Latino-Anglo Bargaining Christine Rack,2006-02-02 This book shows the mechanisms by which cultural differences reinforce structural privilege and disadvantage in the informal process of mediated negotiation Are all people equally likely to pursue their own material self interest in the negotiation process used in small claims mediation Did Latinos and Anglos bargain more generously with members of their own group The central questions derived from theories of ethnic and gender differences concerned how and to what degree culture structure and individual choice operated to alter the goals bargaining process and outcomes expressed motivations and outcome evaluations for outsider groups This book demonstrates how there are real cultural differences in the way that Latinos and Anglos pursue monetary justice that defy dominant assumptions that all culture groups are equally likely to maximize their own outcomes at the expense of others

Culture as Soft Power Elisabet Carbó-Catalan,Diana Roig

Sanz,2022-09-06 This book contributes to bridge the gap between different scholarly communities interested in the entanglements of culture and politics in the international arena It sheds light on existing connections in their parallel evolution with a thorough literature review complemented by several case studies showing the fruitful character of their interdisciplinary mobilisation Through the notions of cultural relations intellectual cooperation and cultural diplomacy the book draws on a soft power perspective to offer a shared novel and interdisciplinary theoretical framework to approach cultural institutions and organisations that have been previously examined as isolated objects for example cultural institutes international organisations literary magazines and literary contests The interdisciplinary nature of this volume justifies the relevance of its content for scholars working in the history of international relations international cultural relations and intellectual history comparative literature sociology of literature and global literary studies Gender and Diplomacy Elise Stephenson,Khushi Singh Rathore,2025-05-09 This edited collection aims to bring new contexts and research innovations to study the changing nature of gender in diplomacy Whilst historically most diplomats were men in the twenty first century the proportion of women and others of diverse backgrounds has increased markedly and in select cases surpasses men Digital diplomacy glass cliffs diplomatic gatekeeping nation branding queer and critical race studies and more have begun to be studied in the context of gender and diplomacy raising new questions in new contexts and driving new innovations in diplomacy How is diplomacy responding to these changes How does gender sexuality and race intersect to reproduce diplomatic relations This edited collection unpacks the queering of diplomacy the security diplomacy nexus gender and West non West distinctions in diplomacy gender and foreign policy and women in MFAs and foreign service **Women of the Mafia** Felia Allum,2024-07-15 Women of the Mafia dives into the Neapolitan criminal underworld of the Camorra as seen and lived by the women who inhabit it It tells their life stories and unpacks the gender dynamics by examining their participation as active agents in the organization as leaders managers foot soldiers and enablers Felia Allum shows that these women are true partners in crime The author offers an innovative interdisciplinary analysis that demystifies the notion that the Camorra is a sexist male centric organization She links her analysis of Camorra culture within the wider Neapolitan context to show how mothers and women act and are treated in the private sphere of the household and how the family helps explain the power women have found in the Neapolitan Camorra It is civil society and law enforcement agencies that continue to see the Camorra using traditional gender assumptions which render women irrelevant and lacking independent agency in the criminal underworld In Women of the Mafia Allum debunks these assumptions by revealing the power and influence of women in the Camorra **Kinship, Patriarchal Structure and Women's Bargaining with Patriarchy in Rural Sindh, Pakistan** Nadia Agha,2021-11-29 The book provides insights into the prevailing patriarchal system in rural Pakistan It elaborates on the kinship system in rural Sindh and explores how young married women strategize and negotiate with patriarchy Drawing on qualitative methodologies the book reveals the strong relationship between poverty and the

perpetuation of patriarchy Women s strategies help elevate their position in their families such as attention to household tasks producing children and doing handicraft work for their well being These conditions are usually seen as evidence of women s subordination but these are also strategies for survival where accommodation to patriarchy wins them approval The book concludes that women s life long struggle is in fact a technique of negotiating with patriarchy In so doing they internalize the culture that rests on their subordination and reproduce it in older age in exercising power by oppressing other junior women

The Shadow Negotiation Deborah Kolb,Judith Williams,2001-02-13 At last here is a book that shows women how to recognize the Shadow Negotiation in which the unspoken attitudes hidden assumptions and conflicting agendas that drive the bargaining process play out and how to use that knowledge to their advantage Each time people bargain over issues a promotion a contract with a new client a bigger role in decision making a parallel negotiation unfolds beneath the surface of the formal discussion Bargainers constantly maneuver to determine whose interests and needs will hold sway whose opinions will matter and how cooperative each person will be in reaching an agreement How the issues are resolved hangs on the actions people take in the shadow negotiation yet it is in this shadow negotiation that women most often run into trouble The most productive negotiations take place when strong advocates can connect with each other Good results depend equally on a bargainer s positioning her ideas for a fair hearing and on being open to the other side s point of view But traditionally women have not fared well on either front Often they let negotiable moments slip by and take the first no as a final answer or their efforts to be responsive to the other side s position are interpreted as accommodation As a result women can come away from negotiations with fewer dollars perks plum assignments or less say in decision making than men To negotiate effectively women must pay attention to acts of self sabotage as well as to the moves others make in the shadow negotiation By bargaining more strategically women can establish the terms of their advocacy their voice and at the same time encourage the open communication essential to a collaborative discussion in which not only acceptable but creative agreements can be worked out Written by Deborah M Kolb and Judith Williams two authorities in the field *The Shadow Negotiation* shows women a whole new way to think about the

negotiation process Kolb and Williams identify the common stumbling blocks that women encounter and present a game plan for turning their particular strengths to their advantage Based on extensive interviews with hundreds of business women The Shadow Negotiation provides women with a clear insightful guide to the hidden machinations that are at work in every bargaining situation *The Routledge Handbook of Megachurches* Afe Adogame, Chad M.
