Social Implications Of Biological Education:

Social Implications of Biological Education ,1977 **Social Implications of Biological Education** Arnold Brams Grobman,1970 Scientific Process and Social Issues in Biology Education Garland E. Allen,Jeffrey J.W. Baker,2016-09-23

This book complements fact drive textbooks in introductory biology courses or courses in biology and society by focusing on several important points

- 1 Biology as a process of doing science emphasizing how we know what we know
- 2 It stresses the role of science as a social as well as intellectual process one that is always embedded in its time and place in history

In dealing with the issue of science as a process the book introduces students to the elements of inductive and deductive logic hypothesis formulation and testing the design of experiments and the interpretation of data An appendix presents the basics of statistical analysis for students with no background in statistical reasoning and manipulation Reasoning processes are always illustrated with specific examples from both the past eighteenth and nineteenth century as well as the present In dealing with science and social issues this book introduces students to historical sociological and philosophical issues such as Thomas Kuhn s concept of paradigms and paradigm shifts the social constructions view of the history of science as well as political and ethical issues such human experimentation the eugenics movement and compulsory sterilization and religious arguments against stem cell research and the teaching of evolution in schools In addition to specific examples illustrating one point or another about the process of biology or social political context a number of in depth case studies are used to show how scientific investigations are originated designed carried out in particular social cultural contexts Among those included are Migration of monarch butterflies John Snow s investigations on the cause of cholera Louis Pasteur s controversy over spontaneous generation the mass extinction of the dinosaurs and the Tuskegee syphilis experiment

Multiple Representations in Biological Education David F. Treagust,Chi-Yan Tsui,2013-02-01 This new publication in the Models and Modeling in Science Education series synthesizes a wealth of international research on using multiple representations in biology education and aims for a coherent framework in using them to improve higher order learning Addressing a major gap in the literature the volume proposes a theoretical model for advancing biology educators notions of how multiple external representations MERs such as analogies metaphors and visualizations can best be harnessed for improving teaching and learning in biology at all pedagogical levels The content tackles the conceptual and linguistic difficulties of learning biology at each level macro micro sub micro and symbolic illustrating how MERs can be used in teaching across these levels and in various combinations as well as in differing contexts and topic areas The strategies outlined will help students reasoning and problem solving skills enhance their ability to construct mental models and internal representations and ultimately will assist in increasing public understanding of biology related issues a key goal in today s world of pressing concerns over societal problems about food environment energy and health The book concludes by highlighting important aspects of research in biological education in the post genomic information age
