Social Security Reform Financial And Political Issues In International Perspective:

Social Security Reform Robin Brooks, Assaf Razin, 2005-04-04 This book focuses on the underlying economic issues of the debate over public pension system reform **International Perspectives on Social Security Reform** Rudolph Gerhard Penner, 2007 Papers from a February 24 2006 conference held by the Urban Institute to examine social security reform in six OECD countries *Fiscal Policy and Management in East Asia* Takatoshi Ito, Andrew K. Rose, 2009-02-15 Managing fiscal policy the revenues and spending of an individual nation is among the most challenging tasks facing governments Wealthy countries are constrained by complex regulation and taxation policies while developing nations often face high inflation and trade taxes In this volume esteemed economists Takatoshi Ito and Andrew K Rose along with other leading experts examine the problems and challenges facing public finance in East Asian developing countries as well as the United States and Japan *Fiscal Policy and Management in East Asia* explores the inefficient tax systems of many developing countries the relationship between public and private sector economic behavior and the pressing issue of future obligations that governments have undertaken to provide pensions and health care for their citizens Featuring both overviews and analyses of the countries discussed this book will be of value to economists and policymakers seeking to understand fiscal policy in a global context

World Scientific Handbook Of Global Migration (In 3 Volumes) Robert M Sauer, 2024-02-21 As globalization and the flow of labor across the world accelerated during the latter part of the 20th century the presence of foreign born workers in a country s labor market became one of the most prominent and controversial features of modern economies Countries that facilitated the arrival of foreign born individuals often benefited from the increase in labor supply An important channel for the benefits is through lower prices for consumer goods and services in the host country This is not surprising because immigration is just another form of international trade which often leads to cost savings and more diversity in the market The immigrants themselves have also gained from international migration as it provides an opportunity to improve one s standard of living pass remittances to family in the country of origin and find new opportunities for general human flourishing in newly adopted surroundings Despite the myriad benefits that can result from the free movement of labor around the world there is still deep concern and political debate about immigration s aftermath The main economic concern apart from social concerns such as social cohesion centers on whether international migrants adversely impact labor market opportunities of natives The labor market prospects for foreign born individuals both in an absolute sense and in comparison to natives are also very different across continents as well as between countries that are in close proximity to one another This variation could be driven by differences in the flexibility and structure of the host country s labor market or differences in the characteristics of the immigrants themselves Examining the relative importance of these and other possible factors is another main theme in the study of immigration and the labor market It is also addressed in the research presented in this Handbook Migration and the Welfare State Assaf Razin, Efraim Sadka, Benjarong Suwankiri, 2011 This title presents a unified formal framework for

studying how social benefits immigration conflicts are resolved in a range of policy regimes **Beyond Austerity** Costas Meghir, Christopher A. Pissarides, Dimitri Vayanos, Nikolaos Vettas, 2017-10-13 Prominent economists present detailed analyses of the conditions that made Greece vulnerable to economic crisis and offer policy recommendations for comprehensive and radical change More than eight years after the global financial crisis began the economy of Greece shows little sign of recovery and its position in the eurozone seems tenuous Between 2008 and 2014 incomes in Greece shrank by more than 25 percent homes lost more than a third of their value and the unemployment rate reached 27 percent Most articles on Greece in the media focus on the effects of austerity repayment of its debt and its future in the eurozone In **Beyond Austerity** Reforming the Greek Economy leading Greek economists from institutions both within and outside Greece take a broader and deeper view of the Greek crisis examining the pathologies that made Greece vulnerable to the crisis and the implications for the entire eurozone Each chapter takes on a specific policy area examining it in terms of Greece's economic reality and offering possible directions for policy The topics range from macroeconomic issues to markets and their regulation to finance to the public sector Individual chapters address the costs and benefits of participation in the eurozone Greece's international competitiveness taxation pensions the labor market privatization product markets finance education healthcare corruption the justice system and public administration The contributors argue that Greek institutions require a deep overhaul rather than quick fixes to enable long term growth and prosperity **The Vietnamese Health Care System in Change** Kerstin Priwitzer, 2012 Within the last twenty years a large scale bottom up privatization has taken place in Vietnam changing and dismantling the public health care system This process has led to severe tensions inherent in the transitional society of Vietnam between equity and access to health care support especially for the poor elderly migrants and ethnic minorities on the one hand and its efficiency on the other hand The book traces the reform efforts to modernize the health care system by the Communist Party of Vietnam and the Vietnamese government The author bases her findings on little known primary literature and interviews with key stakeholders of the policy network involved in the reform of the health care system thereby painting an authentic atmospheric picture of the profound changes in the health care system in Vietnam

