Sociology Public Affairs The Chicago School

James T. Carey

Sociology Public Affairs The Chicago School:

Sociology & Public Affairs James T. Carey, 1975-09-01 **Sociology and Public Affairs** James T. Carey, 1975 **The Oxford Handbook of Dewey** Steven Fesmire, 2019-08-19 The Oxford Handbook of Dewey is a comprehensive volume spanning thirty five chapters wherein leading scholars help researchers access particular aspects of Dewey's thought navigate the enormous and rapidly developing literature and participate in current scholarship in light of prospects in key topical areas Beginning with a framing essay calling for a transformation of philosophical research inspired by Dewey contributors interpret appraise and critique Dewey's philosophy **SAGE Qualitative Research Methods** Paul Atkinson, Sara Delamont, 2010-11-17 SAGE has been a major force shaping the field of qualitative methods not just in its specialist methods journals like *Qualitative Inquiry* but in the empirical journals such as *Social Studies of Science* Delving into SAGE's deep backlist of qualitative research methods journals Paul Atkinson and Sara Delmont editors of *Qualitative Research* have selected over 70 articles to represent SAGE's distinctive contribution to methods publishing in general and qualitative research in particular This collection includes research from the past four decades and addresses key issues or controversies such as explanations and defences of qualitative methods ethics research questions and foreshadowed problems access first days in the field field roles and rapport practicalities of data collection and recording data analysis writing and re presentation the rise of auto ethnography life history narrative and autobiography CA and DA and alternatives to the logocentric such as visual methods *Domination and Subjugation in Everyday Life* Lonnie Athens, 2017-07-05 Reputable scholars have long charged that symbolic interactionism which is based on the principle of sociality discounts the importance that subordination plays in human groups Emphasizing dominance and power Athens explains how subordination operates in human group life from a new interactionist's perspective aptly dubbed by him radical interactionism Expanding on the work of sociologist Robert E Park Athens explains the nature and operation of super ordination and subordination which he believes affects all social interaction between human beings and groups He then develops a generic framework and a common terminology to help explain all forms of social conflicts Athens argues that a radical interactionism disentangles the nature of domination power and force as well as the relationship among them in a manner consistent with the basic premises of the Chicago school of pragmatism This book offers a provocative and intelligent outline of the development and evolution of radical interactionism a perspective interactionists can add to their toolbox with profit *Sociological Human Ecology* Michael Micklin, Harvey M Choldin, 2019-09-18 First published in This volume grew out of concerns raised by the contributors and a few others over the current status of human ecology within the field of sociology Stemming from conferences and subsequent discussions by a group of sociologist demographers on recent developments in sociological human ecology which started at the annual meeting of the Population Association of America in 1976 the original essays contained in this book are designed to review and assess the current state of knowledge in the field *Dilemma Qualitative*

Method Martyn Hammersley, 2003-09-02 First Published in 1990 Routledge is an imprint of Taylor Francis an informal company

Social Constructionisms Titus Hjelm, 2014-05-22 Social constructionism is one of the key ideas in the social sciences offering different frameworks for understanding the human world But what does it mean when we say that something is socially constructed What exactly do we construct in our social interaction And what actually does the constructing This dynamic text invites critical reflection on these questions and more outlining the various ways that social constructionist theory has been utilised in the social sciences Hjelm introduces the basic assumptions of social constructionism before examining the differences between various constructionist traditions and perspectives from Berger and Luckmann's sociology of knowledge to constructionist approaches in social psychology and discourse analysis Through a diverse range of case studies on religion crime gender and the media the chapters demonstrate how to apply constructionist ideas in empirical social research *Social Constructionisms* is thus an invaluable source for students and scholars across the social sciences

The Ethnographic Imagination (Routledge Revivals) Paul Atkinson, 2014-04-04 First published in 1990 The *Ethnographic Imagination* explores how sociologists use literary and rhetorical conventions to convey their findings and arguments and to persuade their colleagues and students of the authenticity of their accounts Looking at selected sociological texts in the light of contemporary social theory the author analyses how their arguments are constructed and illustrated and gives many new insights into the literary convention of realism and factual accounts

