Social Policy Reform and Market Governance in Latin America L. Haagh, C. Helgø, 2002-12-10 This collection offers a critical analytical perspective and fresh empirical data on recent market orientated social policy reforms in Latin America. The six case studies presented examine labour education health and general social development programmes. A particular focus is placed on the ways in which market enhancing reforms such as demand based provision social policy targeting and privatization respond to issues of equity coverage and the quality of provision. *Handbook of Latin American Studies, Vol. 61* Lawrence Boudon, 2006-04-01 The one source that sets reference collections on Latin American studies apart from all other geographic areas of the world. The Handbook has provided scholars interested in Latin America with a bibliographical source of a quality unavailable to scholars in most other branches of area studies. Latin American Research Review Beginning with volume 41 1979 the University of Texas Press became the publisher of the Handbook of Latin American Studies the most comprehensive annual bibliography in the field. Compiled by the Hispanic Division of the Library of Congress and annotated by a corps of more than 140 specialists in various disciplines the Handbook alternates from year to year between social sciences and humanities. The Handbook annotates works on Mexico Central America the Caribbean and the Guianas Spanish South America and Brazil as well as materials covering Latin America as a whole. Most of the subsections are preceded by introductory essays that serve as biannual evaluations of the literature and research under way in specialized areas. The Handbook of Latin American Studies is the oldest continuing reference work in the field. Lawrence Boudon of the Library of Congress Hispanic Division has been the editor since 2000 and Katherine D McCann has been assistant editor since 1999. The subject categories for Volume 61 are as follows: Anthropology Economics Geography Government and Politics Political Economy International Relations Sociology. **Gender and Social Policy in a Global Context** Shireen Hassim, 2006-04-27 This book illustrates why both academic research and policy thinking need to factor in gender hierarchies and structures if they are to address some of the key challenges of contemporary societies: the widespread informality and insecurity of paid work and the crisis of care. **Citizenship, Labour Markets and Democratization** L. Haagh, 2002-01-15 This book presents a re-examination of classical issues in the relationship between different forms of democratization: civil political and social and examines Chile's transition to democracy during the 1990s as a typical case of the modern sequence. It highlights the lasting institutional limits to social democratization in countries that are democratizing in the context of radical market reforms and provides an account of the politics of limiting social deepening in the crucial early years of Chile's transition including a detailed examination of the influence of local union history and labour relations. **From Pinochet to the 'Third Way'** Marcus Taylor, 2006-06-20 This is a comprehensive analysis of three decades of neoliberal policies in Chile from the Pinochet dictatorship until today. Chile is often described as a model of neoliberal development policy. Marcus Taylor questions this description. Examining the contradictions of neoliberalism he demonstrates how it has created a society that is

deeply ridden with inequalities Taylor shows how the tensions that arose from this social inequality led to the emergence of a Third Way neoliberalism in the post dictatorship period Taylor argues that this new development paradigm has failed This is a result of the inability of Third Way neoliberalism to transform social relationships and institutions The nature of this failure affects the direction of popular movements for social change in Latin America during a time of renewed social and political upheaval
