Rethinking Revolution Leo Panitch, Greg Albo, 2016-12-01 One hundred years ago October 1917 galvanized leftists and oppressed peoples around the globe and became the lodestar for 20th century politics Today the left needs to reckon with this legacy and transcend it Social change as it was understood in the 20th century appears now to be as impossible as revolution leaving the left to rethink the relationship between capitalist crises as well as the conceptual tension between revolution and reform Populated by an array of passionate thinkers and thoughtful activists *Rethinking Revolution* reappraises the historical effects of the Russian revolution positive and negative on political intellectual and cultural life and looks at consequent revolutions after 1917 Change needs to be understood in relation to the distinct trajectories of radical politics in different regions But the main purpose of this Socialist Register edition one century after Red October is to look forward to what might happen next Acclaimed authors interrogate and explore compelling issues including Greg Albo New socialist strategies or detours Jodi Dean Are the multitudes communing Revolutionary agency and political forms today Adolph Reed Are racial minorities revolutionary agents Zillah Eisenstein Revolutionary feminisms today Nina Power Accelerated technology decelerated revolution David Schwartzman Beyond global warming Is solar communism possible Andrea Malm Revolution and counter revolution in an era of climate change **The Socialist Register** Ralph Miliband, 1994 [Marx on Emancipation and Socialist Goals](#) Robert X. Ware, 2018-10-14 This book responds to the need for a retrieval and renewal of the work of Karl Marx through close philosophical analysis of his publications manuscripts and letters especially those relevant to politics morality and the future This philosophical study stands out because of its two principal features First it reviews and develops ideas about the future though often only briefly discussed by Marx and his commentators drawn from Marx's work Second it focuses on collective matters that are critical for Marx's ideas but rarely investigated and still problematic Part One introduces Marx with a discussion of emancipation and freedom in community It then discusses the importance of retrieval and the methodology for promoting it Part Two is about misunderstandings of Marx's ideas about productive development division of labour and organisations Part Three discusses nations morality and democracy all of which Marx supported Part Four takes up Marx's significant but misunderstood ideas about the future and his relation to the anarchists **Revolution and World Politics** Fred Halliday, 1999-08-23 The relation of revolutions to international relations is central to modern history Revolutions have as much as war or nationalism shaped the development of world politics Equally revolutions have been in cause ideology and consequence international events By putting the international politics of revolution centre stage Fred Halliday's book makes a major contribution to the understanding of both revolution and world politics *Revolution* Rosemary H. T. O'Kane, 2000 All of the major work on the subject of revolutions is collected in this useful set Including work from seminal figures such as Hatto and Gottschalk in the 1940s as well as the most important literature all the way through 1998 the articles reprinted here consider the concept theory and causes of
