in the decades long after the Commu(n)ard refugees left Britain In exploring these different scales of influence the book makes broader contributions to modern British French and European social cultural and intellectual history as well as urban history and the history of exile and migration more generally

Making the Revolution Global Theo Williams,2022-10-18 Making the Revolution Global shows how black radicals transformed socialist politics in Britain in the years before decolonisation African and Caribbean activist intellectuals such as Amy Ashwood Garvey C L R James Jomo Kenyatta Kwame Nkrumah and George Padmore came to Britain during the 1930s and 1940s and intervened in debates about capitalism imperialism fascism and war They consistently argued that any path towards international socialism must have colonial liberation at its heart Although their ideas were met with opposition from many on the British Left they convinced significant sections of the movement of the revolutionary potential of colonised peoples By centring the entanglements between black radicals and the wider British socialist movement Theo Williams casts new light on responses to the 1935 Italian invasion of Ethiopia the 1945 Fifth Pan African Congress and a wealth of other events and phenomena In doing so he showcases a revolutionary tradition that as illustrated by the global Black Lives Matter demonstrations of 2020 is still relevant today

Labour, British radicalism and the First World War Lucy Bland, Richard Carr, 2018-02-26. This book provides a concise set of thirteen essays looking at various aspects of the British left movements of protest and the cumulative impact of the First World War. There are three broad areas this work intends to make a contribution to: the first is to help us further understand the role the Labour Party played in the conflict and its evolving attitudes towards the war; the second strand concerns the notion of work and particularly women's work; the third strand deals with the impact of theory and practice of forces located largely outside the United Kingdom. Through these essays, this book aims to provide a series of thirteen bite-size analyses of key issues affecting the British left throughout the war and to further our understanding of it in this critical period of commemoration.

Labour and the left in the 1980s Jonathan Davis, Rohan McWilliam, 2017-12-11. This volume of essays constitutes the first history of Labour and left wing politics in the decade when Margaret Thatcher reshaped modern Britain. Leading scholars explore aspects of left wing culture, activities and ideas at a time when social democracy was in crisis. There are articles about political leadership, economic alternatives, gay rights, the miners strike, the Militant Tendency and the politics of race. The book also situates the crisis of the left in international terms as the socialist world began to collapse. Tony Blair's New Labour disavowed the 1980s left, associating it with failure, but this volume argues for a more complex approach. Many of the causes it championed are now mainstream, suggesting that the time has come to reassess 1980s progressive politics despite its undeniable electoral failures. With this in mind, the contributors offer ground-breaking research and penetrating arguments about the strange death of Labour Britain.

The Foundations of the British Labour Party Matthew Worley, 2016-12-05. Interest in the Labour Party remains high, particularly following the unprecedented election of a third successive Labour government and amidst the on-going controversies that surround the New Labour project. Increasingly, the ideological basis of the Labour Party has come under scrutiny, with some commentators and party members emphasizing progressive traditions within the party whilst others refer back to the trade union foundation of Labour. This volume brings together a group of scholars working within the field of

labour history to consider the various elements that influenced the early Labour Party from its formation into the 1930s The party's association with the trade union movement is explored through the railwaymen and mineworkers unions while further contributions assess the different ways in which the Independent Labour Party the co-operative movement liberalism Christianity and the local party branches helped lay the foundations for Labour's growth from a parliamentary pressure group to a party of government

The Sunningdale experiment of 1973-4 witnessed the first attempt to establish peace in Northern Ireland through power sharing However its provisions particularly the cross border Council of Ireland proved to be a step too far The experiment floundered amid ongoing paramilitary led violence finally collapsing in May 1974 as a result of the Ulster Workers Council strike Drawing on new scholarship from some of the top political historians working on the period this book presents a series of reflections on how key protagonists struggled with notions of power sharing and the Irish dimension and how those struggles inhibited a deepening of democracy and the ending of violence for so long

Political Ideas in Modern Britain Rodney Barker, 2013-01-11 The rise of the New Right and the collapse of state communism in 1989 has fundamentally changed political thinking in the late twentieth century Rodney Barker has revised and extended his classic text Political Ideas in Modern Britain in the light of these changes His accessible account of political thinking in Britain since the 1880s now includes detailed analysis of the demise of traditional conservatism and socialism the rise and decline of the New Right the growth of feminism liberalism and pluralism Political Ideas in Modern Britain charts the changing intellectual landscape of political thinking illustrating how contemporary political thought is both rooted in tradition and a radical transformation of it Whether the future is liberal communitarian pluralist or simply uncertain this is an essential guide for students of British politics Rodney Barker is Senior Lecturer in Government at the London School of Economics and Political Science
