## **Sociology Of Labour Markets Efficiency Equity Security:**

**The Sociology of Labour Markets** Axel Van den Berg, 1997-01-01      *The Cult of Efficiency* Janice Gross Stein, 2002

This thought provoking discourse on the unquestioned pursuit of efficiency reveals how the discussion of efficiency in the delivery of public goods such as education and health care has risen to prominence in postindustrial society Stein's provocative argument reminiscent of the thinking of Lewis Mumford demonstrates that efficiency can too often be a cloak for political agendas and that pressure for efficiency can actually be a detrimental rather than a positive force Citizens in public schools community clinics and hospitals are shown engaging directly with such agendas redrawing the face of the state as they impose new ways of delivering public goods Stein demonstrates how they are calling not only for efficiency but for accountability and choice as they confront the dilemmas of democratic processes in a global age      *Culture of Prejudice*

Judith C. Blackwell, Murray E. G. Smith, John S. Sorenson, 2008-09-01 The principal theme of the book is that social science is at its best and most exciting when it confronts and refutes cultures of prejudice intricate systems of beliefs and attitudes that sustain many forms of social oppression and that are themselves sustained by ignorance and fear of the unknown and the unfamiliar      **Families, Labour and Love** Maureen Baker, 2001 Annotation We think of family life as very personal but in fact it is shaped by influences well beyond our control Families Labour and Love identifies the ways in which family and personal life in three settler societies Australia New Zealand and Canada have been shaped by colonization immigration globalization demographic changes law and policy Baker shows that these three countries each a former colony developed similar family trends and similar family policies The family practices of indigenous people were largely overlooked as were those of recent immigrant groups Strongly gendered patterns of paid and unpaid work played a major role in family life

Nevertheless local conditions also produced significant differences in family experiences among the three countries Containing numerous examples comparative data and textual sources Families Labour and Love provides a wide ranging analysis of the family that will appeal to students researchers and policy makers BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved      **Restructuring Family Policies** Maureen Baker, 2006-01-01 Recent years have seen significant changes in the social policies of many liberal welfare states this is especially true of social programs for families with children Increasingly governments are making family policy trade offs reducing support for some families but improving it for others Why are such trade offs occurring and how do governments differ in their approach to family social policy This study addresses these questions by examining the political demographic and socio economic factors influencing the restructuring of family related programs in OECD countries Adopting a feminist political economy approach Maureen Baker shows that while some governments encourage their citizens to see children as future resources and promote strong support for reproductive health programs child welfare services women's refugees subsidized childcare and pay equity others make these claims while simultaneously reducing family incomes through the deregulation of labour markets and

restrictions on income support Ultimately Baker demonstrates that nation states with the best outcomes for families offer a variety of social supports which are increasingly important as global markets reduce economic security for some families while improving the financial situation of others This study also explores strategies employed by states to incorporate or resist international pressures and the reasons why some states tenaciously defend their family policy traditions while others restructure according to international guidelines Drawing from nation based research cross national studies and international data bases Restructuring Family Policies successfully integrates mainstream academic debates about restructuring welfare states with feminist research findings and current policy concerns

*A Purposive Approach to Labour Law* Guy Davidov, 2016-05-05 The mismatch between goals and means is a major cause of crisis in labour law The regulations that we use the legal instruments and techniques are no longer in sync with the goals they are supposed to advance This mismatch leads to a problem of coverage where many workers who need the protection of labour law are not covered by it as well as a problem of obsolescence as labour laws are not sufficiently updated in light of dramatic changes in the labour market Adopting a purposive approach to interpretation and legislative reform this volume addresses this crisis of mismatch It first articulates the goals of labour law both general and specific through an in depth normative discussion and a consideration of critiques The book then proceeds to reconsider our means asking what we need to change or improve in the laws themselves in order to better advance the goals Some of the proposed solutions are at the level of judicial interpretation others at the legislative level The book offers several examples of the way a purposive analysis should be performed in concrete cases It also recommends institutional structures that are suited to ongoing adaptation of the law to ensure that our goals are advanced even when circumstances frequently change Finally in response to the crisis of enforcement in this field which frustrates the achievement of labour law's goals several proposals to improve compliance and enforcement are considered

Globalization and Society Raymond Breton, Jeffrey G. Reitz, 2003-12-30 Globalization has been defined as a process in which the population of the world is increasingly bonded into a single society Although none of the contributors to this collection denies the thrust toward convergence that is implicit in globalizing processes each contributor also concludes that globalization encourages differentiation Integration in the global system is not a passive process In different nations people analyze and interpret what is happening and respond by developing policies forming new institutions and changing existing

ones They adopt broad cultural models in order to function effectively in the larger system and they also draw upon their particular traditions values institutions and resources to define a place that will be to their advantage economically politically and socio culturally As the studies presented in this book show integration in the world system may benefit a given society or may harm it it may entail changes to a society s culture but does not obliterate a society s distinctive characteristics
