Sociology Ethnomethodology And Experience A Phenomenological Critique

Kirsten Hastrup, Peter Hervik

Sociology Ethnomethodology And Experience A Phenomenological Critique:

Sociology, Ethnomethodology and Experience Mary F. Rogers, 1983-11-25 In this volume first published in 1983 Professor Rogers examines the usefulness of a phenomenological approach to sociology Her broad purpose is to demonstrate the theoretical and methodological advantages phenomenological sociology holds Thus she offers a selective introductory exposition of phenomenology highlighting its relevance for social scientists and undercutting the notion of phenomenology as a non scientific subjective or esoteric method of study Sociology, Ethnomethodology, and Experience Mary Frances Rogers, 1983 *Feminist Narratives and the Sociology of Religion* Nancy Nason-Clark, Mary Jo Neitz, 2001 In 14 essays US and Canadian sociologists of religion cultivate the growing gender and feminist consciousness in their profession and challenge established scholars and graduate students to be cognizant of it They combine biography and scholarly pursuits academic rigor and personal passion There is no index c Book News Inc **Peer Review, Peer Education, and Modeling in the Practice of Clinical Ethics Consultation: The Zadeh Project** Stuart G. Finder, Mark J. Bliton, 2018-09-11 This open access book about the Zadeh Project demonstrates and explores a core question in clinical ethics how can ethics consultants be accountable in the face of a robust plurality of ethical standpoints especially those that underwrite practices and methods for doing ethics consultation as well as those viewpoints and values encountered in daily clinical ethics practice Underscoring this question is the recognition that the field of clinical ethics consultation has arrived at a crucial point in its maturation Many efforts are underway to more formally professionalize the field with most aimed toward stabilizing a specific set of institutional considerations Stretched between these institutional and practical initiatives resides a crucial set of of ethical considerations chief among them the meaning and scope of responsibility for clinical ethics consultants Developed around a long form case scenario the Zadeh Project provides a multi layered series of peer reviews critique of the actions of the case scenario s ethics consultant reflection on clinical ethics method examination of the many ways that commitments to method and practice can and do intersect overlap and alter one another The design and format of this book thus models a key element for clinical ethics practice the need and ability to provide careful and thoughtful explanation of core moral considerations that emerge among diverse standpoints Specifically designed for those studying to become and those who are ethics consultants this book with its innovative and multi layered approach allows readers to share a peer review like experience that shows accountability to be what it is an ethical not merely procedural or administrative undertaking Social Experience and Anthropological Knowledge Kirsten Hastrup, Peter Hervik, 2003-12-16 Anthropology poses an explicit challenge to standard notions of scientific knowledge It claims to produce genuine insights into the workings of culture in general on the basis of individual social experience in the field Social Experience and Anthropological Knowledge traces the process from the ethnographic experience to the analytical results showing how fieldwork enables the ethnographer to arrive at an understanding not only of culture and society but also of the processes by which cultures and

societies are transformed The contributors challenge the distinction between subjectivity and objectivity redefine what we should mean by empirical and demonstrate the complexity of present day epistemological problems through concrete examples By demystifying subjectivity in the ethnographic process and re emphasizing the vital position of fieldwork they do much to renew confidence in the anthropological project of comprehending the world *Symbolic Interaction* Larry T. Reynolds, Nancy J. Herman, 1994-01-01 This reader shows the rich history and wide contemporary application of symbolic interaction theory

