Sociological Analysis Of Aging The Gay Male Perspective:

Sociological Analysis of Aging Joe Michael Cruz, 2013-11-12 *Sociological Analysis of Aging The Gay Male Perspective* is an exploratory study of the life changes homosexual and bisexual men experience as they age. This unique book presents in depth qualitative interviews with gay men aged 55 and older focusing on their physical, mental, and social needs. More than one hundred men offer first hand perceptions on the unique problems they face with regards to employment, retirement, housing, health, and well being and relationships and how they function within or without a social support system. *Sociological Analysis of Aging* fills in the gaps in the existing social science literature on homosexuals and aging, updating findings that were inconclusive when first published and or based on case studies or limited samples. While standard books on aging typically deal with the impact of life events such as child rearing, the empty nest syndrome, and grandparenting, *Sociological Analysis of Aging* deals with the unique realities that gay men face in addition to the universal concerns of the elderly: affordable health care, affordable housing, and adequate coverage for medication costs. The study examines what can be done to assist successful aging for sexual minorities particularly in the areas of social policy, service delivery, and public tolerance. *Sociological Analysis of Aging* focuses on specific research questions: Do aging gay men consider themselves to be physically healthy? Do aging gay men suffer from depression? Do aging gay men have access to social support networks? What are the housing needs of the aging gay community present and future? How involved are aging gay men with family, friends, church, and community? In addition, the men interviewed were asked what if anything was left on a to do list, what the best and worst aspects of aging are, and what if anything they would change about the course their lives had taken. Their answers make *Sociological Analysis of Aging The Gay Male Perspective* an essential resource for therapists, counselors, and social workers and for academics working in sociology, psychology, gerontology, and gay studies. **Sociological Analysis of Aging J.**

Queer Temporalities in Gay Male Representation Dustin Bradley Goltz, 2009-12-04 Through the analysis of over seventy films and thirty television series ranging from Shortbus Sweet Home Alabama and Poseidon to Noah's Arc Brothers Sisters and Dawson's Creek Goltz examines reoccurring narrative structures in popular media that perpetuate the extreme value placed upon young gay male bodies while devaluing health aging and longevity Alienated from the future outside of limited and exclusionary systems of marriage and procreation the gay male is narrated within a circular tragedy that draws upon cultural mythologies of older gay male predation the absence of gay intergenerational mentorship and the gay male as sacrificial victim Using a Burkean framework Goltz makes a theoretical rhetorical and cultural investigation of how the increased visibility of positive gay representation in dominant media shapes contemporary meanings of gay aging heteronormative future homonormative future and queer potential
