Marx and Hegel on the Dialectic of the Individual and the Social Sevgi Dogan,2018-08-15 Marx and Hegel on the Dialectic of the Individual and the Social is a detailed investigation of the major works of Hegel and the young Marx with exploring how the concept of the individual is positioned within their ontologies and how this positioning is reflected in their related political views Instead of contrasting a Marxist understanding of the individual with that of a liberal thinker Sevgi Dogan chooses to take Hegel s theory of the state as representative of the modern state which Marx criticizes The decision to be in opposition to Hegel rather than some other liberal thinkers is important for two reasons First since Marx has developed many of his early ideas in critical interaction with Hegel this comparative approach enables the book to present a more thorough and well grounded exposition of Marx s arguments Second since Hegel himself has also criticized the concepts of liberal ideology in many respects differentiating Marx s arguments from those of Hegel s enables the book to underline how and why Hegel s critique of liberal ideology falls short of actually empowering individuals in the way that Marx s account does

The Individual and Society William Armstrong Fairburn,1915 **Individual and Society** Hugo Cartesius,1977 This study analyses the fundamental problem of the individual today as he is faced with a complexity of issues he can no longer handle or even understand The disillusionment of the younger generation is as obvious as is the helplessness of the scientists and politicians who know no better than to try to keep going as before But if this is indicated and emphasized by the uncontrolled world wide inflation and other aspects of economic maladjustments Cartesius is pointing out the factors which support this unsound system and indicates a possible solution

Making Music,

Making Society Josep Martí, Sara Revilla, 2018-01-23 A society is the result of interacting individuals and individuals are also the result of this interaction This interaction happens through music among other factors As such music constitutes a powerful resource for symbolic interaction which constitutes the medium and substance of a culture The importance of music in a society is clearly brought to light in the role that it plays in the three basic parameters of the social logics identity social order and the need for exchange If music is so important to us it is because apart from its assigned aesthetic values it fits closely with the dynamics of each of these three different parameters These parameters which are consubstantial to the social nature of the human being constitute the core of the book as they manifest in musical practices This publication addresses important issues such as the role of music in shaping identities how music and social order are intertwined and why music is so relevant in human interaction The last part of the book explores issues related to the social application of musical research The volume brings together specialists from different academic disciplines with the same powerful starting point music is not merely something related to the social but rather a social life itself something capable of structuring the social experience

The Rise of the Shame Society Marcel H. Van Herpen, 2022-06-01 American society is often characterized as a guilt culture as opposed to non Western shame cultures But is this distinction still valid today Through examples like shaming penalties in criminal law fat shaming and cyberbullying on the social media The Rise of the Shame Society America's Change from a Guilt Culture into a Shame Culture shows how shame is increasingly invading our lives leading to feelings of humiliation and depression Marcel Van Herpen identifies three causes of this phenomenon new childrearing methods the advent of the social media and a transformation of Western individualism He weighs the arguments for and against a shame society and concludes that a guilt centered approach remains preferable Although shame increasingly permeates everyday life the author argues that its rise is not a fatality He emphasizes that shame is a dynamic phenomenon and that one can observe trends which lead to an increase of shame as well as to its decrease Examples of the latter are a growing sensitivity to the pain caused by anti Black racism the decrease of anti LGBTQIA prejudices and efforts to end the stigmatization of people with disabilities Along with exploring its increase The Rise of the Shame Society demonstrates that there are ways to overcome shame

Death, Society, and Human Experience Robert Kastenbaum, Christopher M. Moreman, 2024-03-28 The 13th edition of Death Society and Human Experience provides a panoramic overview of the ways that we are touched by death and dying both as individuals and as members of society A landmark text in the field the authors draw on contributions from the social and behavioral sciences as well as the humanities including perspectives offered through history philosophy religion literature and the arts to provide thorough coverage and understanding of topics associated with the end of life and death and dying By approaching the subject from multiple angles the authors explain the various ways that individual cultural and societal attitudes influence both how and when we die and how we live and deal with the knowledge of death and loss Originally written by Robert Kastenbaum a renowned scholar who

developed one of the world's first death education courses Christopher M Moreman who has worked in the field of death studies for two decades has updated this edition In addition to infusing his close areas of focus both in afterlife beliefs and experiences and how these might affect how people live their lives he's weaved in new coverage of current affairs including The impact of COVID 19 on experiences of death bereavement mourning and more Expanded legalization of physician assisted dying in the United States and several countries Changes in bereavement rituals and traditions stemming from technology use and social media With additional content and classroom extensions available online Death Society and Human Experience remains a thoughtful exploratory and impressively comprehensive overview for undergraduate and graduate courses in death dying and bereavement Societal Dynamics Frederick Betz, 2011-11-25 At both a micro information level and a macro societal level the concepts of knowledge and wisdom are complementary in both decisions and in social structures and institutions At the decision level knowledge is concerned with how to make a proper choice of means where best is measured as the efficiency toward achieving an end Wisdom is concerned with how to make a proper choice of ends that attain best values At a societal level knowledge is managed through science technology and innovation And while science technology is society's way to create new means with high efficiencies they reveal nothing about values Technology can be used for good or for evil to make the world into a garden or to destroy all life It is societal wisdom which should influence the choice of proper ends ends to make the world a garden How can society make progress in wisdom as well as knowledge Historically the disciplines of the physical sciences and biology have provided scientific foundations for societal knowledge But the social science disciplines of sociology economics political science have not provided a similar scientific foundation for societal wisdom To redress this gap Frederick Betz examines several cases in recent history that display a fundamental paradox between scientific technological achievement with devastating social effects i e historical events of ideological dictatorships in Russia Germany China and Yugoslavia He builds a new framework for applying social science perspectives to explain societal histories and social theory Emerging from this methodological and empirical investigation is a general topological theory of societal dynamics This theory and methodology can be used to integrate history and social science toward establishing grounded principles of societal wisdom **Memoirs and Proceedings of the Manchester Literary & Philosophical Society** Manchester Literary and Philosophical Society, 1916
