Social Contract From Hobbes To Rawls:

The Social Contract from Hobbes to Rawls David Boucher, Paul Kelly, 2003-09-02 First published in 2004 Routledge is an imprint of Taylor Francis an informa company Contract, Culture, and Citizenship Mark E. Button, 2010 Explores the concept of the social contract and how it shapes citizenship Argues that the modern social contract is an account of the ethical and cultural conditions upon which modern citizenship depends Provided by publisher **Private Property, Freedom, and Order** Mehmet Kanatli, 2021-11-29 This book looks at how the ideas of freedom property and order are expressed in modern social contract theories SCTs Drawing on the theories of Hobbes Locke Rousseau and Rawls it studies how notions of freedom promulgated by these SCTs invariably legitimise and defend the private ownership of the means of production It argues that capitalism's impact on individual dependence and economic inequality still stems from this model ultimately working in favour of proprietors The author highlights the problematic nature of SCTs which work as ideological mechanisms put forward under the guise of formal equality and formal freedom by focusing on the historical and social context behind them From a methodological point of view the author presents a de ideologization of the contractarian issue and provides insight into the political layers within the discourse of individualism human nature and morality shaping the outer corners of contractarian theory An important intervention in the study of SCTs this volume will be of great interest to scholars and researchers of political and social theory sociology political history and political philosophy **Renegotiating the Social Contract Hobbes to Rawls** Deborah A. Kissinger, 2003 *Justice and the Social Contract* Samuel Freeman, 2009-04-24 Samuel Freeman was a student of the influential philosopher John Rawls he has edited numerous books dedicated to Rawls work and is arguably Rawls foremost interpreter This volume collects new and previously published articles by Freeman on Rawls Among other things Freeman places Rawls within historical context in the social contract tradition and thoughtfully addresses criticisms of this position Not only is Freeman a leading authority on Rawls but he is an excellent thinker in his own right and these articles will be useful to a wide range of scholars interested in Rawls and the expanse of his influence **The Oxford Handbook of Philosophy and Race** Naomi Zack, 2017 The Oxford Handbook of Philosophy and Race provides up to date explanation and analyses by leading scholars in African American philosophy and philosophy of race Fifty one original essays cover major topics from intellectual history to contemporary social controversies in this emerging philosophical subfield that supports demographic inclusion and emphasizes cultural relevance **The Opinion of Mankind** Paul Sagar, 2019-06-04 How David Hume and Adam Smith forged a new way of thinking about the modern state What is the modern state Conspicuously undertheorized in recent political theory this question persistently animated the best minds of the Enlightenment Recovering David Hume and Adam Smith's long underappreciated contributions to the history of political thought The Opinion of Mankind considers how following Thomas Hobbes's epochal intervention in the mid seventeenth century subsequent thinkers grappled with explaining how the state came into being

what it fundamentally might be and how it could claim rightful authority over those subject to its power Hobbes has cast a long shadow over Western political thought particularly regarding the theory of the state This book shows how Hume and Smith the two leading lights of the Scottish Enlightenment forged an alternative way of thinking about the organization of modern politics They did this in part by going back to the foundations rejecting Hobbes's vision of human nature and his arguments about our capacity to form stable societies over time In turn this was harnessed to a deep reconceptualization of how to think philosophically about politics in a secular world The result was an emphasis on the opinion of mankind the necessary psychological basis of all political organization Demonstrating how Hume and Smith broke away from Hobbesian state theory The Opinion of Mankind also suggests ways in which these thinkers might shape how we think about politics today and in turn how we might construct better political theory The Social Contract Rediscovered Wenwei

Guan,2025-06-30 The Social Contract Rediscovered conducts a critical analysis of the historical evolution of legitimacy tracing its development from natural law to positive law and finally to post modern critiques It fills a scholarly gap by addressing the overlooked aspect of the consent process The book begins with a recap of the historical development of social contract theory It draws from a broad base of jurisprudential and social theories to think through how social contract's rise and fall forms an integral part of legitimacy's modernization process from the Enlightenment driven Industrial Revolution's global proliferation to the end of the 20th century It then integrates discussion of consensus construction at three levels private contract legitimacy national development consensus and global modern exchange mechanism in the late 20th century Rather than ask how state legitimacy is constructed in social contract theory the book asks what role an individual plays in the process of consensual legitimacy construction This individual oriented perspective calls for a jurisprudential construction of process legitimacy and consensual legitimacy's onto epistemological integrity Providing a new perspective on the social contract this book will interest scholars of private law international trade and development law **The Political Thought**

