Social Focus On The Unemployed:

Dependencies and Mechanisms of Unemployment and Social Involvement Bettina Sonnenberg, 2014-03-18 People's involvement in social groups and networks constitutes a resource for societies and individuals. More specifically, involvement represents the basis upon which social integration takes place and provides access to material and non-material goods considered to be rewarding for individuals. Despite substantial research suggesting that unemployment triggers social exclusion and social isolation, evidence for the causal influence of unemployment on social involvement is limited. Past studies typically have relied on research methods that are unable to address causality. Using long-term panel data from Germany and panel estimation methods, Bettina Sonnenberg investigates the causal effects of unemployment on people's social involvement. By taking into account selection confounds, she shows that findings from cross-sectional research are misleading and have advanced inaccurate conclusions regarding the social consequences of unemployment. **Research Design**

Julianne Cheek, Elise Juby, 2023-03-25 Designing research is about making decisions to transform an idea into a plan that can provide answers to a research question. This engaging new text provides a serious but accessible introduction to research design and serves as a guide when designing research or reading the research of others. The authors illustrate how designing research is an iterative and reflexive process in which there is constant thinking through and re-visiting of decisions about that design as it develops. **Social Entrepreneurs**

David Crowther, Farzana Quoquab, 2022-06-09 Social Entrepreneurs Mobilisers of Social Change works to fill a gap in research literature exploring the notion of social entrepreneurs, their role, facets and implications to address the social problems. *Activating the Unemployed* Neil Gilbert, Rebecca A. Van Voorhis, 2017-11-30

The last decade has witnessed a conspicuous alteration in policies protecting unemployed people in modern welfare states. Social policies are increasingly designed to encourage economic independence. Policy makers have introduced a wide range of reforms linking disability, unemployment and welfare programs, cash benefits to work-oriented measures. Welfare policies are being framed by a new emphasis on recipients' obligations, emphasizing that the receipt of benefits creates a responsibility to take action towards becoming self-reliant. The objective is to minimize the duration of dependence or improve the well-being of family or community. *Activating the Unemployed* addresses this growing interest in work-oriented measures. This represents a shift in the dominant discourse on social welfare from focus on the citizen's rights to social benefits to emphasis on their responsibilities to work and lead an active life. In this volume, a distinguished array of international contributors provide cross-cultural perspectives to analyze recent diverse policy initiatives to activate the unemployed in nine countries: Britain, France, Italy, the Netherlands, New Zealand, Norway, Sweden, Switzerland, and the United States. Each provides a systematic account of the background, design, implementation, and results of employment-oriented measures. Collectively, they permit comparison of organized responses to common problems in the areas of public assistance, welfare, unemployment, and disability among others. Further chapters seek to broaden perspectives on policy options, the

issues raised and lessons learned in the course of activating the unemployed This thorough and insightful account addresses significant contemporary issues and concerns about welfare social security and unemployment It will aid policy makers professionals and scholars in assessing current trends in welfare in various countries throughout the world

The Unequal Unemployed Maura Sheehan, Mike Tomlinson, 2018-12-21 First published in 1999 this volume is about unemployment and discrimination with a focus on Northern Ireland and its debate over patterns of inequality between unemployed Catholics and Protestants The Unequal Unemployed uses the important and revealing context of Northern Ireland to review the international debate on discrimination and the role of unemployment within it This intellectual and political debate active throughout the past decade represents a conflict between a The traditional view that unequal unemployment is evidence of labour market discrimination against minorities and other distinct social groupings b Recent models which explain unemployment either in terms of individual responsibility or innate inferiority and attack the equal opportunities industry for its attempts at social engineering Maura Sheehan and Mike Tomlinson approach these theories using unique survey evidence gathered through a comprehensive evaluation of anti discrimination policy They contradict the view that differences in unemployment between Catholics and Protestants in Northern Ireland are the result of personal attitudes and religious culture The book demonstrates that unequal unemployment arises from various discriminatory structures and practices all of which are amenable to policy intervention However while more radical measures may achieve change these must be developed within a policy framework which stimulates labour demand and economic development Such a framework is constrained by the continuing political conflict within Northern Ireland

