Social Development In Africa Today:

Social Development in South Africa Ndangwa Noyoo, 2025-10-29 This book interrogates and discusses social development in post apartheid South Africa as both an approach to an overarching development process and an envisaged end state of well being It critically analyses social development in the context of a middle income African country that is still not only shaped and defined in many ways by a corrosive history of colonialism and apartheid but is also still saddled with a plethora of social ills which are by products of the former eras Despite the former governing party's characterisation of South Africa as a Developmental State the country remains one of the most unequal societies in the world The book argues that the vestiges of colonialism and apartheid cannot be addressed solely by economic growth and associated activities but require a multiplicity of social economic and political interventions that should be marshalled by both the state and civil society through a robust comprehensive and transformative social development process that is underpinned by indigenous knowledge systems and forms of care that respond to human needs at the micro and macro levels The book argues that social development is one of the best vehicles that could enable South Africa to decisively deal with the remnants of colonialism and apartheid as well as become a developmental state Furthermore it elucidates how social development should result in among others improvements in human well being social relations and social institutions that are equitable sustainable and compatible with principles of democratic governance and social justice It proffers practical steps on how social development could enable South Africa to become a developmental state Lastly the book shows how social policy and economic policy can be conjoined in South Africa to arrive at a holistic process of social development that will facilitate the building of a developmental state in the country Social Development in South Africa is primarily intended for students academics and researchers who are interested in social development international or African social work community development and social policy as well as policy makers and civil society actors

The Handbook of Social Work and Social Development in Africa Mel Gray, 2016-10-26 All recent books on international social work mention Africa only briefly and few engage with the broader field of development studies This book focuses solely on the unique African context engaging with issues relating to social work and development more broadly thus enabling a deeper examination and more complex and nuanced picture to emerge Unlike most academic works this book highlights multiple practitioner voices with authors or co authors that have recently been or are currently practising social workers As an edited book it draws from both academic research as well as lived practice experience supported by strong theoretical positioning and guidance in introductory chapters drawing on African literature wherever possible Looking at case studies from Lesotho Botswana Kenya Zimbabwe Ethiopia Namibia Uganda Nigeria Kenya South Africa Rwanda Zambia and Tanzania and covering established areas of practice such as child protection working with older people working with people with disabilities mental health and mainstream services targeting women as well as emerging areas of developmental social work practice such as humanitarian assistance in post conflict

situations work with immigrants and refugees and the training of community based workers this book takes a future oriented perspective that aims to move beyond well worn critiques to envision constructive and sustainable futures for social work and social development in Africa from a critical perspective **Africa's Social and Religious Quest** Randee

Ijatuyi-Morphé,2014-01-30 This well crafted book probes the key dimensions of Africa s existential predicament It constitutes an intellectual response to a gnawing African situation the starting point for grasping Africa s social and religious quest Beyond split explanations of external versus internal factors e g colonization slavery vs leadership cultural values this study accounts more comprehensively for emergent issues shaping this situation The situation reflects a gamut of problems in traditional African religion and material culture which hitherto defines African communality politics and destinies vis vis the cosmos and nature Thus African religion and communities each with its own attendant values do not operate by critical engagement with larger issues of society and civilization especially those shaped by the advent of post modernity Rather they operate via adaptation The communal drive for natural and social harmony inevitably produces a preservationist view of culture leaving things as they are This study takes an integrative approach to religion society and civilization eschews dichotomies and broadly defines and re signifies life and wholeness as a true end of Africans quest today **Social**

Development in Africa Today Stephen Chan,1991 Working for the Commonwealth Secretariat advising Government Ministries of Social Development and Youth Development on policy and programme strategies to deal with youth unemployment and training field staff from 1980 1985 Stephen Chan grew disillusioned with the planning orthodoxies of government ministries and international agencies alike These essays collected here for the first time present a spirited rejection of development orthodoxies while remaining thoughtful contributions to the development debate The text is in two basic parts one to do with youth and social development the other with the more general question of development aid which forms a context for any social development *Future Directions in Social Development* James Midgley,Manohar

