristically capitalises on the dramatic and suggestive possibilities implicit in boundaries not only the geographical political and cultural frontiers that medieval romances imagine and imply but also more metaphorical demarcations It is these boundaries as they appear in insular romances circulating in English and French which the essays in this volume address They include the boundary between reality and fictionality boundaries between different literary traditions modes and cultures and boundaries between different kinds of experience or perception especially the altered states associated with sickness magic the supernatural or the divine