Unemployment and Social Exclusion Sally Hardy, 2013-10-18 Persistent high employment and growing labour market inequality have become entrenched features of many European countries This edited collection of papers focuses on the regional and local dimensions of these problems across the European union as a whole and more particularly in the UK In the addressing the contemporary landscape of unemployment social exclusion and public policy the contributors highlight several key themes including How the process of unemployment and social exclusion have an important local level operation The increasing gender dimension and counts of unemployment to provide effective guides to the true scale of joblessness The need for more local focused policy interventions to help reduce the problems of unemployment employment insecurity and low incomes that now characterise many of the advanced countries

Age Discrimination John Macnicol, 2006-01-12 Age discrimination is a highly topical issue in all industrialised societies against a background of concerns about shortening working lives and ageing populations in the future Based upon detailed research and adopting an interdisciplinary approach this unique study traces the history of the age discrimination debate in Britain and the USA since the 1930s It critically analyses the concepts of ageism in social relations and age discrimination in employment Case studies on generational equity and health care rationing by age are followed by an analysis of the British government s initiatives against age discrimination in employment The book then traces

the history of the debate on health status and old age addressing the question of whether working capacity has improved sufficiently to justify calls to delay retirement and extend working lives It concludes with a detailed examination of the origins and subsequent working of the USA's 1967 Age Discrimination in Employment Act *Social Focus on the Unemployed* John Pullinger, Carol Summerfield, Allan Smith, 1998 *Social Focus on the Unemployed* is the fifth in a series of publications which brings together unemployment statistics from a wide variety of sources to paint a picture of different groups of people in British society This edition looks at unemployed people in the United Kingdom and the experience of unemployment both economically and socially for the individual their household and their family *Social Focus on the Unemployed* contains commentary tables charts and maps covering the following topics structure focus groups households macro risks and solutions micro risks and solutions unemployment experiences income expenditure homes social impact of unemployment and health **Practising Welfare Rights** Neil Bateman, 2006-02-01 *Practising Welfare Rights* aims to improve awareness among people working in social work and advice agencies about the skills required for effective welfare rights work and offers guidance for managers and other professionals about how to develop a welfare rights service Written by a well known author trainer and adviser on welfare rights issues this book includes learning objectives activities to test understanding illustrative case studies It also covers core welfare rights skills such as interviewing legal research negotiation and advocacy and discusses the historical social and economic forces which have shaped welfare rights practice as well as the politics of welfare An accessible book which highlights the place of welfare rights practice in modern society

Changing the Pattern of Unemployment Jerome Segal, 1979 **Civil Society Organizations, Unemployment, and Precarity in Europe** Simone Baglioni, 2014-04-14 This book provides a Europe wide comparative analysis of the role of civil society organizations active in the field of unemployment and precarity It illustrates how crucial civil society organizations are for the inclusion of the young unemployed mainly in two ways by delivering services and by advocating policy

Unemployment, Social Vulnerability, and Health in Europe Detlef Schwefel, Per-Gunnar Svensson, Herbert Zöllner, 2012-12-06 It is not easy to summarize the studies that have dealt with the health effects of unemployment on the unemployed The main problem impeding a comparison of their results is the diversity of theoretical constructs associated with physical and especially mental health and above all an apparently inexhaustible variety of operationalizations of these constructs It is significant that the six conclusions drawn from the present state of unemployment research by the organizers of a recent conference on the individual and social consequences of unemployment included the following request In view of the relevant constructs it seems to be most urgent to find or to develop operationalizations which can be agreed upon in order to guarantee comparability of research results Kieselbach and Wacker 1985 p XX my translation Nevertheless the results of these studies allow the statement that a negative influence of job loss on psychological well being can be regarded as a validated finding The influence on physical health however must be assessed very carefully and in a differentiated

manner The few investigations dealing with this question arrive at different conclusions moreover possibly relieving effects of unemployment on health come into sight

