Society As A Department Store Critical Reflections On The Liberal State:

Society as a Department Store Ryszard Legutko, 2002-01-01 In *Society as a Department Store* Ryszard Legutko wrestles with the emancipatory ideology promulgated by postmodernists libertarians and liberal thinkers Legutko argues that modern Western liberals have embraced a revolutionary ethic they have turned their backs on their own cultural heritage and used its political and ideological apparatus to destroy classical metaphysics and epistemology The book considers the paradoxical implications of this state of affairs for Eastern European intellectuals arguing that with the triumph of liberalism over communism these intellectuals feel compelled to digest an ideology that shares many elements with the oppressive system from which they just liberated themselves Based on hubris rather than genuine humane concerns Legutko mourns not simply the loss of faith in classical Western culture but the way in which that loss is becoming a central point of identity

Relevant No More? Mark D. Brewer, 2003-01-01 This text re examines prevailing views on the political affiliations of religious voters Examining both the history of religious voting behaviour and contemporary trends Mark Brewer argues that the supposedly drastic shift of the allegiance of American Catholics from the Democratic party to the Republican party has been greatly exaggerated He then provides an exploration of the views and outlooks which divide Catholic and Protestant voting behaviour making a convincing case that many of these differences originate in the religions worldviews

On Ordered Liberty Samuel Gregg, 2003-01-01 *On Ordered Liberty* goes beyond the liberal and conservative divide asking its readers to think about the proper ends of human choice and actions in a free society Beginning with the insights of Alexis de Tocqueville and some natural law sources author Samuel Gregg suggests that integral law must be distinguished from most contemporary visions of freedom This requires he believes a complete repudiation of utilitarian ideas as incompatible with human nature and further analysis of the basic but often neglected question what is man

Meaninglessness M. A. Casey, 2002-01-01 What would the world be like if we no longer needed meaning Australian sociologist Michael Casey s revealing work charts the collapse of the metaphysical world and the innate human need for meaning With the decline of Christianity and the demise of secular universalism in the west the meaning and value of metaphysical culture has been

Boston's Cardinal Bernard F. Law, 2002-01-01 Boston's Cardinal a portrait of one of the most respected and influential leaders of the Catholic Church provides a unique view of the Church in the modern world Ever since the 1960s when he spoke out courageously for racial justice as a young priest in Mississippi Bernard Law has witnessed and participated in many of the struggles and events that have shaped American and Church history An unusual childhood spent mainly in Latin America and the Caribbean prepared him for a vocation that has been marked from the beginning by outreach across racial religious and national boundaries A gifted writer Law recorded his reflections in the columns speeches and homilies that are assembled here The book thus provides valuable insight into the man whom many consider to be the quintessential post Vatican II bishop and into the role of the Catholic hierarchy in a time of social political and ecclesiastical turbulence With the growing salience of religion in American public life these writings on such topics as being Catholic and American the Gulf War urban violence Northern Ireland relations with Cuba welfare and affordable housing will be of interest to all who are concerned with advancing religiously grounded moral viewpoints in a pluralistic society
