Social Issues and the Social Order Joan Smith,1993-01-01 **Social Issues and the Social Order** Joan M. Smith,1981-01-01 *Social Issues and the Social Order* Joan Smith,1981 Gender, Class and Education (Routledge Revivals) Stephen Walker,Len Barton,2013-11-05 First published in 1983 Gender Class and Education is a collection of papers that formed presentations at the Westhill Sociology of Education Conference in January 1982 and is the fifth such collection to emerge from the annual conference The conference theme Race Class and Gender was not only chosen because of its topicality but also to provide a framework for debate between educational researchers and teachers The papers focus on the reproduction of gender relations through education and provide important insights into how this process works how it is resisted in schools and colleges and the possibilities for radical intervention This volume includes three teaching bibliographies on gender and education which were not presented at the conference but were compiled specially for the book

Power, Ideology, and Control John C. Oliga,2007-08-20 One of the great challenges we face today is coming to grips with forces of power in both theoretical and methodological terms in a way that prepares us for action action that is not totally subject to existing forces The literature has some excellent theoretical accounts of power but these say little about what we should do Most often they are abstract and out of reach of all but a select few In this book however we have a clear cut account of power ideology and control that paves the way for practic minded people to make a genuine attempt at tackling issues of power on both organizational and societal levels John C Oliga suggests a division between what he calls objectivist subjectivist and relational perspectives With objectivism he refers to theories that focus on power as capacities located in social structures These tend to be either synergistic e g Parsonian collective or conflictual e g Marxian conflictual view theoretical orientations With subjectivism he discusses theories that focus on power possessed by agents With relational approaches he places theories that conceive power as a property of interaction among social forces **College For Sale** Wesley Shumar,2013-10-23 This text provides a framework for understanding higher education in the US and other western countries since the 1970s whereby the logic of the market place has increasingly come to dominate all arenas and in context the education system The author calls this process commodification and he describes the transformation of universities in the US and elsewhere as they attempt to accomodate the enforced changes on their academic lives and those of their students The book chronicles changes with the increasing focus on career and the movement towards the instrumental functions of education the financial crisis and the development of a more corporate approach to education of consumption that produce universities heavy with expensive well equipped and powerful administrations and decreasing numbers of ever more disenfranchised faculty The SAGE Handbook of Political Geography Kevin R Cox,Murray Low,Jennifer Robinson,2007-12-18 A thorough and absorbing tour of the sub discipline An essential acquisition for any scholar or teacher interested in geographical perspectives on political process Sallie Marston University of Arizona This unique book is a true

differences in conflict resolution in various forms of state society relations particularly the ways of dealing with and resolving disputes concerning mass incidents involving government interests in China's current social transformation period. It also analyzes how people's mediation organizations interact with the local government when managing and defusing collective disputes. Combining the relevant theories and five conflict resolution measurement models created by Blake and Mouton (1964), this book explains the current interaction model and cooperation mechanism between the state and social organizations in China. To do so, it examines the role of the Lin Le People's Mediation Workroom in dealing with community collective disputes and the respective action strategies and constraints. The book argues that the current state social relations in China are not centered on society or the state but on state-led social pluralism.

Resolutions and Decisions of the Communist Party of the Soviet Union Volume 5 Donald V. Schwartz, 1974-12-15. This set of four volumes is an indispensable reference work for the study of modern Russia in general and Soviet Communism in particular. Ever since its foundation on the eve of the twentieth century, the organization now called the Communist Party of the Soviet Union has been embodying its major policies in documents called resolutions and decisions. These form a much more continuous and extensive record of the evolution of Soviet Communism than the writings of any single leader, and the standard Soviet anthology of these materials has gone through eight editions over a fifty-year period. Yet most of this essential material has been available only in Russian, and even in that language the standard editions have been marred by selectivity and editorial comment that is often politically motivated. At last, students of modern Russian studies have access to a multi-volume work that not only presents the most important Communist Party resolutions and decisions in English but also amplifies the standard Soviet anthology in important respects and provides editorial explanation that is independent of Kremlin politics. The rich store of materials in these four volumes ranges from the formation of the party to the fall of Khrushchev, and it deals with a wide range of issues. The clearly organized volumes each contain a major introductory essay as well as shorter background essays on each party congress, conference, or Central Committee plenum. The documents approved by these meetings are often fundamental in importance, but the centralist operation of the party in power has been such that many of the most vital decisions have been issued in the name of the Central Committee when there was no meeting of that body at all. It is one of the signal achievements of these volumes that the selection of materials included was based on a list of all known party decisions, whether or not they have been included in the main Soviet reference work. The four volumes in this series are edited as an integral set. Each contains a subject index in which Russian abbreviations and acronymic names are translated. Tables summarizing the personnel of the main party executive bodies since 1917 are also provided. At the same time, each of the volumes is built around a coherent period in the development of Russian Communism, and each reflects the special features of its time. Volume 5 covers Brezhnev's consolidation of power; the limits set on his rule are traced through leadership changes, institutional reforms, and policy development. The major industrial reforms and policy development. The major

industrial and agricultural reforms introduced under Brezhnev are documented as are the struggle to implement the reforms the resistance of managerial elites and workers and Brezhnev's attempt to modernize the Soviet economy and improve levels of efficiency and productivity Internal party changes reflecting the stable oligarchy that emerged after Khrushchev's removal are included as well as Brezhnev's commitment to security of tenure for cadres and the changing nature and role of the purge Party efforts to upgrade recruitment procedures to change the qualitative composition of the party to improve the procedures for ensuring routinization and responsiveness in the conduct of party business and to upgrade the party education system are also documented Evidence is provided of the party's struggle with corruption in the Georgian Republic and the regime's inability to cope effectively with the widespread growth of social problems The volume conveys the flavour of oligarchic and bureaucratic politics that emerged with Brezhnev's style of leadership

Dialectical Materialism Gustav A. Wetter, 2024-11-26 Dialectical Materialism 1958 surveys the history of dialectical materialism from its Hegelian beginnings to the death of Stalin and its sequel in the celebrated XXth Party Congress of the C P S U It also presents a systematic account of the theory as it was formulated and discussed by the philosophers of the Soviet Union

The Context of British Politics David Coates, 2025-02-03 First published in 1984 The Context of British Politics is a comprehensive introductory text on British politics which takes a radically different approach from that of standard institutional texts The author argues that in order to grasp the full significance of contemporary British politics it is vital that students understand the social economic and global context in which it operates He guides the reader systematically through a range of social and economic factors tracing the origins of political issues the distribution of political resources the character of political groups and the nature of dominant political beliefs and factions The book provides a clear and highly readable introduction to the capitalist world economy to the weakness of British industrial capital the political influence of labour and capital and to the political impact of social inequality gender discrimination and racial tension on modern Britain It uses this material to explain the nature of the contemporary crisis of both major parties and of the state This book is a must read for students of British politics
