Keskimäki, Alastair H. Leyland**

Social Inequalities Health And Health Care Delivery:

Social Inequalities, Health and Health Care Delivery Jennie J. Kronenfeld, 2002 Over the past decade much sociological research has examined some of the links between social status and health status The results show how higher childhood status predicts better health and lower mortality rates throughout adulthood **Health and Health Care**

Inequities, Infectious Diseases and Social Factors Jennie Jacobs Kronenfeld, 2022-03-28 This next volume in Research in the Sociology of Health Care covers a variety of important social factors and their relationship to health and health care inequities both in the United States and the rest of the world *Social Factors, Health Care Inequities and Vaccination*

Jennie Jacobs Kronenfeld, 2023-08-28 Employing a sociological and broader social sciences approach this volume draws on a variety of contexts including the COVID 19 pandemic to explore wider trends in healthcare and the impact they may have on historically disadvantaged communities **Social Determinants, Health Disparities and Linkages to Health and**

Health Care Jennie Jacobs Kronenfeld, 2013-09-23 This volume looks at the key links between social determinants health disparities and health and health care There is a particular focus on macro level systems and micro level issues including the examination of issues for patients carers and providers of care Impact of Demographics on Health and Healthcare

Jennie Jacobs Kronenfeld, 2010-09-30 Focuses on differences in health and health care as linked to important social factors This title includes six articles looking at racial disparities on a variety of topics such as knowledge of hepatitis C Virus health services received and patients experiences in seeking health care use of CAM services and more Issues in Health and Health Care

Related to Race/Ethnicity, Immigration, SES and Gender Jennie Jacobs Kronenfeld, 2012-09-03 The 30th Anniversary volume of Research in the Sociology of Health Care looks at the important links between major social factors and health and health care The four main factors analysed in the book are race ethnicity immigration Socioeconomic Status SES and gender

Race, Ethnicity, Gender and Other Social Characteristics as Factors in Health and Health Care Disparities

Jennie Jacobs Kronenfeld, 2020-09-28 This volume investigates race ethnicity and gender as factors in health and health care Chapters focus on linkages to health disparities among races health experiences for incarcerated women and issues of hospital and health care spending **Health Systems, Health Services and Inequality in Population Health** Peter P.

Groenewegen, Ilmo Keskimäki, Alastair H. Leyland, 2025-10-29 This open access book shows the scientific and policy added value of combining health systems health services and population health research In doing so the authors create awareness among researchers to look beyond the boundaries of their own discipline and promote cross disciplinary collaboration The book also gives an overview of what is known in the scientific literature about the relationships between the structure of health systems health service provision and utilisation and inequalities in population health Health inequalities are unjust and avoidable and as a focus of health policy in many governments are widely studied in public health research But studies of health inequalities too often ignore the role that health systems and health services play in the production of inequalities in

population health and as a consequence their potential to create or reduce inequalities in health. Studies of inequalities in health often incorporate the social determinants of health. The same societal structures that form the social determinants of health also determine the health system structure and their impact on access to and the provision of health services and the benefits of health service use to patients with different socioeconomic backgrounds. This means that attempts to reduce health inequalities by addressing the social determinants of health must also consider the potential pathway through the health system and the provision of health services. In the final chapter the authors discuss ways of breaking down the barriers between the three approaches. After reading this compact volume researchers will be more aware of the theoretical and methodological approaches in the three areas and more inclined to look beyond the boundaries of their own discipline. *Health Systems, Health Services and Inequality in Population Health* is essential reading for researchers in health systems research, health services research and population health research. In addition, the brief is relevant for health policy researchers, health impact researchers, health economists, epidemiologists, public health practitioners and professionals in health services planning and management.

OECD Health Policy Studies: Health for Everyone? Social Inequalities in Health and Health Systems OECD, 2019-09-27. Good health is a key component of people's well-being. It is a value in itself but through its influence on social education and labour market outcomes, being in good or bad health has also wider implications on people's chances of leading a fulfilling and productive life. Yet even in the OECD countries health inequality persists with severe consequences on the goal of promoting inclusive growth. This report documents a comprehensive range of inequalities in health and health systems to the detriment of disadvantaged population groups in a large set of OECD and EU countries.

