Socialis V 7 Reflexiones Latinoamericanas Sobre Politica Social

Aldo Miguel Olano Alor

Socialis V 7 Reflexiones Latinoamericanas Sobre Política Social:

De Alfonsín a Macri Gustavo Gamallo, 2024-02-01 Esta obra presenta un estudio sobre la política social del Estado nacional argentino durante el período democrático actual. Se detallan los resultados de un análisis sobre los sistemas nacionales de provisión de los servicios sociales entre los que se incluyen la educación obligatoria, la salud, el régimen previsional, las asignaciones familiares, la vivienda social y los programas alimentarios. Este pequeño recorrido histórico sirve para exponer la evolución de esta clase de políticas durante el período 1983-2019 y los efectos que generó tanto negativos como positivos en la población argentina. Los ensayos reunidos en este libro servirán para repensar las prioridades y las posibilidades relacionadas con las políticas sociales. Entendemos que ampliar el debate sobre el futuro de la intervención social del Estado argentino seguramente servirá para que mejore de forma integral y pueda enfrentar más efectivamente las demandas populares que surgen ante los permanentes fracasos económicos. **Handbook of Decolonial Community**

Psychology Christopher C. Sonn, Jesica Siham Fernández, James Ferreira Moura Jr., Monica Eviandaru Madyaningrum, Nick Malherbe, 2024-10-21 This handbook offers refined interpretations of decolonial thought, methodologies and practices in community psychology. As a representative mapping of the broad range of decolonial cosmovisions, experiences and praxes in community psychology and allied disciplines around the globe, it brings together contributions from North America, Latin America, Europe, Oceania, Africa and Asia. It offers an overview of community psychology with a decolonial focus and from a transnational perspective transcending intellectual, geographical and cultural borders and constraining identities, affirming and celebrating the unique identities, experiences and positions of its contributors within the global landscape of knowledge and politics. The handbook illuminates the dynamic intersections between resistance and colonial legacies, foregrounding the enduring struggles against settler colonialism and racial capitalism across diverse geographies, temporalities and histories. Underscoring the urgency of addressing interconnected local and global challenges such as land rights, livelihoods and dignified existence, it offers hopeful yet critical perspectives on radical social justice struggles around the globe. The volume brings together contributions from scholars, academics, educators, researchers, practitioners, activists and community collaborators, and its chapters range in style and format. Some are more aligned with academic writing while others, in the spirit of decolonizing disciplinary logics, are structured through more undisciplined, less constrained writing forms. Each author was invited to question the coloniality of power in and beyond community psychology. As such, the handbook contains productions that trouble the manifestations of coloniality both in the past and in the present, as well as in the different territories of the Majority World, particularly within settler colonial nation states. As a seminal work, the Handbook of Decolonial Community Psychology will further define and shape the contours of knowledge in decolonial community psychology and inspire new generations of scholars, practitioners, students and community organizers to advance the field with innovative ideas and transformative practices.
