Kultgen,1988 Exploring the relationship between morality and professional ideals Kultgen examines the structure and organization of occupations and the ideals and ideology associated with professions He argues that professionalization of occupations can both harm and benefit society and that by converting occupations into organized special interest groups the professions serve some sectors of society at the expense of others On the other hand he highlights the positive points of the professional ideal and explores

ways in which it can be used to advance the physical and moral welfare of society Kultgen also shows how it is the practices within the professions that determine whether rules and ideals are used as masks for self interest or for genuinely moral purposes ISBN 0 8122 8094 6 14 95 **Occupations and Society** David Dunkerley,1975 *Sociology of Work and Occupations* Carol Jean Auster,2004 **Liste Thématique Des Descripteurs--sociologie** International Committee for Social Science Information and Documentation,1989 A companion to the International Bibliography of The Social Sciences the Thematic list of descriptors will be a valuable tool for all those contributing to the development of information systems in the social sciences