Aging and Economic Growth in the Pacific Region Akira Kohsaka, 2013 First Published in 2013 Routledge is an imprint of Taylor Francis an informa company Labour Economics Bernd Fitzenberger, Werner Smolny, Peter Winker, 2016-11-21 No detailed description available for Labour Economics **Labour Market and Social Protection Reforms in International Perspective** Giuliano Bonoli, 2017-07-05 Social protection systems and labour markets have undergone major changes in the past two decades Welfare states are being reformed scaled back and modernised labour markets at the same time are more precarious more feminised more unequal and throughout the OECD area older The interaction between labour markets and social protection has become increasingly crucial to the social and economic policy mix concerning unemployment the transformation of work the new poverty and even demographics Against this background

an interdisciplinary team of leading labour market and social protection experts from various OECD countries examine the multifaceted aspects of the changing relationship between social protection systems and labour markets They identify and analyse key emerging issues such as the link between employment and social protection financing the adaptation of social protection systems to women s career patterns and the development of new forms of social protection that aim at promoting employment With practical policy guides and recommendations using case studies and comparative chapters this will be engaging reading for policy makers social actors and academics alike

Population Aging, Intergenerational Transfers and the Macroeconomy Robert L. Clark,Naohiro Ogawa,Andrew Mason,2007-01-01 Population aging is a global phenomenon that influences not only the industrialized countries of Asia and the West but also many middle and low income countries that have experienced rapid fertility decline and achieved long life expectancies This book explores how workers and consumers are responding to population aging and examines how economic growth generational equity trade and international capital flows are influenced by population aging The contributors draw on the experience of the developing and industrialized worlds and on countries in Asia North America and Europe They offer new evidence about micro level responses of labor force participation earnings and savings to actual and or perceived demographic change Their broad perspective on population aging spans the entire demographic transition and demonstrates the importance of effective policy response in the early stages of population aging Also included are policy analyses that explore the use of tax policy financial reform and policies targeting immigration and procreation This insightful study will prove invaluable to students and scholars of population economics public sector economics welfare economics social economics and public finance Pension analysts and government policymakers will find the material of great practical use

Gender and Social Security Reform Neil Gilbert,2017-07-05 Aging populations are creating tremendous pressures on social security systems throughout the world lifting the need for reform to the top of policy agendas Proposed reforms often have different implications for men and women At the same time traditional family and gender roles are changing with the decline in fertility rates and the rapid rise in women s participation in the paid labor force While trying to adapt social security systems to the fiscal demands of aging societies policymakers face the compelling challenge of how to design pension reforms that achieve fair outcomes for women Gender and Social Security Reform examines how different countries are attempting to meet this challenge Drawing on comparative studies of European and Latin American countries along with a series of case studies of individual countries the book provides insights into the gender dimensions of alternative designs for reform All of the countries studied have recently reformed or are about to reform their pension systems with a clear trend towards tightening the link between contributions and benefits in order to secure the long term sustainability of pensions The book also alerts policymakers to other issues Should pension systems be gender neutral

