key points discussed *The Sociological Perspective* Michael Leming, Raymond De Vries, Brendan Furnish, 2009-10-10
Sociology and Christianity Attempting to bring sociology and Christianity together is like trying to mix oil and water
Christians seem to have as little regard for sociology as sociologists generally have for Christianity However in the middle of
this conflict there is a group bold enough to call themselves Christian sociologists they are not willing to be stereotyped but
are seriously committed to both realms This collection of essays covers topics that are typically addressed in introductory
sociology courses Written from a Christian point of view these essays are also geared for a wide range of readers from
undergraduates to professional sociologists who bring faith commitments to the sociological task The editors goal is to
provide an understanding of societal forces that is informed by a Christian conscience Toward that end certain recurring
themes are found in this book the need for informed Christian social action the conflict between the individual and the
community the conflict between freedom and determinism and the significance of social sin **Routledge Handbook of
Interdisciplinary Research Methods** Celia Lury, Rachel Fensham, Alexandra Heller-Nicholas, Sybille Lammes, Angela
Last, Mike Michael, Emma Uprichard, 2018-07-06 The landscape of contemporary research is characterized by growing
interdisciplinarity and disciplinary boundaries are blurring faster than ever Yet while interdisciplinary methods and
methodological innovation in general are often presented as the holy grail of research there are few examples or discussions
of their development and behaviour in the field This Routledge Handbook of Interdisciplinary Research presents a bold
intervention by showcasing a diversity of stimulating approaches Over 50 experienced researchers illustrate the challenges
but also the rewards of doing and representing interdisciplinary research through their own methodological developments
Featured projects cover a variety of scales and topics from small art science collaborations to the big data of mass
observations Each section is dedicated to an aspect of data handling from collection classification validation to
communication to research audiences Most importantly Interdisciplinary Methods presents a distinctive approach through its
focus on knowledge as process defamiliarising and reworking familiar practices such as experimenting archiving observing
prototyping or translating **The Oxford Textbook on Criminology** Stephen Case, Steve Case, David Manlow, Philip
Johnson, Kate Williams, Roger Smith, 2021 The Oxford Textbook on Criminology has been developed by a team of experts to
