Social Dynamics Models and Methods

Nancy Brandon Tuma,1984-08-28 Social Dynamics Models and Methods focuses on sociological methodology and on the practice of sociological research This book is organized into three parts encompassing 16 chapters that deal with the basic principles of social dynamics The first part of this book considers the development of models and methods for causal analysis of the actual time paths of change in attributes of individual and social systems This part also discusses the applications in which the use of dynamic models and methods seems to have enhanced the capacity to formulate and test sociological arguments These models and methods are useful for answering questions about the detailed structure of social change processes The second part explores the formulation of the continuous time models of change in both quantitative and qualitative outcomes and the development of suitable methods for estimating these models from the kinds of data commonly available to sociologists The third part describes a stochastic framework for analyzing both qualitative and quantitative outcome of social changes This part also discusses the sociologists perspective on the empirical study of social change processes This text will be of great value to sociologists and sociological researchers Toward a Structural Theory of

Action Peter H. Rossi,2013-10-22 Toward a Structural Theory of Action Network Models of Social Structure Perception and Action centers on the concept of social structure perceptions and actions as well as the strategies through which these concepts guide empirical research This book also proposes a model of status role sets as patterns of relationships defining positions in the social topology This text consists of nine chapters separated into three parts Chapter 1 introduces the goals and organization of the book Chapters 2 4 provide analytical synopsis of available network models of social differentiation and then use these models in describing actual stratification Chapter 5 presents a model in which actor interests are captured Subsequent chapter assesses the empirical adequacy of the two predictions described in this book Then other chapters provide a network model of constraint and its empirical adequacy This book will be valuable to anthropologists economists political scientists and psychologists **Communication Yearbook 10** Margaret L. The Dynamics of Ethnic

Competition and Conflict Susan Olzak,1994-07-01 This study of ethnic violence in the United States from 1877 to 1914 reveals that not all ethnic groups were equally likely to be victims of violence the author seeks the reasons for this historical record This analysis of the causes of urban racial and ethnic strife in large American cities at the turn of the century should comprise important empirical and theoretical reference material for social scientists and historians alike **Challenges**

and Innovations in U.S. Health Care Allen W. Imershein,2019-03-01 Increased concern in the 1960s about the quality and availability of health care in the United States prompted a variety of attempts to develop new policies and to modify the

existing health care system The authors of this book review some of those attempts and provide critical commentary on a broad range of new and continuing problems Their succinct review of many vital aspects of the current health care system clearly demonstrates the successes and failures of health care policy and its impact on the overall system The authors discuss consumer involvement in the health care system the development of neighborhood health clinics health maintenance organizations and health systems agencies veterans medical care chiropractic the use of non physicians in care changing ideologies among physicians and the impact of health education A variety of analytical perspectives are used to evaluate the many issues raised ranging from a highly critical Marxist commentary on fundamental flaws in the U S health system to a pluralist analysis of how the current system might be made to work better