of David Hume Aaron Alexander Zubia,2024-02-15 Aaron Alexander Zubia argues that the Epicurean roots of David Hume's philosophy gave rise to liberalism's unrelenting grip on the modern political imagination Eighteenth century Scottish philosopher David Hume has had an outsized impact on the political thinkers who came after him from the nineteenth century British Utilitarians to modern American social contract theorists In this thorough and thoughtful new work Aaron Alexander Zubia examines the forces that shaped Hume's thinking within the broad context of intellectual history with particular focus on the ancient Greek philosopher Epicurus and the skeptical tradition Zubia argues that through Hume's influence Epicureanism which elevates utility over moral truth became the foundation of liberal political philosophy which continues to dominate and limit political discourse today *Hobbesian Moral and Political Theory* Gregory S.

Kavka,2021-01-12 In recent years serious attempts have been made to systematize and develop the moral and political themes of great philosophers of the past Kant Locke Marx and the classical utilitarians all have their current defenders and

are taken seriously as expositors of sound moral and political views. It is the aim of this book to introduce Hobbes into this select group by presenting a plausible moral and political theory inspired by Leviathan. Using the techniques of analytic philosophy and elementary game theory, the author develops a Hobbesian argument that justifies the liberal State and reconciles the rights and interests of rational individuals with their obligations. Hobbes's case against anarchy based on his notorious claim that life outside the political State would be a war of all against all is analyzed in detail, while his endorsement of the absolutist State is traced to certain false hypotheses about political sociology. With these eliminated, Hobbes's principles support a liberal redistributive or satisfactory State and a limited right of revolution. Turning to normative issues, the book explains Hobbes's account of morality based on enlightened self-interest and shows how the Hobbesian version of social contract theory justifies the political obligations of citizens of satisfactory States.

Contemporary Political Philosophy: An Anthology Robert E. Goodin, Philip Pettit, 2019-04-08 The revised and updated edition of Goodin and Pettit's highly acclaimed contemporary political philosophy anthology bringing together the field's most important readings in a single volume. Unparalleled in the breadth and scope of its coverage, this newly revised third edition traces the evolution of political philosophy as a contemporary practice and raises important questions about the impact of current political events. Fully updated to include 49 contemporary and classic selections from the most distinguished scholars in political philosophy. Offers expanded coverage of international affairs and political oppression. Includes essays which represent a diversity of political and ideological positions and features interdisciplinary voices in politics, law, and economics. Edited by two of the field's most highly respected scholars. The ideal collection of primary readings to accompany the *Companion to Contemporary Political Philosophy*. Second Edition. Wiley Blackwell 2012 for coursework in political philosophy.

Rationality, Justice and the Social Contract David P. Gauthier, Robert Sugden, 1993 A multidisciplinary explanation of the contractarian approach to justice.

Encyclopedia of Applied Ethics, 2012-01-10 The Encyclopedia of Applied Ethics Second Edition Four Volume Set addresses both the physiological and the psychological aspects of human behavior. Carefully crafted, well-written, and thoroughly indexed, the encyclopedia helps users, whether they are students just beginning formal study of the broad field or specialists in a branch of psychology, understand the field and how and why humans behave as we do. The work is an all-encompassing reference providing a comprehensive and definitive review of the field. A broad and inclusive table of contents ensures detailed investigation of historical and theoretical material as well as in-depth analysis of current issues. Several disciplines may be involved in applied ethics; one branch of applied ethics, for example, bioethics, is commonly explicated in terms of ethical, legal, social, and philosophical issues. Editor in Chief Ruth Chadwick has put together a group of leading contributors ranging from philosophers to practitioners in the particular fields in question to academics from disciplines such as law and economics. The 376 chapters are divided into 4 volumes, each chapter falling into a subject category including Applied Ethics, Bioethics, Computers and Information Management.

