Slavery Freedom And Culture Among Early American Workers:

Slavery and Freedom Among Early American Workers Graham Russell Hodges, 2016-07-01 Covering a chronological span from the seventeenth century to the Civil War the book reunites black and labor history including such major topics as the formation of slavery in the North the American Revolution blacks and the Workingmen s Movement and interracial marriage before the Civil War This book provides fascinating reading for students of American history labor history urban history and black history

Slavery and Freedom Among Early American Workers Graham Russell Hodges, 2016-07-01 Covering a chronological span from the seventeenth century to the Civil War the book reunites black and labor history including such major topics as the formation of slavery in the North the American Revolution blacks and the Workingmen s Movement and interracial marriage before the Civil War This book provides fascinating reading for students of American history labor history urban history and black history

In the Shadow of Slavery Leslie M. Harris, 2024-05-31 A new edition of a classic work revealing the little known history of African Americans in New York City before Emancipation The popular understanding of the history of slavery in America almost entirely ignores the institution s extensive reach in the North But the cities of the North were built by and became the home of tens of thousands of enslaved African Americans many of whom would continue to live there as free people after Emancipation In the Shadow of Slavery reveals the history of African Americans in the nation s largest metropolis New York City Leslie M Harris draws on travel accounts autobiographies newspapers literature and organizational records to extend prior studies of racial discrimination She traces the undeniable impact of African Americans on class distinctions politics and community formation by offering vivid portraits of the lives and aspirations of countless black New Yorkers This new edition includes an afterword by the author addressing subsequent research and the ongoing arguments over how slavery and its legacy should be taught memorialized and acknowledged by governments

The American Revolution in New Jersey James J. Gigantino, 2015-04-01 Winner of the 2016 New Jersey Studies Academic Alliance Authors Award for the Edited Works Category Battles were fought in many colonies during the American Revolution but New Jersey was home to more sustained and intense fighting over a longer period of time The nine essays in The American Revolution in New Jersey depict the many challenges New Jersey residents faced at the intersection of the front lines and the home front Unlike other colonies New Jersey had significant economic power in part because of its location between the major ports of New York and Philadelphia New people and new ideas arriving in the colony fostered tensions between Loyalists and Patriots that were at the core of the Revolution Enlightenment thinking shaped the minds of New Jersey s settlers as they began to question the meaning of freedom in the colony Yeoman farmers demanded ownership of the land they worked on and members of the growing Quaker denomination decried the evils of slavery and spearheaded the abolitionist movement in the state When larger portions of New Jersey were occupied by British forces early in the war the unity of the state was crippled pitting neighbor against neighbor for seven years The essays in this collection identify and

explore the interconnections between the events on the battlefield and the daily lives of ordinary colonists during the Revolution Using a wide historical lens the contributors to *The American Revolution in New Jersey* capture the decades before and after the conflict as they interpret the causes of the war and the consequences of New Jersey's reaction to the Revolution

Texas Labor History Bruce A. Glasrud, James C. Maroney, 2013-04-21 Too often observers and writers of Texas history have accepted assumptions about labor movements in the state both organized and not that do not bear up under the light of careful scrutiny Offering a scholarly corrective to such misplaced suppositions the studies in *Texas Labor History* provide a helpful new source for scholars and teachers who wish to fill in some of the missing pieces Tackling a number of such presumptions that a viable labor movement never existed in the Lone Star State that black brown and white laborers both male and female were unable to achieve even short term solidarity that labor unions in Texas were ineffective because of laborers inability to confront employers the editors and contributors to this volume lay the foundation for establishing the importance of labor to a fuller understanding of Texas history They show for example that despite differing working conditions and places in society many workers managed to unite sometimes in biracial efforts to overturn the top down strategy utilized by Texas employers *Texas Labor History* also facilitates an understanding of how the state's history relates to reflects and differs from national patterns and movements This groundbreaking collection of studies offers notable opportunities for new directions of inquiry and will benefit historians and students for years to come

Race and the Early Republic Michael A. Morrison, James Brewer Stewart, 2001-12-01 By 1840 American politics was a paradox unprecedented freedom and equality for men of European descent and the simultaneous isolation and degradation of people of African and Native American descent Historians have characterized this phenomenon as the white republic *Race and the Early Republic* offers a rich account of how this paradox evolved beginning with the fledgling nation of the 1770s and running through the antebellum years The essays in the volume written by a wide array of scholars are arranged so as to allow a clear understanding of how and why white political supremacy came to be in the early United States *Race and the Early Republic* is a collection of diverse insightful and interrelated essays that promote an easy understanding of why and how people of color were systematically excluded from the early U S republic

Slavery and the Founders Paul Finkelman, 2014-04-09 In *Slavery and the Founders* Paul Finkelman addresses a central issue of the American founding how the first generation of leaders of the United States dealt with the profoundly important question of human bondage The book explores the tension between the professed idea of America as stated in the Declaration of Independence and the reality of the early American republic reminding us of the profound and disturbing ways that slavery affected the U S Constitution and early American politics It also offers the most important and detailed short critique of Thomas Jefferson's relationship to slavery available while at the same time contrasting his relationship to slavery with that of other founders This third edition of *Slavery and the Founders* incorporates a new chapter on the regulation and eventual 1808 banning of the African slave trade

African

American Voices Steven Mintz, 2009-04-03 A succinct up to date overview of the history of slavery that places American slavery in comparative perspective Provides students with more than 70 primary documents on the history of slavery in America Includes extensive excerpts from slave narratives interviews with former slaves and letters by African Americans that document the experience of bondage Comprehensive headnotes introduce each selection A Visual History chapter provides images to supplement the written documents Includes an extensive bibliography and bibliographic essay *The Making of Urban America* Raymond A. Mohl, Roger Biles, 2023-10-03 The revised and updated third edition of *The Making of Urban America* includes seven new articles and a richly detailed historiographical essay that discusses the vast urban history literature added to the canon since the publication of the second edition The authors extensively revised introductions and the fifteen reprinted articles trace urban development from the preindustrial city to the twentieth century city With emphasis on the social economic political commercial and cultural aspects of urban history these essays illustrate the growth and change that created modern day urban life Dynamic topics such as technology immigration and ethnicity suburbanization sunbelt cities urban political history and planning and housing are examined *The Making of Urban America* is the only reader available that covers all of U S urban history and that also includes the most recent interpretive scholarship on the subject

Manhood Enslaved Kenneth Edward Marshall, 2011 *Manhood Enslaved* reconstructs the lives of three male captives to bring greater intellectual and historical clarity to the muted lives of enslaved peoples in eighteenth and early nineteenth century central New Jersey where blacks were held in bondage for nearly two centuries The book contributes to an evolving body of historical scholarship arguing that the lives of bondpeople in America were shaped not only by the powerful forces of racial oppression but also by their own notions of gender The book uses previously understudied white authored nineteenth century literature about central New Jersey slaves as a point of departure Reading beyond the racist assumptions of the authors it contends that the precarious day to day existence of the three protagonists Yombo Melick Dick Melick and Quamino Buccau Smock provides revealing evidence about the various elements of slave manhood that gave real meaning to their oppressed lives Kenneth E Marshall is Assistant Professor of History at the State University of New York at Oswego

Right here, we have countless ebook **Slavery Freedom And Culture Among Early American Workers** and collections to check out. We additionally present variant types and furthermore type of the books to browse.
