conservatism that is found in almost every human mind The Conservatives regarded the parties of the left as faddists or federations of pressure groups In this thorough analysis Coetzee examines the condition of the Conservative party during the two decades preceding World War I a transitional period for the party marked by the foundation of an unprecedented number of conservative pressure groups Cecil s comment Coetzee argues obscures the extent to which conservative pressure groups forced their party to adapt in Edwardian England The British Navy League the Tariff Reform League the Anti Socialist Union and a host of other groups changed the face of British conservatism though not without considerable internal party conflict In addition to providing a complete account of the pressure groups origins organizations successes and failures Coetzee ties their histories to the debates within the Conservative party itself and to the local elections In so doing he demonstrates how the party of the right was ultimately able to convince the electorate that its views were more national and patriotic than those of the parties of the left

Popular Conservatism and the Culture of National Government in Inter-War Britain Geraint Thomas, 2020-11-05 This radical new reading of British Conservatives fortunes between the wars explores how the party adapted to the challenges of mass democracy after 1918 Geraint Thomas offers a fresh perspective on the relationship between local and national Conservatives political strategies for electoral survival which ensured that Conservative activists despite their suspicion of coalitions emerged as champions of the cross party National Government from 1931 to 1940 By analysing the role of local campaigning in the age of mass broadcasting Thomas re casts inter war Conservatism Popular Conservatism thus emerges less as the didactic product of Stanley Baldwin s consensual public image and more concerned with the everyday material interests of the electorate Exploring the contributions of key Conservative figures in the National Government including Neville Chamberlain Walter Elliot Oliver Stanley and Kingsley Wood this study reveals how their pursuit of the politics of recovery enabled the Conservatives to foster a culture of programmatic activist government that would become prevalent in Britain after the Second World War