Men, Masculinities and Poverty in the UK Sandy Ruxton, 2002 Men Masculinities and Poverty in the UK was commissioned by Oxfam's UK Poverty Programme to explore how changing economic social and political circumstances are affecting gender relations Sandy Ruxton draws upon a review of the relevant literature and the experience of a wide range of community based groups across the UK in particular those working in the fields of employment training men's health gender based violence and fatherhood He highlights the importance of using a coherent gender analysis to assess the nature scope and effectiveness of work with men and concludes with recommendations for developing work with men in the UK in order to address poverty and gender inequality

Lone Parenthood in the Life Course Laura Bernardi, Dimitri Mortelmans, 2017-11-08 Lone parenthood is an increasing reality in the 21st century reinforced by the diffusion of divorce and separation This volume provides a comprehensive portrait of lone parenthood at the beginning of the XXI century from a life course perspective The contributions included in this volume examine the dynamics of lone parenthood in the life course and explore the trajectories of lone parents in terms of income poverty labour market behaviour wellbeing and health Throughout comparative analyses of data from countries as France the United Kingdom Ireland Germany Belgium Sweden Switzerland Hungary and Australia help portray how lone parenthood varies between regions cultures generations and institutional settings The findings show that one parent households are inhabited by a rather heterogeneous world of mothers and fathers facing different challenges Readers will not only discover the demographics and diversity of lone parents but also the variety of social representations and discourses about the changing phenomenon of lone parenthood The book provides a mixture of qualitative and quantitative studies on lone parenthood Using large scale and longitudinal panel and register data the reader will gain insight in complex processes across time More qualitative case studies on the other hand discuss the definition of lone parenthood the public debate around it and the social and subjective representations of lone parents themselves This book aims at sociologists demographers psychologists political scientists family therapists and policy makers who want to gain new insights into one of the most striking changes in family forms over the last 50 years This book is open access under a CC BY License

Tackling Health Inequalities Dennis Raphael, 2012 Tackling Health Inequalities Lessons from International Experiences provides a unique perspective on health inequalities in Canada and elsewhere This exciting new volume brings together experiences from seven

wealthy developed nations the United States Australia Britain and Northern Ireland Canada Finland Norway and Sweden to analyze their contrasting approaches to reducing avoidable health problems Some nations are successfully responding to health inequalities but Canada and the United States are not among them Why is this and what can we learn from other nations Through a political economy lens *Tackling Health Inequalities* considers how societal structures and institutions shape the distribution of economic political and social resources that affect health disparities amongst the population The volume then goes on to examine how governing authorities come to either confront or ignore these health inequalities and the conditions that create them Through these illustrations it encourages governing authorities that are tackling health inequalities to continue their efforts and directs those that are not such as in Canada and elsewhere towards what must be done This groundbreaking text shows the primary lessons from these international experiences that citizens in Canada and elsewhere need to educate themselves about the importance of tackling health inequalities and then build the political and social movements that will compel governmental authorities to take action This volume will serve as a rich resource for professionals and general readers interested in health studies nursing social work public policy and political economy

International Labour Documentation ,1999 *Tackling Youth Unemployment* Francesca Fazio,Anthony

Forsyth,2014-03-17 Youth have always had higher unemployment rates about twice or more than the average as they are usually the last to be hired in an expansion and the first to be let go in a recession In addition young people engage in extensive job searching in their early years and this can imply considerable job churning as both youth and employers look for a good match This highlights the importance of facilitating the school to work transition and having early interventions to assist such youth before negative conditions set in It also highlights the potential importance of determining those young people most at risk of long term unemployment and of targeting or streaming them into programmes that will yield the largest incremental net benefits given their characteristics Unemployed youth without previous work experience often are not eligible for unemployment insurance benefits when they first enter the labour market When they do receive job search assistance they often face a bewildering array of programmes that are available to assist them often with little guidance to help them select the programs that best meet their needs Consequently ensuring that today s youth do not become a lost generation is an urgent matter George Bernard Shaw once said that it is too bad that youth is wasted on the young implying that youth do not realize the opportunities they have as youth and only see them as they get older There is a danger however that many of today s youth may be never have those opportunities and hence not even see them with hindsight This book and others in the ADAPT Labour Studies Book Series are intended to deal with these challenges to make sure that youth is not wasted on the young **Encyclopedia of Career Development** Jeffrey H.