The Totalitarian Paradigm after the End of Communism, 2022-06-08 Concepts of totalitarianism have undergone an academic revival in recent years particularly since the breakdown of communist systems in Europe in 1989 91 the totalitarian paradigm so it seems to many scholars today had been discarded prematurely in the heat of the Cold War The demise of communism as a social system is however not only an important cause of the recurring attractiveness of the totalitarian paradigm but provides at the same time new evidence and correspondingly new problems of explanation for all approaches in communist studies and totalitarianism theory in particular This book contains articles by philosophers social scientists and historians who reassess the validity of the totalitarian approach in the light of the recent historical developments in Eastern Europe A first group of authors focus on the analytical usefulness and explanatory power of classic concepts of totalitarianism after having observed the failed reforms of the Gorbachev era and the collapse of Europe's communist systems in 1989 91 In these contributions the totalitarian paradigm is contrasted with other approaches with respect to cognitive power as well as normative implications In the second group of contributions the focus is on the reassessment of methodological and theoretical problems of the classic concepts of totalitarianism The authors attempt to reinterpret the classic concepts so as to meet the objections which have been put forward against those concepts during the last decades The study thereby traces some of the intellectual roots of the totalitarian paradigm that precede the outbreak of the Cold War such as the work of Sigmund Neumann and Franz Borkenau It also focuses on the most famous authors in the field Hannah Arendt and Carl Joachim Friedrich In addition it discusses theorists of totalitarianism like Juan Linz whose contributions to totalitarianism theory have too often been overlooked

[The Oxford Handbook of Management Information Systems](#) Robert D Galliers, Wendy Currie, 2011-07-28 Management Information Systems MIS play a crucial role in an organization's operations accounting decision making project management and competitive advantage The Oxford Handbook of Management Information Systems takes a critical and interdisciplinary view of the increasing complexity of these systems within organizations and the strategic managerial and ethical issues associated with the effective use of these technologies The book is organized into four parts Part I Background Part II Theoretical and Methodological Perspectives in MIS Part III Rethinking Theory in MIS Practice Part IV Rethinking MIS Practice in a Broader Context The Handbook provides expansive coverage of the discipline and a methodological and philosophical framework for discussion of key topics before exploring the issues associated with MIS in practice and considering the broader context and future agenda of research in light of such

concerns as sustainability ethics and globalization Bringing together international scholars to focus on the theory and practice of MIS this handbook provides a comprehensive resource for academics and research students in the fields of MIS IS Organizational Behaviour and Management in general The Archaeology of Plural and Changing Identities Eleanor Casella,Chris Fowler,2005-12-05 As people move through life they continually shift affiliation from one position to another dependent on the wider contexts of their interactions Different forms of material culture may be employed as affiliations shift and the connotations of any given set of artifacts may change In this volume the authors explore these overlapping spheres of social affiliation Social actors belong to multiple identity groups at any moment in their life It is possible to deploy one or many potential labels in describing the identities of such an actor Two main axes exist upon which we can plot experiences of social belonging the synchronic and the diachronic Identities can be understood as multiple during one moment or the extended moment of brief interaction over the span of a lifetime or over a specific historical trajectory From the Introduction The international contributions each illuminate how the various identifiers of race ethnicity sexuality age class gender personhood health and or religion are part of both material expressions of social affiliations and transient experiences of identity The Archaeology of Plural and Changing Identities Beyond Identification will be of great interest to archaeologists anthropologists historians curators and other social scientists interested in the mutability of identification through material remains **Markets in Fashion** Patrik Aspers,2012-10-02 Interest in contemporary cultural industries has grown in the past decade as they take on a greater significance in our increasingly consumer led society Focusing on the world of fashion photography this book presents an interdisciplinary approach in which this and other aesthetic markets such as advertising modelling art music and more can be viewed The main thrust of this groundbreaking book is in developing a theory for these cultural markets characterized by insecurity and where status and aesthetic diversity generate order and price differentiation In these industries services and products are offered that are a mix of the aesthetic and the economic and for fashion photographers such as those studied here it is necessary to carefully position themselves in the market by developing unique photographic styles and separating themselves from competitors Yet the markets in which these industries operate differ from the type of exchange markets depicted by neoclassical economists and therefore cannot be considered using such modes of analysis Instead Aspers conducts his study using empirical phenomenology an original approach presented here for the first time which can be easily used in other empirical studies He draws on original empirical material participant observation and interviews generated in New York and Stockholm which bring a depth of analysis and a relevance to this book which academics researchers and those with a vested interest in such industries will value Written by one of the world s brightest young economic sociologists this fascinating book previously published in Sweden and enthusiastically received is endorsed by recognized industry authorities A noteworthy book it provides a foothold in the burgeoning sub discipline of economic sociology and a significant analysis of the economics of the fashion photography industry **Phenomenology and**