The Criminology of Edwin Sutherland Mark S. Gaylord, 2020-10-14 Edwin Sutherland is the acknowledged father of American criminology This is the first full length analysis of his work and his person Unlike the European schools of criminology which sought to locate deviant behaviour within the deep structures of the economy Sutherland eschewed such explanations in favour of proximate and observable causes He located the sources of crime in the association and interaction of specific groups of people For Sutherland crime as a way of life results from an individual's attachment to criminals for whom criminal acts are a measure of success no less than a way of life In a series of publications Sutherland expanded the horizons of the classic Chicago School of interactionists and in the process founded criminology as a separate area of research while locating it firmly within sociology As the authors show Sutherland's work was inspired by strong moral concerns and a sense of the needs of society for social order without falling prey to either blaming the victim or pandering to sentiment about the joys of criminal life In this sense he is a model of the sociological tradition long deserving of the biography acknowledging his role as a master and pioneer Yet Gaylord and Galliher have written more than an intellectual biography They take seriously the need to fit Sutherland and his theory of differential association into a social and historical context They are also aware and critically straightforward about the limitations of Sutherland's work in criminology but place both his achievements and their limitations in a fully developed analytical context

Ideas and Intervention (RLE Social Theory) Joe Bailey, 2014-08-13 Theorizing in sociology has increasingly become a self generating and self fulfilling activity as sociologists absorb theory as

an isolated and formalist part of their discipline Joe Bailey believes that sociological theory should be a contribution to practical social intervention His book presents a practical view of social theorizing as an activity at which sociologists are skilled and which they could teach to the interventionist professions The relation between theory and practice is defined as one in which theory guides practice and makes explicit necessary choices A description of disciplines and professions is provided as a basis for examining social intervention in three areas law social work and urban planning The author considers some exemplary contributions which sociological theorizing could and should provide and concludes by proposing a pluralist view of theory as the best strategy for a sociology relevant to practice Sociolinguistics / Soziolinguistik. Volume 1 Ulrich Ammon,Norbert Dittmar,Klaus J. Mattheier,Peter Trudgill,2020-04-06 No detailed description available for SOCIOLINGUISTICS 1 INTERNAT HB AE HSK 3 1 E BOOK The Origins of American Social Science Dorothy Ross,1991 Focusing on the disciplines of economics sociology political science and history this book examines how American social science came to model itself on natural science and liberal politics Professor Ross argues that American social science receives its distinctive stamp from the ideology of American exceptionalism the idea that America occupies an exceptional place in history based on her republican government and wide economic opportunity Professor Ross shows how each of the social science disciplines while developing their inherited intellectual traditions responded to change in historical consciousness political needs professional structures and the conceptions of science available to them This is a comprehensive book which looks broadly at American social science in its historical context and to demonstrate the central importance of the national ideology of American exceptionalism to the development of the social sciences and to American social thought generally **The Future of Feminism in Public Relations and Strategic Communication** Linda Aldoory,Elizabeth L. Toth,2021-06-18 Linda Aldoory and Elizabeth L Toth present an innovative socio ecological model for understanding and building a feminist future for public relations practices This approach acknowledges previous gaps in scholarship and practice caused by ideological societal mediated and organizational factors constructing norms and expectations for gender race and class Urban Public Policy Martin V. Melosi,2010-11 The 1992 Los Angeles riots catapulted the problems of the city back onto the policy agenda The cauldron of social problems of the city as the riots showed offers no simple solutions Indeed urban policy includes a range of policy issues involving welfare housing job training education drug control and the environment The myriad of local state and federal agencies only further complicates formulating and implementing coherent policies for the city This volume while not offering specific proposals to remedy the problems of the city provides a broad historical context for discussing contemporary urban policy and for arriving at new prescriptions for relieving the ills of the American city The essays address issues related to public housing poverty transportation and the environment In doing so the authors discuss larger themes in urban policy as well as provide case studies of how policies have been implemented over time in specific cities Of particular interest are two essays that discuss

the role of the historian in shaping urban policy and the importance of historical preservation in urban planning

