Social History Of Labor In The Middle East:

The Social History Of Labor In The Middle East Ellis Goldberg, 2019-07-11 Once considered of little import the social history of labor in the Middle East emerged in the 1980s as a major area of research as historians sought to uncover the roots of working class organizing This volume the first in an important new series presents a broad overview of recent literature on the history of workers in the Middle East since 1800 in a bold effort to bring together new directions in research and to reexamine the relevance of established ones Contributors explore the history of labor by situating state led industrialization within the context of older artisanal social communities They examine how industrialization enhanced government control over the economy as a whole and analyze the public's reaction to centralized economic authority They also explain the longevity of social coalitions supporting state industrial monopolies and examine their breakdown along with the emergence of Islamist and other oppositional movements Taken together the essays provide a historically grounded context for viewing the shifting relationship between states and the world economy as well as between particular states and classes and form a rich synthesis of current interdisciplinary literature on work and workers in the region

The Social History of Labor in the Middle East Ellis Goldberg, 2017 The social history of labor in the Middle East emerged in the 1980s as a major area of research as historians sought to uncover the roots of working class organizing This volume the first in an important new series presents a broad overview of recent literature on the history of workers in the Middle East since 1800 in a bold effort to bring together new directions in research and to reexamine the relevance of established ones Taken together the essays provide a historically grounded context for viewing the shifting relationship between states and the world economy as well as between particular states and classes

Workers and Working Classes in the Middle East Zachary Lockman, 1994-01-01 This book brings together for the first time the work of many of the leading scholars in the field of Middle East working class history Using historical material from nineteenth century Syria late Ottoman Anatolia republican Turkey Egypt from the late nineteenth century through the Sadat period Iran before and after the overthrow of the Shah and Ba thist Iraq the authors explore different forms and interpretations of working class identity action and organization as expressed in language culture and behavior In addition they examine different narratives of labor history and the place of workers in their respective national histories Included are articles by Feroz Ahmad Assef Bayat Joel Beinin Edmund Burke III Dipesh Chakrabarty Eric Davis Ellis Goldberg Kristin Koptiuch Zachary Lockman Marsha Pripstein Posusney Donald Quataert and Sherry Vatter The book provides not only an introduction to the state of the field in Middle East working class history but also demonstrates how that field is being influenced by the new paradigms which are transforming labor history and social history more broadly worldwide It also opens the way for fruitful comparisons among Middle Eastern countries and between the Middle East and other parts of the world

State Power and Politics in the Making of the Modern Middle East Lecturer in the Recent Economic History of the Middle East and Fellow Roger Owen, Roger Owen, 2002-04-12 Roger

Owen has fully revised and updated his authoritative text to take into account the considerable developments in the Middle East in the 1990s

Trade Unions and Arab Revolutions Heba F. El-Shazli, 2019-05-24 We started the 2011 revolution and the rest of Egypt followed say Egyptian workers with strong conviction and passion Egyptian independent workers continuous claims of contention and protest repertoires were one of several main factors leading to the January 25 2011 uprising After thirty two years of a Mubarak led authoritarian regime massive protests began in January 2011 and forced President Mubarak to step down from his position on February 11 2011 So how did Egyptian workers challenge the regime and how did they become one of the factors leading to the January 2011 uprising These workers were organized into loose networks of different independent groups that had been protesting for a decade and longer prior to January 2011 These regular protests for over a decade before 2011 challenged the Egyptian authoritarian regime This book examines the combative role of Egyptian independent workers formal and informal organizations as a contentious social movement to challenge the regime It will examine the evolving role of workers as socio economic actors and then as political actors in very political transitions Social movement theory SMT and its mechanisms and social movement unionism SMU will be the lenses through which this research will be presented The methodology used will be the comparative case studies of two different movements where workers who advocated for their rights for a decade prior to January 2011 experienced significantly differing outcomes One case study showcases the municipal real estate tax collection workers who were able to establish a successful social movement and then create an independent trade union The second case study examines an influential group of garment and textile workers who also developed an effective social movement yet they were not able to take it to the next step to establish an independent union I will explore within this research a second question why one group of workers was able to establish an independent union while the other arguably more influential group of workers the garment and textile workers was not able to do so This had an impact on the overall influence they were able to exercise over the regime in addition to their effectiveness as a social movement for change

Ottoman and Republican Turkish Labour History: Volume 17 Touraj Atabaki, Gavin Brockett, 2009-12-17 Examines Ottoman and republican Turkish social and labour history from the end of the nineteenth century to the early 1950s

