Gariepy, Kari Dehli, James Ryan, 2012-10-17 *Canadian Education Governing Practices and Producing Subjects* is an absolutely critical volume bridging a number of key areas in Canadian education classroom politics schools teachers work higher education and much more with the theoretical contributions of Michel Foucault The result is illuminating engaging and critically provocative The essays are carefully chosen and utilize Foucauldian concepts such as governmentality discipline subjectivity and genealogy to excellent critical effect With a skillfully crafted introduction that nicely brings the entire collection into sharp focus the editors have provided a text that is a must read for critical scholars and students alike Mona Gleason Department of Educational Studies University of British Columbia This excellent text presents a Foucauldian analysis of selected educational practices contemporary reform initiatives and current educational policy in the Canadian context The authors demonstrate how rich theoretical constructs such as bio power governmentality and disciplinary power can illuminate everyday practices and policies making the cultural unconscious apparent Foucault 1989 p 71 *Canadian Education Governing Practices and Producing Subjects* is essentially a hopeful book it demonstrates the radicalizing role of theory as we try to understand and complicate educational structures and processes This is an essential text for all those interested in Foucauldian analyses of education and a must read for undergraduate and graduate students in Canadian faculties of education Anne M Phelan University of British Columbia This volume is most useful in the ways in which it achieves a close look and a wide sweep of education policy its deployment and its effects as these are embedded in schooling practices educational strategies and pedagogy It offers the ground from which to consider the potential for education to be aimed at the development of a socially just citizenry while also helping to reveal the structures of power and processes of social control that operate within current neoliberal technologies of governmentality It is against these that reform minded educators and curriculum and policy developers can set themselves While theoretically complex and original in its conceptual approach this book is also practically informative and eminently readable making it useful to teachers school administrators education policy developers parents students and communities at all levels of the schooling spectrum Magda Lewis PhD Professor and Queen's National Scholar Queen's University Kingston Magda Lewis PhD Professor and Queen's National Scholar Queen's University Kingston **A Sociology of Canadian Education** Pat Duffy Hutcheon, 1975 Sociology of Education Joyce Barakett, Ailie Cleghorn, 2007-04-09 This book is written for undergraduate students who seek a sociological understanding of the educational process It is written especially
