**Subject Guide to Books in Print**, 1996      *Radical Skepticism and the Shadow of Doubt* Eli Hirsch, 2017-12-28 Radical Skepticism and the Shadow of Doubt brings something new to epistemology both in content and style At the outset we are asked to imagine a person named Vatol who grows up in a world containing numerous people who are brains in vats and who hallucinate their entire lives Would Vatol have reason to doubt whether he himself is in contact with reality If he does have reason to doubt would he doubt or is it impossible for a person to have such doubts And how do we ourselves compare to Vatol After reflection can we plausibly claim that Vatol has reason to doubt but we don't These are the questions that provide the novel framework for the debates in this book Topics that are treated here in significantly new ways include the view that we ought to doubt only when we philosophize epistemological dogmatism and connections between radical doubt and having a self The book adopts the innovative form of a dialogue play The three characters who are Talmud students as well as philosophers hardly limit themselves to pure philosophy but regale each other with Talmudic allusions reminiscences jokes and insults For them the possibility of doubt emerges as an existential problem with potentially deep emotional significance Setting complex arguments about radical skepticism within entertaining dialogue this book can be recommended for both beginners and specialists      **Maieusis** Dominic Scott, 2007-12-13 Maieusis pays tribute to the highly influential work of Myles Burnyeat whose contributions to the study of ancient philosophy have done much to enhance the profile of the subject around the world What is distinctive about his work is his capacity to deepen our understanding of the relation between ancient and modern thought and to combine the best of contemporary philosophy its insights as well as its rigour with a deep sensitivity to classical texts Nineteen of the world's leading experts in the field examine a wide range of topics in ancient philosophy with a particular focus on Plato Topics include Socrates and the nature of philosophy the different aspects of eros in the Symposium Republic and Phaedrus the Phaedo's arguments for immortality wars and warriors in Plato and the different aspects of the cave allegory in the Republic      **Oxford Studies in Epistemology Volume 7** Tamar Szabó Gendler, John Hawthorne, Julianne Chung, 2022-11-24 Oxford Studies in Epistemology is a periodical publication which offers a regular snapshot of state of the art work in this important field Under the guidance of a distinguished editorial board composed of leading philosophers in North America Europe and Australasia it publishes exemplary papers in epistemology broadly construed Topics within its purview include traditional epistemological questions concerning the nature of belief justification and knowledge the status of scepticism the nature of the a priori etc new developments in epistemology including movements such as naturalized epistemology feminist epistemology social epistemology and virtue epistemology and approaches such as contextualism foundational questions in decision theory confirmation theory and other branches of philosophy of science that bear on traditional issues in epistemology topics in the philosophy of perception relevant to epistemology topics in cognitive science computer science developmental cognitive and social psychology that bear directly

on traditional epistemological questions work that examines connections between epistemology and other branches of philosophy including work on testimony and the ethics of belief Anyone wanting to understand the latest developments at the leading edge of the discipline can start here [Knowledge, Belief, and Character](#) Guy Axtell,2000-04-26 There have been many books over the past decade including outstanding collections of essays on the topic of the ethical virtues and virtue theoretic approaches in ethics But the professional journals of philosophy have only recently seen a strong and growing interest in the intellectual virtues and in the development of virtue theoretic approaches in epistemology There have been four single authored book length treatments of issues of virtue epistemology over the last seven years beginning with Ernest Sosa s *Knowledge in Perspective* Cambridge 1991 and extending to Linda Zagzebski s *Virtue of the Mind* Cambridge 1996 Weighing in with Jonathan Kvanvig s *The Intellectual Virtues and the Life of the Mind* 1992 and James Montmarquet s *Epistemic Virtue and Doxastic Responsibility* 1993 Rowman Littlefield has had a particularly strong interest in the direction and growth of the field To date there has been no collection of articles directly devoted to the growing debate over the possibility and potential of a virtue epistemology This volume exists in the belief that there is now a timely opportunity to gather together the best contributions of the influential authors working in this growing area of epistemological research and to create a collection of essays as a useful course text and research source Several of the articles included in the volume are previously unpublished Several essays discuss the range and general approach of virtue theory in comparison with other general accounts What advantages are supposed to accrue from a virtue based account in epistemology in handling well known problems such as Gettier and Evil Genie type problems Can reliabilist virtue epistemology handle skeptical challenges more satisfactorily than non virtue centered forms of epistemic reliabilism Others provide a needed discussion of relevant analogies and disanalogies between ethical and epistemic evaluation The readings all contribute to our understanding of the relative importance for a theory of justified belief of the reliability of our cognitive faculties and of the individual s responsibility in gathering and weighing evidence Highlights of the readings include direct exchanges between leading exponents of this approach and their critics In addition the volume includes contributions from feminist writers who offer a reassessment of the intellectual virtues from within their own research paradigm **The Sceptical Mode in Modern**

University of Poons and the University of Lausanne Switzerland The present volume contains some of the papers read at this conference as well as an up to date bibliography on Bhartrhari      **Objektive Wirklichkeit und sinnliche Erfahrung**