or compensate for inequalities in paid and unpaid labor Does compensation preserve gender discrimination Are unisex life tables a reliable or fair redistributive tool for women Or should annuities be linked directly to life expectancy differentiated by sex and potentially other factors Does a minimum pension guarantee risk compromising the principle of individual responsibility and work How can recognition for caring work be balanced with work incentives What can be done to help social security systems preserve freedom of choice in terms of work family balance for women men or the modern family unit as a whole In analyzing the gender implications of recent social security policies and practices **Journal of Economic Literature**, 2006 *The EU's Lisbon Strategy* P. Copeland, 2012-10-23 How successful was the EU's Lisbon Strategy This volume provides the first comprehensive assessment of the Strategy and reflects on its key developments during its 10 year cycle The volume contains both theoretical and empirical contributions by some of the leading scholars of EU studies across the social sciences **Population Ageing - A Threat to the Welfare State?** Tommy Bengtsson, 2010-08-02 Tommy Bengtsson Population ageing the shift in age distribution towards older ages is of immense global concern It is taking place to a varying degree all over the world more in Europe and some Asian countries less on the African continent The worldwide share of people aged 65 years and above is predicted to increase from 7.5% in 2005 to 16.1% in 2050 UN 2007 p 11 The corresponding figures for developed countries are 15.5 and 26.2% and for developing countries 5.5 and 14.6% While population ageing has been going on for some time in the developed world and will continue to do so most of the change is yet to come for the developing world The change in developing countries however is going to be much faster than it has been in the developed world For example while it took more than 100 years in France and more than 80 years in Sweden for the population group aged 65 and above to increase from 7 to 14% of the population the same change in Japan took place over a 25 year period UN 2007 p 13 The scenario for the future is very similar for most developing countries including highly populated countries like China India and Brazil While the start and the speed differ the shift in age structure towards older ages is a worldwide phenomenon stressing the significance of the concept global ageing Individual Accounts for Social Security Reform John A. Turner, 2006 Examines the current state of workers freedom to form unions and bargain collectively and looks at the obstacles facing America's workers who seek to organize into unions in the 21st century *Routledge Encyclopedia of International Political Economy* R. J. Barry Jones, 2002-09-11 This three volume Encyclopedia offers the first comprehensive and authoritative survey of the rapidly developing field of international political economy Its entries cover the major theoretical issues and analytical approaches within the field The set also provides detailed discussion of the contributions of key individuals and surveys a wide range of empirical conditions and developments within the global political economy including its major institutions The Encyclopedia has been designed to be eclectic in approach and wide ranging in coverage Theoretical entries range from discussions of the definition and scope of the field through core methodological questions such as rationalism and the structure agent problem to surveys of the major theories and approaches employed in

Progress and Challenges of Nonfinancial Defined Contribution

Pension Schemes Robert Holzmann, Edward Palmer, Robert Palacios, Stefano Sacchi, 2019-10-18 The individual account based but unfunded approach to mandated public pension systems is a reform benchmark for all pension schemes promising fair and financially sustainable benefits Nonfinancial defined contribution NDC pension schemes originated in Italy and Sweden in the 1990s were then adopted by Latvia Norway and Poland envisaged but not implemented in various other countries such as Egypt and Russia and remain under discussion in many nations around the world such as China and France In its complete form the approach also comprises budget financed basic income provisions and mandated or voluntary funded provisions Volume 1 of this book offers an assessment of countries that were early adopters before addressing key aspects of policy implementation and design review including how best to combine basic income provisions with an NDC scheme how to deal with heterogeneity in longevity and how to adjust NDC scheme design and labor market policies to deliver on reform expectations Volume 2 addresses a second set of issues including the gender pension gap and what family policies can do about it within the NDC framework labor market issues and administrative challenges of NDC schemes and how countries are coping the role of communication in these pension schemes the complexity of cross border pension taxation and much more Progress and Challenges of Nonfinancial Defined Contribution Pension Schemes is the third in a series of books analyzing the progress challenges and adjustment options of this reform revolution for mandated public pension systems Pension reform is a major issue in many countries The development of the nonfinancial defined contribution pension plan in the 90 s was a major advance in pension design By reporting actual country experiences and exploring properties of plan designs this latest collection of essays is a valuable contribution well worth reading Peter Diamond Professor at Massachusetts Institute of Technology 2010 winner of the Nobel Memorial Prize in Economic Sciences A highly stimulating publication for policy makers and researchers alike It pushes the analytical frontier for policy challenges that all public pension schemes are confronted with but that the nonfinancial defined contribution approach promises to handle best Noriyuki Takayama President Research Institute for Policies on Pension and Aging Tokyo and professor emeritus Hitotsubashi University Tokyo In a changing world where pensions are more than ever linked to labor markets communication tools and flexibility considerations this anthology provides a unique up to date analysis of nonfinancial defined contribution pension schemes By mixing international experiences and theoretical studies it demonstrates the high adaptability of such pension schemes to changing social challenges Pierre Devolder Professor of Finance and Actuarial Sciences Catholic University of Louvain Belgium

Transformation of Social Security

Katharina Müller, Andreas Ryll, Hans-Jürgen Wagener, 2012-12-06 This collection of papers focuses on the recent pension reform experiences in Central Eastern Europe while starting from a broader theoretical and empirical context It provides evidence for the political feasibility of radical pension reform considered unlikely in the West The approach is both multi disciplinary and cross regional The book contains papers by

economists political scientists and sociologists The authors come from Germany Poland Hungary the Czech Republic and the US The volume consists of four parts First general questions of transformation and social security in post 1989 Central Eastern Europe are addressed followed by an introduction into issues and role models in the international pension reform debate Then three Central European country cases are presented analysing institutional legacies recent reform measures and relevant political actors A comparative section on Central Eastern European pension reforms concludes this book
