Penguin Modern Classics the Sleepwalkers Arthur Koestler,2014-09-30 Arthur Koestler s extraordinary history of humanity s changing vision of the universe In this masterly synthesis Arthur Koestler cuts through the sterile distinction between sciences and humanities to bring to life the whole history of cosmology from the Babylonians to Newton He shows how the tragic split between science and religion arose and how in particular the modern world view replaced the medieval world view in the scientific revolution of the seventeenth century He also provides vivid and judicious pen portraits of a string of great scientists and makes clear the role that political bias and unconscious prejudice played in their creativity

The Sleepwalkers. A History of Man's Changing Vision of the Universe. With an Introd. by H. Butterfield ,1959 *The Night Sky, Updated and Expanded Edition* Richard Grossinger,2014-09-30 Ever since Homo sapiens first looked up at the stars we as a species have been looking for meaning in the mysteries of the night sky Over the millennia as our knowledge science and technology developed the stories we told ourselves about the universe and our place in it developed as well In *The Night Sky* Richard Grossinger traces those developments covering multiple aspects of humanity s complex relationship to the cosmos Covering not only astronomy but also cosmology cosmogony astrology and science fiction he offers us a revelatory look at the firmament through his own telescope fitted with an anthropological lens Throughout his explorations Grossinger continually reflects on the deeper meaning of our changing concepts about the universe and creation offering insight into how each new discovery causes us to redefine the values moralities and aesthetics by which we live He also calls into question the self aggrandizing notion that humanity can and will conquer all and injects our strident confidence in science with a healthy dose of humility and wonder Filled with poetic observation and profound questions *The Night Sky* is a brilliant reflection of humanity s relationship with the cosmos a relationship fed by longing doubt and awe