Pragmatism and Democracy Dmitri N. Shalin, 2011-12-31 This volume examines the roots of pragmatist imagination and traces the influence of American pragmatism in diverse areas of politics law sociology political science and transitional studies The work explores the interfaces between the Progressive movement in politics and American pragmatism Shalin shows how early 20th century progressivism influenced pragmatism's philosophical agenda and how pragmatists helped articulate a theory of progressive reform The work addresses pragmatism and interactionist sociology and illuminates the cross fertilization between these two fields of studies Special emphasis is placed on the interactionists search for a logic of inquiry sensitive to the objective indeterminacy of the situation The challenge that contemporary interactionist studies face is to illuminate the issues of power and inequality central to the political commitments of pragmatist philosophers Shalin explores the vital link between democracy civility and affect His central thesis is that democracy is an embodied process that binds affectively as well as rhetorically and that flourishes in places where civic discourse is an end in itself a source of vitality and social creativity sustaining a democratic community The author shows why civic discourse is hobbled by the civic body that has been misshapen by past abuses Drawing on the studies of the civilizing process Shalin speculates about the emotion demeanor and body language of democracy and explores from this angle the prospects for democratic transformation in countries struggling to shake their totalitarian past View Table of Contents

Stretching the Sociological Imagination Andrew Smith, Matt Dawson, Bridget Fowler, David Miller, David Rampton, 2015-11-08 This edited collection calls for renewed attention to the concept of the sociological imagination allowing social scientists to link private issues to public troubles Inspired by the eminent Glasgow based sociologist John Eldridge it re engages with the concept and shows how it can be applied to analyzing society today

Documents of Life 2 Ken Plummer, 2001-03-20 Documents of Life was originally published in 1983 and became a classic text providing both a persuasive argument for a particular approach and a manifesto for social research As a critique of anti humanist methodology in the social sciences it championed the use of life stories and other personal documents in research which are now widely used today This book is a substantially revised and expanded version which takes on recent developments Providing numerous illustrations from a range of life documents the book traces the history of the method examines ways of doing life story research and discusses the many political and ethical issues raised by such research The whole book has been substantially re written and

Encountering the Everyday Michael Hviid Jacobsen, 2017-09-16 Everyday life is something we tend to take for granted something that just is something unnoticed But everyday life is perhaps the most important dimension of society it's where we live most parts of our lives with each other This book provides a clear contemporary and comprehensive overview of the sociologies of everyday life Looking at everyday activities and experiences from language and emotions to popular culture and leisure Encountering the Everyday explores what social structures orders and processes mean to us on a daily basis The book carefully leads the reader through

historical developments in the field beginning at the earlier Chicago school and finishing with up to date ideas of postmodernism and interactionism Each chapter relates theoretical ideas directly to case studies and real empirical research to make complex concepts and core issues accessible relevant and engaging Written by leading international scholars in the field this truly global book will inspire and inform all students and scholars of everyday life sociology Global Encyclopedia of Public Administration, Public Policy, and Governance Ali Farazmand, 2023-04-05 This global encyclopedic work serves as a comprehensive collection of global scholarship regarding the vast fields of public administration public policy governance and management Written and edited by leading international scholars and practitioners this exhaustive resource covers all areas of the above fields and their numerous subfields of study In keeping with the multidisciplinary spirit of these fields and subfields the entries make use of various theoretical empirical analytical practical and methodological bases of knowledge Expanded and updated the second edition includes over a thousand of new entries representing the most current research in public administration public policy governance nonprofit and nongovernmental organizations and management covering such important sub areas as 1 organization theory behavior change and development 2 administrative theory and practice 3 Bureaucracy 4 public budgeting and financial management 5 public economy and public management 6 public personnel administration and labor management relations 7 crisis and emergency management 8 institutional theory and public administration 9 law and regulations 10 ethics and accountability 11 public governance and private governance 12 Nonprofit management and nongovernmental organizations 13 Social health and environmental policy areas 14 pandemic and crisis management 15 administrative and governance reforms 16 comparative public administration and governance 17 globalization and international issues 18 performance management 19 geographical areas of the world with country focused entries like Japan China Latin America Europe Asia Africa the Middle East Russia and Eastern Europe North America and 20 a lot more Relevant to professionals experts scholars general readers researchers policy makers and manger and students worldwide this work will serve as the most viable global reference source for those looking for an introduction and advance knowledge to the field