Pawar,2016-11-25 This book invites readers to think about future directions in social development The book succinctly presents the historical context and progress of social development By reflecting on the Millennium and Sustainable Development Goals it discusses the increasing global relevance of several critical themes and issues such as human rights and good governance participation peace gender environment religion and spirituality aging social protection and partnership It appreciates the importance of goals and targets but calls to look beyond them to visualise future directions in social development The book argues that values driven social development needs to focus on knowledge creation dissemination and training draw on multidisciplinary knowledge and professionals promote conscientious consumption create less unequal societies and engage in innovation that brings happiness to everyone **Social Work, Social Welfare, and**

Social Development in Nigeria Mel Gray,Solomon Amadasun,2023-05-23 This groundbreaking book provides a comprehensive account of social work social welfare and social development in Nigeria from a postcolonial perspective It

examines the historical development of social work and social welfare and the colonial legacies affecting contemporary social welfare provision development planning social work practice and social work education Against this historical backdrop it seeks to understand the position of social work within Nigeria's minimalist structure of welfare provision and the reasons why social work struggles for legitimacy and recognition today It covers contexts of social work practice including child welfare juvenile justice disabilities mental health and ageing as well as areas of development related problems and humanitarian assistance as new areas of practice for social workers including internally displaced and trafficked people and their impact on women and children It seeks to understand Nigeria's ethnoreligious diversity and indigenous cultural heritage to inform culturally appropriate social work practice This book offers a global audience insight into Nigeria's developmental issues and problems and a local audience social science and human service researchers educators practitioners students and policymakers a glimpse of what's possible when people work together toward a common goal It will be of interest to all scholars and students of social work development studies and social policy

Global social work Carolyn Noble,, Helle Strauss,Brian Littlechild,2014-06-30 *Global social work crossing borders blurring boundaries* is a collection of ideas debates and reflections on key issues concerning social work as a global profession such as its theory its curricula its practice its professional identity its concern with human rights and social activism and its future directions Apart from emphasising the complexities of working and talking about social work across borders and cultures the volume focuses on the curricula of social work programs from as many regions as possible to showcase what is being taught in various cultural sociopolitical and regional contexts Exploring the similarities and differences in social work education across many countries of the Americas Asia Europe and the Pacific the book provides a reference point for moving the current social work discourse towards understanding the local and global context in its broader significance

The Global Face of Public Faith David Hollenbach,2003-10-09 *The Global Face of Public Faith* addresses the hotly debated question of the role religion should play in politics in both the American and international contexts It engages the fears that public religion threatens American democracy and could lead to a global clash of civilizations and new wars of religion It analyzes how Christianity can attain common ground with other religious communities thus becoming a force for peace and human rights The separation of church from state need not mean the privatization of religion Religious engagement in public life can strengthen civic life by encouraging active citizen participation that promotes both justice and peace The question of religion and politics should thus become an argument about how faith becomes public not whether it does Religious communities Christianity in particular should be vigorous advocates of human rights democratic governance and economic development worldwide In so doing they will also become peacemakers David Hollenbach is a calm voice of reason in a chaotic world with an eye that sees beyond national horizons to where human needs and human rights converge He is convinced that religious traditions can find common ground through the use of rights and rights language *The Global Face of Public Faith* reinforces