Marxist Historiographies Q. Edward Wang, Georg G. Iggers, 2015-07-16 Marxist Historiographies is the first book to examine the ebb and flow of Marxist historiography from a global and cross cultural perspective Since the eighteenth century few schools of historical thought have exerted a more lasting impact than Marxism and this impact extends far beyond the Western world within which it is most commonly analysed Edited by two highly respected authors in the field this book deals with the effect of Marxism on historical writings not only in parts of Europe where it originated but also in countries and regions in Africa Asia North and South America and the Middle East Rather than presenting the chapters geographically it is structured with respect to how Marxist influence was shown in the works of historians in a particular area This title takes a dual approach to the subject some chapters are

national in scope addressing the Marxist impact on historical practices within a country whereas others deal with the varied expressions of Marxist historiography throughout a wider region Taking a truly global perspective on this topic Marxist Historiographies demonstrates clearly the breadth and depth of Marxism's influence in historical writing throughout the world and is essential reading for all students of historiography **The Oxford Handbook of Contemporary**

Modern Middle East, Third Edition Mehran Kamrava, 2013-10-05 From the fall of the Ottoman Empire through the Arab Spring this title offers a classic treatise on the making of the contemporary Middle East remains essential reading for students and general readers who want to gain a better understanding of this diverse region [Labour History and the Economy in Iran](#) Mary Yoshinari, Serhan Afacan, 2025-02-20 Iran underwent major economic changes in the twentieth century but these have to date largely been studied in the context of oil centralization and revolutions This book examines Iran's economic development and the people who made it possible from the late Qajar period to the Revolution of 1979 Containing a wide spectrum of historical viewpoints and methodologies the book uses previously understudied Iranian archives to examine

the economic and labour history of Iran together By doing so the chapters in the book show that Iranian workers had distinct experiences depending on the sector and decade of their employment Other topics covered include the private sector the emergence of social security the effects of economic development on traditional workers and the role of other local economic actors particular to Iran in development family businesses international trade relations worker histories and events in the provinces It will be of appeal to scholars and students of the history economics labour sociology and politics of Iran and the Middle East

Soldiers, Shahs and Subalterns in Iran S. Cronin, 2010-10-27 Against conventional views of the unchallenged hegemony of a modernizing monarchy this book argues that power was continuously contested in Riza Shah's Iran Cronin excavates the successive challenges to Riza Shah's regime posed by a range of subaltern social groups and seeks to restore to these groups a sense of their historical agency

Re-Envisioning Global Development Sandra Halperin, 2013-04-17 Re Envisioning Global Development offers an original conceptualisation of capitalist development from its origins to the present day Most approaches to understanding contemporary development assume that industrial capitalism was achieved through a process of nationally organised economic growth and that in recent years its organisation has become increasingly trans local or global However Halperin shows that nationally organised economic growth has rarely been the case it has only recently come to characterise a few countries and for only a few decades This innovative text elaborates an alternative ontology and way of thinking about global development during the last two centuries one linked not to nations and regions but to a set of essentially trans national relations and connections It argues that capitalist development has everywhere and from the start involved not whole nations or societies but only sectors or geographical areas within states By bringing this aspect of historically normal capitalist development into clearer focus the book clarifies the specific conditions and circumstances that enabled European economies to pursue a more broad based development following World War II and what prevented a similar outcome in the contemporary third world It also clarifies the nature spatial extent and circumstances of current globalising trends Wide ranging and provocative this book is required reading for advanced level students and scholars in development studies development economics and political science

The City in the Ottoman Empire Ulrike Freitag, Malte Fuhrmann, Nora Lafi, Florian Riedler, 2010-11-25 This book examines the city in the Ottoman Empire as a thoroughfare and destination of human migration Drawing upon case studies from across the Middle East and Europe it provides new insights on Ottoman institutions and the structure of society

General Labour History of Africa Stefano Bellucci, Andreas Eckert, 2019 The first comprehensive and authoritative history of work and labour in Africa a key text for all working on African Studies and Labour History worldwide

The Eastern Mediterranean and the Making of Global Radicalism, 1860-1914 Ilham Khuri-Makdisi, 2013-08-03 In this groundbreaking book Ilham Khuri Makdisi establishes the existence of a special radical trajectory spanning four continents

and linking Beirut Cairo and Alexandria between 1860 and 1914 She shows that socialist and anarchist ideas were regularly discussed disseminated and reworked among intellectuals workers dramatists Egyptians Ottoman Syrians ethnic Italians Greeks and many others in these cities In situating the Middle East within the context of world history Khuri Makdisi challenges nationalist and elite narratives of Mediterranean and Middle Eastern history as well as Eurocentric ideas about global radical movements The book demonstrates that these radical trajectories played a fundamental role in shaping societies throughout the world and offers a powerful rethinking of Ottoman intellectual and social history
