The Sociological Imagination

C. Wright Mills

Mills, C. Wright. "The Promise." In *The Sociological Imagination*. Oxford University Press, 1959.

- Being Trapped/Introduction (p. 1)
 - Life is full of traps:
 - Personal troubles cannot be overcome
 - It is all around the person's job, family, or income (p. 1)
 - Society rises, and a person falls:
 - someone can become poor or rich
 - a person can lose their job while the other one gains one
 - people get separated and are alone (p. 1)
- Defining Troubles and sociological changes (p. 1)
 - Trouble is all about what happens during history:
 - is not entirely true
 - is mainly about how they associate themselves with their own lives and the course of history (p. 1)
 - It's all about intricate connections and history-making
 - people can't see this because their troubles blind them.
 - History shows the drastic changes in society:
 - It happens when we see how different each gender acts and how the gender roles are switched
 - "The history that now affects every individual in world history. Within this scene and this period, in the course of a single generation, one-sixth of humankind is transformed from all that is feudal and backward into all that is modern, advanced, and fearful. " (Mills, 1)
- The Shaping of History depends on information and what someone needs to know (p.2)

Sociological Odysseybrief Custom:

Soc in Changing World William Kornblum, 2002-08 *Core Sociological Dichotomies* Chris Jenks, 1998-07-08 In this sociology text the contributors provide an introduction to the subject without over simplifying or writing down to their audience The book aims to furnish undergraduates with the knowledge that will help them to understand and practice sociology and also to develop a self perpetuating sociological imagination to enable them to think through new issues and new problems It consists of a series of specially commissioned chapters around binary or dichotomous themes Although many sociologists are critical of dichotomous models of sociological theory and research the device crops up again and again in the history and practice of the subject Jenks and his colleagues use the dichotomies to situate students in current sociological arguments and topical debates For example by examining contradictory pairs of concepts like structure agency local global continuity change students are introduced to alternative explanations for aspects of human conduct over a whole series of issues