Sociology George Psathas,1989-10-12 **Handbook of Symbolic Interactionism** Larry T. Reynolds,Nancy J. Herman-Kinney,2003 Symbolic interactionism has a long history in sociology social psychology and related social sciences In this volume the editors and contributors explain its history major theoretical tenets and concepts methods of doing symbolic interactionist work and its uses and findings in a host of substantive research areas **Age, Class, Politics, and the Welfare State** Fred C. Pampel,John B. Williamson,1989 Detailed analysis of data from the UN ILO and the World Bank leads to the conclusion that a large aged population especially in combination with democratic political processes has a direct and crucial influence on the level of welfare expenditures Women, Feminist Identity, and Society in the 1980's Myriam Díaz-Diocaretz,Iris M. Zavala,1985-01-01 The general objective of this volume is to present and discuss different modes of existence in women s texts and feminist identity in political and poetic discourse on the one hand and to analyze the factors which determine differing relationships between women and society and which result in specific forms of identity on the other The essays in this volume explore language gender mass media sexuality class and social change women s identity as Blacks and in the Third World as well as the nature of domination feminine criticism and female creativity The volume opens with a challenging question by the feminist poet Adrienne Rich Who is We **The Costs of Regime Survival** Percy C. Hintzen,2006-11-02 This comparative study of two republics Guyana in South America and Trinidad and Tobago in the Caribbean examines the conditions which determine regime survival in less developed countries Political survival can very often depend on a leader s willingness to serve the interests of a small but politically strategic minority In both Guyana and Trinidad post independence leaders made politically expedient decisions resulting in a series of political and economic crises

The Methodology of Herbert Blumer Kenneth Baugh,Kenneth Baugh, Jr,2006-11-02 This is a comprehensive account of the contributions of Herbert Blumer to the methodology of social research **Trafficking in Drug Users** James Ralph Beniger,1983 This book first published in 1984 explores the way in which these diverse sectors coordinate the control of deviance in a complex society **Charisma and Control in Rajneeshpuram** Lewis F. Carter,1990-08-31 Rajneeshpuram a controversial religious community transplanted from India to Oregon in 1981 attracted international attention when several of its leaders were arrested in 1985 The spiritual leader Bhagwan Shree Rajneesh was deported from the United States and others subsequently served prison terms for arson poisonings attempted murder and other crimes Rajneesh s followers called sannyasin are distinguished from other religious groups by their denial of the legitimacy of any moral code for regulating conduct their rejection of personal constraint by existing human institutions and the absence of any stable shared system of beliefs This book is a narrative account of the progressive regimentation of the commune and the escalating hostilities between it and the surrounding communities that led to eventual dismantlement This is a comprehensive treatment of the Oregon Rajneesh incident from a sociological perspective this study offers insights into the importance of shared values for regulating group processes and for negotiating relationships with other groups Qualitative Research: Analysis Types &

Tools Renata Tesch, 2013-10-31 First published in 1990 There was a time when most researchers believed that the only phenomena that counted in the social sciences were those that could be measured To make that perfectly clear they called any phenomenon they intended to study a variable indicating that the phenomenon could vary in size length amount or any other quantity Unfortunately not many phenomena in the human world comes naturally in quantities If we cannot even give a useful answer to what qualitative analysis is and how it works then it seems rather incongruent to try and involve a computer the very essence of precision and orderliness Isn't qualitative analysis a much too individualistic and flexible an activity to be supported by a computer Won't a computer do exactly what qualitative researchers want to avoid namely standardize the process Won't it mechanize and rigidify qualitative analysis The answer to these questions is NO and this book explains why

