Sovereignty and Command in Canada-US Continental Air Defence, 1940-57 Richard Goette,2018-07-09 The 1940 Ogdensburg Agreement entrenched a formal defence relationship between Canada and the United States But was Canadian sovereignty upheld Drawing on untapped archival material *Sovereignty and Command in Canada US Continental Air Defence 1940 57* documents the close and sometimes fractious relationship between the two countries Richard Goette challenges prevailing perceptions that Canada s defence relationship with the United States eroded Canadian sovereignty He argues instead that a functional military transition from an air defence system based on cooperation to one based on integrated and centralized command and control under NORAD allowed Canada to retain command of its forces and thus protect Canadian sovereignty Goette combines historical narrative with conceptual analysis of sovereignty command and control systems military professionalism and civil military relations In the process he provides essential insights into the Royal Canadian Air Force s paradigm shift away from its Royal Air Force roots toward closer ties with the United States Air Force and the role of the nation s armed forces in safeguarding its sovereignty *Canadian Warbirds of the Biplane Era - Trainers, Transports and Utility Aircraft* Harold Skaarup,2001-05-29 This aviation handbook provides the reader with a quick general reference to identify military support aircraft flown by Canadians during WWI and post war with the Canadian Air Force the Royal Canadian Air Force the Royal Canadian Navy and the Canadian Army during the biplane era The handbooks in this series include a general description and a photograph from the Canadian Forces Archives of key variants or marks of each aircraft that has been in Canadian service or used by Canadian servicemen overseas Each aircraft is listed alphabetically by manufacturer number and type General details describing the aircrafts engines service ceiling speed armament or weapons load are included along with a brief description of the Canadian squadrons which flew the aircraft This is the second volume in the series It describes the trainers transports and utility aircraft flown by Canadian servicemen during the biplane era A list of museums private aircraft collections and other locations where a number of the survivors might be found is also included The handbook is not a definitive list of all
