

# Personal Troubles/Public Issues

Sociology builds up knowledge of society that is not based on the experience of one individual but accumulated from the research of large numbers of sociologists.

Personal troubles are private problems experienced directly by individual. Public issues are factors outside one's personal control caused by crises in the larger system.

A Case : Being dismissed from job, being unemployed for a person is a personal problem. But when large number of people are unemployed, it becomes a public issue and leads to policy changes designed to relieve private problems.
