The Sociology of Art and Literature Milton C. Albrecht, James Harwood Barnett, Mason Griff, 1970 **Sociology as an Art Form** Robert A. Nisbet, 1976 A brief introduction to sociology for students and the general reader Forgotten Founders and Other Neglected Social Theorists Christopher T. Conner, Nicholas M. Baxter, David R. Dickens, 2019-05-14 This edited volume highlights the work of ten forgotten and neglected social theorists in the hope of reinvigorating interest in their work and their potential contributions to the analysis of contemporary social issues Each chapter includes a brief biographical sketch an overview of the selected theorist's work and significance and the relevance of their work to one or more contemporary social issues While other similar texts tend to focus primarily on intellectual biography our emphasis here is on the scholar's theories and their application to contemporary social issues We provide a contextualization of each scholar's work using present day social issues or problems Many of these individuals played a significant role in the development of sociology Our hope is to provide a resource that will help re-integrate these marginalized social theorists rescuing them from obscurity and elevating their status **The Cambridge Companion to Adorno** Tom Huhn, 2004-07-05 The great German philosopher and aesthetic theorist Theodor Wiesengrund Adorno 1903-1969 was one of the main

philosophers of the first generation of the Frankfurt School of critical theory An accomplished musician Adorno first focused on the theory of culture and art Later he turned to the problem of the self defeating dialectic of modern reason and freedom In this collection of essays imbued with the most up to date research a distinguished roster of Adorno specialists explore the full range of his contributions to philosophy history music theory aesthetics and sociology Durkheim, the Durkheimians, and the Arts Alexander Tristan Riley, William Watts Miller, W. S. F. Pickering, 2013-08-01 Using a broad definition of the Durkheimian tradition this book offers the first systematic attempt to explore the Durkheimians engagement with art It focuses on both Durkheim and his contemporaries as well as later thinkers influenced by his work The first five chapters consider Durkheim s own exploration of art the remaining six look at other Durkheimian thinkers including Marcel Mauss Henri Hubert Maurice Halbwachs Claude L vi Strauss Michel Leiris and Georges Bataille The contributors scholars from a range of theoretical orientations and disciplinary perspectives are known for having already produced significant contributions to the study of Durkheim This book will interest not only scholars of Durkheim and his tradition but also those concerned with aesthetic theory and the sociology and history of art