Economics Business Environmental Ethics Ethics and Politics Legal Medical Ethics Philosophy Theories Social and Social Media Concise entries ten pages on average provide foundational knowledge of the field Each article will features suggested readings pointing readers to additional sources for more information a list of related websites a 5 10 word glossary and a definition paragraph and cross references to related articles in the encyclopedia Newly expanded editorial board and a host of international contributors from the US Australia Belgium Canada France Germany Ireland Israel Japan Sweden and the United Kingdom The 376 chapters are divided into 4 volumes each chapter falling into a subject category including Applied Ethics Bioethics Computers and Information Management Economics Business Environmental Ethics Ethics and Politics Legal Medical Ethics Philosophy Theories Social and Social Media [A Pluralist Theory of Constitutional Justice](#) Michel Rosenfeld,2022 This book provides a systematic account of the role of distributive justice in the normative legitimation of liberal constitutions The requirements of distributive justice are highly contested and constitutions are susceptible to influencing those they govern Rosenfeld suggests that liberal constitutions must incorporate justice essentials

Legitimacy Gap Vincent Depaigne,2017 This book addresses the legitimacy gap created by the removal of religion as a source of legitimacy for the foundation of secular states when many of the world s states are still profoundly religious but require procedural rather than substantive grounds for constitutional arrangements **The Oxford Handbook of Political Obligation** ,2025-09-28 The Oxford Handbook of Political Obligation offers an authoritative up to date overview of research in this field In recent decades scholars have developed strong criticisms of the traditional reasons given to explain political obligations At present skepticism about the possibility of a convincing account may well be the dominant position in the literature These philosophical developments run alongside changed political and social circumstances In recent years Western political systems have come under suspicion with citizens led to question traditional reasons why they should obey them Additional factors renewing interest in political obligation include the emergence of new democracies in Eastern Europe occasioned by the fall of the Soviet Union and unrest in many American cities especially over issues of racial justice This Handbook has two main foci contemporary philosophical debates about political obligation and responses to political social circumstances that raise questions about requirements to obey the law Traditional theories of obligation are addressed in a series of essays by well known authorities while additional essays canvass new approaches including the possibility of legitimate states without moral requirements to obey them and skeptical conclusions from important theorists Responses to political and social circumstances include civil disobedience and more radical approaches In addition political obligations are addressed as they bear on emerging democracies and unjust and authoritarian regimes **Political Theory In Transition** Noel O'Sullivan,2013-07-04 Political Theory in Transition is essential reading for those undergraduates and postgraduates who want to make sense of the state of contemporary political theory and political philosophy [Negotiating the Social Contract in Urban Africa: Informal Food Traders in Ghanaian Cities](#) Resnick, Danielle,Sivasubramanian, Bhavna,2020-06-22

How do cities build a social contract with their diverse constituencies and foster political trust among the urban poor This study focuses on informal traders who constitute a major source of food security and employment in urban Africa Centered on Ghana s three main cities we analyze interviews with metropolitan policymakers and a survey of approximately 1 200 informal traders The findings show that expectations about reciprocity and procedural justice play a key role in shaping the probability of trusting one s local government Lower levels of trust were associated with disappointment over the lack of benefits that accompany tax payments to local assemblies Moreover those who had experienced harassment by city authorities were less likely to trust their local government The analysis demonstrates that political trust at the subnational level deserves greater empirical attention especially as countries continue to deepen decentralization initiatives and cities strive to meet global development goals around inclusivity

Capabilities, Gender, Equality Flavio Comim, Martha C. Nussbaum, 2014-04-17 Provides unique reflections on the capability approach and its relevance to new human development policies and political liberalism

The Quantified Worker Ifeoma Ajunwa, 2023-05-11 The information revolution has ushered in a data driven reorganization of the workplace Big data and AI are used to surveil workers and shift risk Workplace wellness programs appraise our health Personality job tests calibrate our mental state The monitoring of social media and surveillance of the workplace measure our social behavior With rich historical sources and contemporary examples The Quantified Worker explores how the workforce science of today goes far beyond increasing efficiency and threatens to erase individual personhood With exhaustive detail Ifeoma Ajunwa shows how different forms of worker quantification are enabled facilitated and driven by technological advances Timely and eye opening The Quantified Worker advocates for changes in the law that will mitigate the ill effects of the modern workplace

Reviewing **Social Contract From Hobbes To Rawls**: Unlocking the Spellbinding Force of Linguistics