Myths, Madness and the Family David W. Jones, 2017-03-14 David Jones has written a compelling book about the complex issues entailed in being family members of sufferers from mental illness The book provides us with a critical appraisal of the sociological and psychological conceptual layers and the policy context necessary for understanding these issues all too often missing in other books written about this subject Through in depth interviews of forty carers coached in a way which enables the carers to talk in their own voice we get the rare opportunity of understanding the world of these carers In letting the carers speak Jones is enabling all of us to listen to them with the respect they deserve All of us but especially mental health professionals policy makers and researchers need to learn from the methodology utilised in this study and the content of the rich experiential seam Jones exposes as to how to listen better to carers and on which themes to focus in our working partnership with users and carers Professor Shulamit Ramon Anglia Polytechnic University Cambridge This book fills a gap in our knowledge about the experiences of families of people suffering from severe mental illness Original research material is used to support claims that families are struggling with complex feelings such as loss anger and shame It is also argued that the ideas families themselves hold about mental illness form an important part of the cultural world in which mental illnesses are understood This stimulating book challenges many conventional assumptions about family relationships by arguing that they have to be understood in terms of myths that bring a certain amount of order to complex areas of emotional life The author argues that families if properly understood can provide significant support for people with severe mental illness

The book delves into Sociology Ethnomethodology And Experience A Phenomenological Critique. Sociology Ethnomethodology And Experience A Phenomenological Critique is a vital topic that must be grasped by everyone, ranging from students and scholars to the general public. This book will furnish comprehensive and in-depth insights into Sociology Ethnomethodology And Experience A Phenomenological Critique, encompassing both the fundamentals and more intricate discussions.

1. This book is structured into several chapters, namely:
 - Chapter 1: Introduction to Sociology Ethnomethodology And Experience A Phenomenological Critique
 - Chapter 2: Essential Elements of Sociology Ethnomethodology And Experience A Phenomenological Critique
 - Chapter 3: Sociology Ethnomethodology And Experience A Phenomenological Critique in Everyday Life
 - Chapter 4: Sociology Ethnomethodology And Experience A Phenomenological Critique in Specific Contexts
 - Chapter 5: Conclusion
 2. In chapter 1, this book will provide an overview of Sociology Ethnomethodology And Experience A Phenomenological Critique. The first chapter will explore what Sociology Ethnomethodology And Experience A Phenomenological Critique is, why Sociology Ethnomethodology And Experience A Phenomenological Critique is vital, and how to effectively learn about Sociology Ethnomethodology And Experience A Phenomenological Critique.
 3. In chapter 2, the author will delve into the foundational concepts of Sociology Ethnomethodology And Experience A Phenomenological Critique. The second chapter will elucidate the essential principles that need to be understood to grasp Sociology Ethnomethodology And Experience A Phenomenological Critique in its entirety.
 4. In chapter 3, this book will examine the practical applications of Sociology Ethnomethodology And Experience A Phenomenological Critique in daily life. This chapter will showcase real-world examples of how Sociology Ethnomethodology And Experience A Phenomenological Critique can be effectively utilized in everyday scenarios.
 5. In chapter 4, this book will scrutinize the relevance of Sociology Ethnomethodology And Experience A Phenomenological Critique in specific contexts. The fourth chapter will explore how Sociology Ethnomethodology And Experience A Phenomenological Critique is applied in specialized fields, such as education, business, and technology.
 6. In chapter 5, this book will draw a conclusion about Sociology Ethnomethodology And Experience A Phenomenological Critique. The final chapter will summarize the key points that have been discussed throughout the book.
- This book is crafted in an easy-to-understand language and is complemented by engaging illustrations. This book is highly recommended for anyone seeking to gain a comprehensive understanding of Sociology Ethnomethodology And Experience A Phenomenological Critique.