his commitment to confronting such issues as poverty and economic development globalism and interreligious dialogue He focuses here on faith and the Catholic tradition in politics the role of the church in American public life and the wider issues of global challenges and ethics in a search for a common set of moral standards and a international ethic through a commitment to universal human rights While not denying the difficulties of forging such a consensus he nonetheless sees the possibility for justice and reasons for hope And hope is something the world can always use *The Routledge Handbook of Social Work Field Education in the Global South* Rajendra Baikady,Sajid S.M.,Varoshini Nadesan,M. Rezaul Islam,2022-07-08 This handbook provides an authoritative account of social work field education in the global south It presents an overview of various aspects of theory and practice modules in the social work curriculum and advances in research in social work field education in the developing world through in depth analyses and global case studies Key features Discusses critical issues and new directions in the theory and practice of social work field education challenges in field work education decolonising field work training developing competent social work graduates aligning fieldwork with cultural practices in indigenous communities the idea of clinical social work and a comparative analysis of social work field supervision Integrates theory and practice of social work field education for students and teachers from diverse geographical and cultural contexts across the global south including countries from South Asia and Asia Africa and Latin America and the Caribbean covering India Bangladesh Pakistan Nepal Sri Lanka China Georgia Philippine Turkey Papua New Guinea Eswatini Republic of Trinidad Tobago Kenya Nigeria South Africa Botswana Chile and Barbados Brings together international comparative perspectives on field work education in social work from leading experts social work educators and social work professionals This handbook will be an essential resource for scholars and researchers of social work development studies social anthropology sociology education South Asian studies and Global South studies It will also be useful to educators and practitioners of social work in global institutions of higher studies as well as civil society organisations **Handbook on Social Protection and Social Development in the Global South** Leila Patel,Sophie Plagerson,Isaac Chinyoka,2023-09-06 This cutting edge Handbook argues for social protection to be situated in a wider system of social welfare and development programmes for low and middle income countries Focusing on the role of citizens and communities in enhancing human development it explores how welfare systems are unfolding in diverse contexts across the global South Digital Transformation and Disruption of Higher Education Andreas Kaplan,2022-06-23 This book analyses higher education s digital transformation and potential disruption from a holistic point of view providing a balanced and critical account from a variety of interdisciplinary viewpoints It looks at case studies on educational and emerging technology their impact the potential risk of digitalization disrupting higher education and also offers a glimpse into what the future of digitalization will likely bring Researchers and practitioners from countries including New Zealand Russia Eswatini India and the USA bring together their knowledge and understanding of this rapidly evolving field The contributors analyse academia s digitalization along the broad topics of the

sector's general digital revolution. The book looks at changes in instructional formats from the Massive Open Online Courses to Small Private Online Courses and artificial intelligence. This work also provides analysis on how skills competences and social networks demanded by future jobs and job markets can be further integrated into higher education. **Social**

Development James Midgley, 1995-08-03 The social development approach seeks to integrate economic and social policies within a dynamic development process in order to achieve social welfare objectives. This first comprehensive textbook on the subject demonstrates that social development offers critically significant insights for the developed as well as the developing world. James Midgley describes the social development approach, traces its origins in developing countries, reviews theoretical issues in the field and analyzes different strategies in social development. By adding the developmental dimension, social development is shown to transcend the dichotomy between the residualist approach which concentrates on targeting resources to the most needy and the institutional approach which urges extensive state involvement in welfare. in Education, 1976 *Global Water Resources* Cecilia Tortajada, Eduardo Araral, 2021-09-26 This is a Festschrift in honour of Professor Asit K Biswas for his manifold contributions to water resources policy and management and his extensive efforts over six decades to generate, synthesize, apply and disseminate knowledge at national and global levels. *Global Water Resources* Festschrift in Honour of Asit K Biswas includes invited contributions on global water issues from 23 globally renowned leaders in the public and private sectors as well as academia who have made significant contributions to the field of water resources policy, management, development and governance. The vision and expertise of this distinguished group of experts provides a unique focus on unfolding water issues and their bearing on world development. This book will be of great value to scholars, students and policymakers interested in water resource governance, sustainable development and climate change. The chapters in this book were originally published as a special issue of the *International Journal of Water Resources Development*. The Coronavirus Crisis and Challenges to Social Development Maria do Carmo dos Santos

Gonçalves, Rebecca Gutwald, Tanja Kleibl, Ronald Lutz, Ndangwa Noyoo, Janestic Twikirize, 2022-01-03 This book is a novel contribution to academic discourses on the coronavirus COVID-19 crisis and how it has impacted societies globally. It proffers an overview on the social development and political measures from both the Global North and Global South to prevent COVID-19's spread. It illuminates major social, political and economic challenges that already existed in different contexts and which are also currently being amplified by COVID-19. Curiously, this global pandemic has opened spaces for different actors across the globe to begin to fundamentally question and challenge the hegemony of the Global North, which sometimes is evident in social work. Linked to the foregoing and while reflecting beyond the pandemic and into the future, the book proposes that social work must become more political at all levels and strive to transform societies, global social development efforts and economic and health systems. This contributed volume of 38 chapters discusses and analyses ethical, social, sociological, social work and social development issues that complement and enrich available literature in the socio-political

