Jones, 1995 Includes bibliographical references p 50 glossary p 7 copyright acknowledgments p 4 name subject index p 125     **Sociology** Jones Staff, 1995-05     Sociology Etal Jones, Jones Staff, 1994-11     *The Micro-macro Link* Jeffrey C. Alexander, 1987-01-01 The work of fifteen nationally and internationally known theorists in sociology this volume demonstrates an exciting new trend in sociological thinking Each essay proposes a link between the two distinguishable traditions of sociological theory the microscopic which stresses the self and the interaction among persons and the macroscopic which concentrates on the institutional cultural and societal levels Each mode of analysis has had its champions and the proponents of each have often taken positions of polemic opposition to one another     **Study Guide to Accompany Sociology** Brian J. Jones, 1995     Through the Global Lens Michael Strada, 2021-04-14 Through the Global Lens uses a global perspective to analyze human affairs This text looks at each of the six social sciences sociology anthropology political science economics psychology and geography and uses case studies feature film analyses maps and photos to highlight important historical events and concepts throughout     *Back to Sociological Theory* Nicos P Mouzelis, 2016-07-27 Nicos Mouzelis argues against a marked tendency in present day sociology to conflate philosophy and sociological theory In trying to demonstrate the relative autonomy and specific logic of sociological theorising he draws from a variety of theoretical traditions in order to construct a set of interrelated concepts useful for bridging the gulf between macro and micro sociologies Drawing examples from the sociology of development and from the theory of organisations the author shows concretely how the conceptual framework proposed can help the researcher to avoid both the reification of macro institutional structures and their reduction to the intersubjective understandings of micro actors     **The Historic Turn in the Human Sciences** Terrence J. McDonald, 1996 Eleven essays that probe the historical project in a wide range of disciplines     Sociological Theory: What Went Wrong? Nicos Mouzelis, 2003-09-02 Written with precision and clarity this is a compelling analysis of the central problems of sociological theory today and of the means to resolve them Argues that we should build on ideas from the 50s and 60s and not dismiss them     Feudal America Vladimir Shlapentokh, Joshua Woods, 2011-01-17 Do Americans live in a liberal capitalist society where evenhanded competition rules the day or a society in which big money private security and personal relations determine key social outcomes Vladimir Shlapentokh and Joshua Woods argue that the answer to these questions cannot be found among the conventional models used to describe the nation Offering a new analytical tool the authors present a provocative explanation of the nature of contemporary society by comparing its essential characteristics to those of medieval European societies Their feudal model emphasizes five elements the weakness of the state and its inability to protect its territory guarantee the security of its citizens and enforce laws conflicts and collusions between and within organizations that involve corruption and other forms of illegal or semilegal actions the dominance of personal relations in political and economic life the prevalence of an elitist ideology and the use of
