Social Forces And Aging An Introduction To Social Gerontology:

Social Forces & Aging Robert C. Atchley, 1994 Social Forces and Aging Robert C. Atchley, 1997 Atchley's interdisciplinary approach has produced a text which provides the concepts, information, insight, and examples students need to achieve a basic understanding of aging as a social process. Covering the physical problems, inner experiences, and instrumental needs of the aging, Atchley examines aging on both an individual and societal level. Atchley covers major areas of theory, research, social policy, and practice in a clear and organized manner to make social gerontology accessible to students from all backgrounds.

Handbook of Social Development Vincent B. Van Hasselt, Michel Hersen, 1992-08-31 Social development over one's lifetime is a complex area that has received considerable attention in the psychological, social psychological, and sociological literature over the years. Surprisingly, however, since 1969 when Rand McNally published Goslin's *Handbook of Socialization*, no comprehensive statement of the field has appeared in book form. Given the impressive data in this area that have been adduced over the last two decades, we trust that our handbook will serve to fill that gap. In this volume, we have followed a lifespan perspective, starting with the social interactions that transpire in the earliest development stages and progressing through childhood, adolescence, adulthood, and finally one's senior years. In so doing, we cover a variety of issues in depth. The book contains 21 chapters and is divided into five parts: I Theoretical Perspectives, II Infants and Toddlers, III Children and Adolescents, IV Adults, and V The Elderly. Each of the parts begins with introductory material that reviews the overall issues to be considered. Many individuals have contributed to the final production of this handbook. Foremost are our eminent contributors who graciously agreed to share with us their expertise. We also thank our administrative and technical staff for their assistance in carrying out the day-to-day tasks necessary to complete such a project. Finally, we thank Eliot Werner, Executive Editor at Plenum, for his willingness to publish and for his tolerance for the delays inevitable in the development of a large handbook.
