Richard M. Golden

Social History Of Western Civilization Readings From The Ancient World To The Seventeenth Century:

Social History of Western Civilization: Readings from the ancient world to the seventeenth century Richard M. Golden,1992-01-01 Social History of Western Civilization Richard M. Golden,1995 *Social History of Western Civilization, Volume 1* Richard M. Golden,1992 **Social History of Western Civilization** Golden,1995-01-01

Readings from the Ancient World to the Seventeenth Century Richard M. Golden,1992 **Culture and Identity in Early Modern Europe (1500-1800)** Barbara B. Diefendorf,Carla Alison Hesse,1993 Explores Natalie Zemon Davis s concept of history as a dialogue not only with the past but with other historians **Passion for History** Natalie Zemon Davis,Denis Crouzet,2010-02-01 The pathbreaking work of renowned historian Natalie Zemon Davis has added profoundly to our understanding of early modern society and culture She rescues men and women from oblivion using her unique combination of rich imagination keen intelligence and archival sleuthing to uncover the past Davis brings to life a dazzling cast of extraordinary people revealing their thoughts emotions and choices in the world in which they lived Thanks to Davis we can meet the impostor Arnaud du Tilh in her classic *The Return of Martin Guerre* follow three remarkable lives in *Women on the Margins* and journey alongside a traveler and scholar in *Trickster Travels* as he moves between the Muslim and Christian worlds In these conversations with Denis Crouzet professor of history at the Sorbonne and well known specialist on the French Wars of Religion Natalie Zemon Davis examines the practices of history and controversies in historical method Their discussion reveals how Davis has always pursued the thrill and joy of discovery through historical research Her quest is influenced by growing up Jewish in the Midwest as a descendant of emigrants from Eastern Europe She recounts how her own life as a citizen a woman and a scholar compels her to ceaselessly examine and transcend received opinions and certitudes Davis reminds the reader of the broad possibilities to be found by studying the lives of those who came before us and teaches us how to give voice to what was once silent The Growth of the Medieval City David M Nicholas,2014-06-17 The first part of David Nicholas s massive two volume study of the medieval city this book is a major achievement in its own right It is also fully self sufficient though many readers will want to use it with its equally impressive sequel which is being published simultaneously In it Professor Nicholas traces the slow regeneration of urban life in the early medieval period showing where and how an urban tradition had survived from late antiquity and when and why new urban communities began to form where there was no such continuity He charts the different types and functions of the medieval city its interdependence with the surrounding countryside and its often fraught relations with secular authority The book ends with the critical changes of the late thirteenth century that established an urban network that was strong enough to survive the plagues famines and wars of the fourteenth and fifteenth centuries **"Saints, Sinners, and Sisters "** JaneL. Carroll,2017-07-05 A collection of original essays *Saints Sinners and Sisters* showcases the diverse questions currently being asked by gender scholars dealing with French Netherlandish and German art from the medieval and early modern periods

Moving beyond the reclamation of personalities and oeuvres of lost female artists the contributors pose questions about gender and sex within specific historical contexts addressing such issues as intended audience use of the object and patronage These avenues of inquiry intersect with larger cultural questions concerning societal control of women The book s three sections Saints Sinners and Sisters Wives Poets are each preceded by a concise introductory essay detailing themes and offering reflective comparisons of theses and information In Saints contributors look at women who were positive exemplar used by society to uphold standards In the second section the essays focus on the power of women s sexuality The third section expands beyond the customary dichotomous division of the first two to examine women in diverse roles not widely studied as positions of women in those times This final section expands our definitions of women s responsibilities and realigns them historically it argues that women and thus gender need to be understood within a much broader historical context and beyond simplistic approaches sometimes superimposed by present day readers on past times This volume answers an acute need for research on the art of Northern Europe prior to the 20th century and highlights the possibilities of new directions in the field The effect of the new scholarship presented here is to broaden the discursive field allowing fluidity of disciplinary boundaries resulting in a volume that is illuminating to historians of more than art alone [Program of the ... Before Bruegel Alison G. Stewart,2017-07-05 Peasant festival imagery began in sixteenth century Nuremberg when the city played host to a series of religious and secular festivals The peasant festival images were first produced as woodcut prints in the decade between 1524 and 1535 by Sebald Beham These peasant festival prints show celebrating in a variety of ways including dancing eating and drinking and playing games In Before Bruegel Alison Stewart takes a fresh look at these images and explores them within their historical and cultural contexts including the introduction of the Lutheran Reformation into the town s institutions and the accompanying re evaluation of the town s popular festivals Stewart goes beyond the black and white approaches of previous interpretations to examine the festival prints in a more complex manner In the first publication of its kind Stewart makes the case for a range of meanings these works held for a sixteenth century audience and for Beham s pictorial inventiveness and his business savvy Beham is credited with inventing the subject of peasant festivals in Northern Renaissance art and for creating a market for the subject by the middle of the sixteenth century with his large scale woodcuts at Nuremberg and with tiny engravings at Frankfurt Stewart shows that the market Beham created for prints with the theme of peasant festivals paved the way for Pieter Bruegel s Netherlandish paintings of the same theme dating but a few years later
