## **Soft City:**

**Soft City** David Sim, 2019-08-20 Imagine waking up to the gentle noises of the city and moving through your day with complete confidence that you will get where you need to go quickly and efficiently Soft City is about ease and comfort where density has a human dimension adapting to our ever changing needs nurturing relationships and accommodating the pleasures of everyday life How do we move from the current reality in most cities separated uses and lengthy commutes in single occupancy vehicles that drain human environmental and community resources to support a soft city approach In Soft City David Sim partner and creative director at Gehl shows how this is possible presenting ideas and graphic examples from around the globe He draws from his vast design experience to make a case for a dense and diverse built environment at a human scale which he presents through a series of observations of older and newer places and a range of simple built phenomena some traditional and some totally new inventions Sim shows that increasing density is not enough The soft city must consider the organization and layout of the built environment for more fluid movement and comfort a diversity of building types and thoughtful design to ensure a sustainable urban environment and society Soft City begins with the big ideas of happiness and quality of life and then shows how they are tied to the way we live The heart of the book is highly visual and shows the building blocks for neighborhoods building types and their organization and orientation how we can get along as we get around a city and living with the weather As every citizen deals with the reality of a changing climate Soft City explores how the built environment can adapt and respond Soft City offers inspiration ideas and guidance for anyone interested in city building Sim shows how to make any city more efficient more livable and better connected to the environment

Bibles and Baedekers Michael Grimshaw, 2014-12-05 Contemporary tourism and travel have become a form of religion a new opiate of the masses However could Church and theology be religious forms of tourism and travel Bibles and Baedekers offers a theology of tourism and exile for a modern and postmodern world It examines the ways in which location identity and movement have made use of religious texts and metaphor and questions the relative absence of secular texts and ideas in theology The theology of the tourist and traveller is one of new experiences the acquisition of identity through movement Bibles and Baedekers uniquely applies this to the postmodern Christian embodying the fulfilment of Bonhoeffer's religionless Christianity dislocated from both a secular and religious world