Access To Care and Factors That Impact Access, Patients as Partners In Care and Changing Roles of Health Providers Jennie Jacobs Kronenfeld, 2011-10-08. Part of the Research in the Sociology of Health Care series, this title deals with both macro level system issues and micro level issues involving access to care factors that impact access, patients as partners in care and changing roles of health providers.

Health Care Financing Review, 2001

Decentralization In Health Care: Strategies And Outcomes Saltman, Richard, Busse, Reinhard, Figueras, Josep, 2006-12-01. Exploring the capacity and impact of decentralization within European health care systems, this book examines both the theoretical underpinnings as well as practical experience with decentralization.

EBOOK: Decentralization in Health Care: Strategies and Outcomes Richard Saltman, Reinhard Busse, Josep Figueras, 2006-12-16. What are the characteristics that define a Social Health Insurance system? How is success measured in SHI systems? How are SHI systems developing in response to external pressures? Using the seven Social Health Insurance countries in western Europe: Austria, Belgium, France, Germany, Luxembourg, the Netherlands and Switzerland, as well as Israel, this important book reviews core structural and organizational dimensions as well as recent reforms and innovations. Covering a wide range of policy issues, the book explores the pressures these health systems confront to be more efficient, more effective and more responsive. Reviews their

success in addressing these pressures Examines the implications of change on the structure of SHI s as they are currently defined Draws out policy lessons about past experience and likely future developments in SHI systems in a manner useful to policymakers in Europe and elsewhere Social Health Insurance Systems in Western Europe will be of interest to students of health policy and management as well as health managers and policy makers Contributors Helmut Brand Jan Bultman Reinhard Busse Laurent Chambaud David Chinitz Diana M J Delnoij Andr P den Exter Aad A de Roo Anna Dixon Isabelle Durand Zaleski Hans F W Dubois Josep Figueras Bernhard Gibis Stefan Gre Bernhard J G ntert Jean Hermesse Maria M Hofmarcher Martin McKee Pedro W Koch Wulkan Claude Le Pen Kieke G H Okma Martin Pfaff Richard B Saltman Wendy G M van der Kraan J rgen Wasem Manfred Wildner Matthias Wismar Care for Major Health Problems and Population Health Concerns Jennie Jacobs Kronenfeld,2008-10-21 Deals with macro level system issues and micro level issues involving provision of health care as related to major health problems This work examines social demographic and structural problems and a variety of health problems including chronic illnesses mental illness serious acute health problems and disabilities that require health care **Multilevel Modelling for Public Health and Health Services Research** Alastair H. Leyland,Peter P. Groenewegen,2020-02-28 This open access book is a practical introduction to multilevel modelling or multilevel analysis MLA a statistical technique being increasingly used in public health and health services research The authors begin with a compelling argument for the importance of researchers in these fields having an understanding of MLA to be able to judge not only the growing body of research that uses it but also to recognise the limitations of research that did not use it The volume also guides the analysis of real life data sets by introducing and discussing the use of the multilevel modelling software MLwiN the statistical package that is used with the example data sets Importantly the book also makes the training material accessible for download not only the datasets analysed within the book but also a freeware version of MLwiN to allow readers to work with these datasets The book s practical review of MLA comprises Theoretical conceptual and methodological background Statistical background The modelling process and presentation of research Tutorials with example datasets Multilevel Modelling for Public Health and Health Services Research Health in Context is a practical and timely resource for public health and health services researchers statisticians interested in the relationships between contexts and behaviour graduate students across these disciplines and anyone interested in utilising multilevel modelling or multilevel analysis Leyland and Groenewegen s wealth of teaching experience makes this book and its accompanying tutorials especially useful for a practical introduction to multilevel analysis Juan Merlo Professor of Social Epidemiology Lund University Comprehensive and insightful A must for anyone interested in the applications of multilevel modelling to population health S Subu V Subramanian Professor of Population Health and Geography Harvard University Health Systems Performance Assessment Christopher J. L. Murray,David B. Evans,2003-11-06 The World Health Report 2000 has generated considerable media attention controversy in some countries and debate in academic journals This volume brings

together in one place the substance of many of these key debates and reports methodological advances and new empiricism reflecting the evolution of the WHO approach since the year 2000 Specifically the volume presents many differing regional and technical perspectives on key issues major new methodological developments and a quantum increase in the empirical basis for cross country performance assessment It also gives the full report of the Scientific Peer Review Group s exhaustive assessment of these new approaches