economics public health medical ethics and political science It provides various case studies which should enable readers to gain insights into how countries have responded to the pandemic and learn how COVID 19 negatively impacted countries in different parts of the world This book also provides a platform for the articulation of neglected and marginalized voices such as those of indigenous populations the poor or oppressed The chapters are grouped according to three main themes as they relate to research on the COVID 19 pandemic and social work in Africa Asia Europe Latin America and North America Analysis Social Issues and the COVID 19 Pandemic Strategies and Responses in Social Work Globally and Locally Outlook Looking Ahead Beyond the Pandemic Intended to engage a global diverse and interdisciplinary audience The Coronavirus Crisis and Challenges to Social Development is a timely and relevant resource for academics students and researchers in inter alia Social Work Philosophy Sociology Economics and Development Studies **International Policy Studies** Stuart S. Nagel, David Rosenblum, 2000 The basic elements of this book involve integrating five policy problems and four fields of knowledge The five policy problems are economic technology social political and legal The four developing regions are Africa Asia Eastern Europe and Latin America The four fields of knowledge are natural science social science humanities and law

Social Work and Social Development James Midgley, Amy Conley, 2010-05-19 Social workers have been involved in social development for many years but it is only recently that these ideas have been explicitly applied to social work practice The result is that a new and distinctive approach to social work practice known as developmental social work has emerged Developmental social work emphasizes the role of social investment in professional practice These investments meet the material needs of social work's clients and facilitate their full integration into the social and economic life of the community Developmental social workers believe that client strengths and capabilities need to be augmented with public resources and services if those served by the profession are to live productive and fulfilling lives Although developmental social work is inspired by international innovations particularly in the developing countries it is highly relevant to practice in the United States and other Western nations In the first book to lay out a clear framework for developmental social work practice chapters will focus on the traditional fields of social work practice showing how social investment strategies can be adopted by social workers in their daily practice with populations including families and children people with mental illness homeless youth people with disabilities the elderly and those in the correctional system By facilitating clients' full social and economic participation through a variety of strategies such as microenterprise or asset building programs practitioners can help bring about meaningful changes in clients' lives and throughout their communities The editors and contributors offer a highly original exposition of developmental social work theory and practice providing a definitive guide to an emerging and exciting new approach to practice Bulletin of the Atomic Scientists, 1967-06 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world *Education and Social Development*

,2008-01-01 The role of education in the development of societies is an important life perspective that is promoted by families institutions and governments In today s globalized world this reality may presume a worldwide platform where what is termed knowledge societies could gain at the expense of the educationally less endowed There is also the case where postcolonial systems of education in Africa Asia Latin America and other places did not lead to the expected social and technological progress that was promised with independence The 17 chapters in this volume attempt to analyze these complex and interlinked contexts of education and development The book contains important criticisms of the historical developments of education the meanings and changing intersections of development schooling citizenships and their exclusions and the important interplays of globalization knowledge culture and languages Beyond the theoretical focus the book examines learning systems and possibilities in specific regions and countries of the world These include Africa with a specialized focus on women s education and advancement as well as individual country studies on Ghana Burkina Faso Zimbabwe and Somalia In the Asian context the specific chapters analyze the training of teachers in China and women s education and education and the caste system in India These are complemented by select treatments of education and social development in Chile in South America postcolonial post communist Europe Russia and the Caribbean region Together the book s contents should selectively respond to some of the most important social and educational development ideas and debates in our world today

Environmental Change and Sustainable Social Development Sven Hessel,2016-05-06

How does climate change affect social work and social development What actions are needed to integrate the three pillars of economic development environmental development and social protection With global warming and the increase in natural disasters due to the emission of greenhouse gases an alternative approach to the natural environment is vital The main focus of this volume is to emphasize the person in environment concept and to find measures for its implementation For social work the environment has traditionally been viewed as a world of human relationships as opposed to the interaction between man and environment This informative and incisively written edited collection brings together experts from around the world to analyze the person in environment concept and to find measures for its implementation Through the presentation of theoretical and practical platforms for environmental social work or green social work we hope to bring about a new paradigmatic shift in our attitude to the concept of person in environment
