Short, 1990      *An Introduction to the Sociology of Juvenile Delinquency* David Musick, 1995-02-01 This is a challenging book that makes no attempts to oversimplify and trivialize the highly complex subject of juvenile delinquency Its approach is both conceptual and historical It includes information not only about delinquents but also about other types of problem children By doing so the broader social environment of delinquency is better understood and delinquency can be put into a more general conceptual context Fundamental concepts interpretive perspectives and methodologies that are used to describe and analyze juvenile delinquency and related children's problems are presented

*The Social Organization of Juvenile Justice* Aaron Victor Cicourel, 1995-01-01 The Social Organization of Juvenile Justice recasts familiar sociological problems of research within a dramatically new and different theoretical and methodological perspective In seeing law enforcement officers no less than those accused of criminal behavior as locked into the creation of history or more precisely a series of retrospective and prospective interpretations of events both within and disengaged from the social contexts relevant to what purportedly took place Aaron Cicourel redefined the fault lines of contemporary criminology The work makes imaginative use of a wide variety of new techniques of analysis from ethnomethodology to community studies while at no point ignoring basic hard statistical data in this study of juvenile justice in two California cities Cicourel challenges the conventional view that assumes delinquents are natural social types distributed in some ordered fashion and produced by a set of abstract internal or external pressures from the social structure He views the everyday organizational workings of the police probation

departments courts and schools demonstrating how these agencies contribute to various kinds of transformation of the original events that led to law enforcement contact This contextual creation of facts in turn leads to improvised ad hoc interpretations of character structure family life and future prospects In this way the agencies may generate delinquency by their routine encounters with the young His new introduction discusses with great detail the methodology behind his research and responses to earlier critiques of his work
