Soft energy paths : toward a durable peace A.B. Lovins, 1977     *A Reprint of Soft Energy Notes* , 1979     **Alternative**

**Long-range Energy Strategies** United States. Congress. Senate. Select Committee on Small Business, 1977

**Intermountain Power Project Environmental Statement** United States. Bureau of Land Management, 1979     *Food and Fuel* Andrew Heintzman, Evan Solomon, 2009 Culls top selected essays from *Feeding the Future* and *Fueling the Future* to explore the reasons for food and fuel shortages and what might be done to resolve them in a volume that includes pieces by such thinkers as Thomas Homer Dixon Gordon Laird and Jeremy Rifkin Original     **Intermountain Power Project:**

**Final statement** United States. Bureau of Land Management, 1979     **Climate Capitalism** Peter Newell, Matthew Paterson, 2010-05-27 Explores how we should react to the political dilemmas of adapting the global economy to confront climate change     **Renewable Energy** Bent Sorensen, 2018-12-14 This four volume set edited by a leading expert in the field brings together in one collection a series of papers that have been fundamental to the development of renewable energy as a defined discipline Some of the papers were first published many years ago but they remain classics in their fields and retain their relevance to the understanding of current issues The papers have been selected with the assistance of an eminent international editorial board The set includes a general introduction and each volume is introduced by a new overview essay placing the selected papers in context The range of subject matter is considerable including coverage of all the main renewable technologies the fundamental principles by which they function and the issues around their deployment such as planning integration and socio economic assessment Overall the set provides students teachers and researchers confronted with thousands of journal articles book chapters and grey literature stretching back decades with a ready made selection of and commentary on the most important key writings in renewable energy It will be an essential reference for libraries concerned with energy technology and the environment     Conservation and Environmentalism Robert C.

Paehlke, 2013-04-03 Focusing on both problems and solutions this authoritative reference work maintains a healthy balance between science and the social sciences in its coverage of all aspects of the environment The book is arranged alphabetically and is divided into three major sections Ecology Pollution and Sustainability The list of 240 contributors reads like a who's who of the world's leading conservation and environmental professionals Best Reference Source Outstanding Reference Source     **The Global 2000 Report to the President of the U.S.** Gerald O. Barney, 2013-09-24 The Global 2000 Report to the President of the U S presents an interagency report of the 70 year record of Government concern relating to issues in population resources and environment It discusses the interrelatedness of these three factors It addresses all three topics from a relatively long term global perspective and emphasizes interconnections and feedback Some of the topics covered in the book are the projections of the population climate technology and the food and agriculture The analysis of these

projections is covered The tools used in the analysis are discussed The text defines the meaning of mesarovic pestel world model carrying capacity stability diversity and ecological buffering A comparison of the resulting projections is presented A chapter of the volume is devoted to the embassy reports on forestry and agricultural trends Another section of the book focuses on the Latin American world model The book will provide useful information to economists political analysts students and researchers

*The Summary Report* Gerald O. Barney, 2013-10-22 The Global 2000 Report to the President of the U S Entering the 21st Century Volume I The Summary Report focuses on the Global 2000 Study particularly noting the issues on the environment population and natural resources The book first offers information on the findings and conclusions of the study and environment projections Topics include water energy and forestry projections and the environment climate changes and the environment and gross national product GNP projections and the environment The manuscript then examines the Government s Global Model including the analysis of the foundation interpretation of projections and strengthening the foundation The text examines the elements of the Government s Global Model These include population GNP climate technology food fisheries forestry water energy and fuel minerals The book also surveys some of the studies and task forces whose findings might be helpful to those trying to provide methods and instructions in support of decision making for international efforts in population resources and the environment The manuscript will surely serve readers interested in the study of international efforts on population resources and the environment

*The Global 2000 Report to the President-entering the Twenty-first Century* Global 2000 Study (U.S.), Council on Environmental Quality (U.S.), 1980

**Uncertain Power** Dorothy S. Zinberg, 2013-10-22 Uncertain Power The Struggle for a National Energy Policy discusses several issues pertaining to the energy situation in the U S such as the public the government and the risks The opening chapter discusses a delicate balance among the public experts and government Chapter 2 tackles the failure of consensus on energy and Chapter 3 deals with energy policy and democratic theory The fourth chapter reviews the neglect of social risk assessment the fifth chapter discusses valuing of human life Chapter 6 tackles the media coverage of complex technological issues and Chapter 7 covers the governance of nuclear power The eighth chapter covers the national energy policy from state and local perspectives while the ninth chapter reviews selling saved energy considered as a new role for the utilities Chapter 10 discusses energy and security and Chapter 11 tackles history as a guide to the future The last chapter covers the political geology of the energy problems Readers who concern themselves regarding several factors that affect energy source supply and distribution along with its socio economic implication will find this book a great source of insight regarding the issue

**Energy** Joseph Russell Rudolph, 1995 A road map for the novice researcher contemplating the broad field affected by and concerned with energy

*Evictions - 7010iied* International Institute for Environment & Development, 1994

**Interactions of Energy and Climate** W. Bach, J. Pankrath, J. Williams, 2012-12-06 Since the beginning of industrialization in the last century a steady increase in energy consumption can be observed At the same time energy

generation switched from wood and coal to predominantly oil coal and natural gas Soon many countries became aware of the fact that the resources of fossil fuels especially of oil and natural gas are finite Diversification of energy sources became a requirement for the future Governments expressed their concern by setting up natural energy programmes while international organisations undertook assessments of the global energy resources and possible rates of supply and substitution When it comes to setting up energy policies the following factors must be taken into consideration population growth level and nature of socio economic activity the costs of energy the adequacy and reliability of supply the availability of technology and supporting infrastructure the success of energy conservation programmes and concern about the environment safety aspects of production and use of energy as well as educational efforts toward a rational use of energy When we express our most urgent concern the long term global energy provision experts offer four interrelated partial strategies the strategy of rational use and conservation of energy the strategy of using renewable energy sources the coal strategy including coal gasification and liquefaction the nuclear power strategy Any strategy however for securing future energy supply has from my point of view to be thoroughly examined as to its impact on the environment

**Nuclear Power Costs** United States. Congress. House. Committee on Government Operations. Environment, Energy, and Natural Resources Subcommittee, 1977 Government and Environmental Politics Michael J. Lacey, 1989 Government and Environmental Politics details the emergence of the new social values that gave rise to the environmental movement and examines the federal government's response to the changing ideas and needs of the American people Chapters describe such topics as postwar environmental politics the environmental lobbies development of the publicly owned national park and recreation system federal protection of endangered species official promotion of nuclear energy and regulation of toxic substances The contributors are Malcolm Forbes Baldwin Thomas R Dunlap Frank Gregg Samuel P Hays Michael J Lacey Robert Cameron Mitchell Joseph L Sax Christopher Schroeder and Michael Smith Book jacket Tending Nature Nathalie Gravel, 2024-10-25 This book aims to enhance understanding of the foundational principles and ethical considerations of citizen engagement in environmental conservation through an examination of successful cases of shared environmental governance in the Americas It seeks to inform policymaking on strategies for fostering behavioral change and advancing towards co management of national public resources and the commons These cases are analyzed through a geographical lens to provide a framework for reimagining eco citizenship grounded in bioregionalism This perspective diverges from the notion of eco citizenship as a universal culture advocating instead for its integration within the collective habitats of citizen groups Readers will gain insights into fostering reconciliation between nature and humanity by empowering diverse stakeholders to lead Blue Green Bee conservation initiatives Emphasizing community learning environmental awareness and citizen participation the book enriches decision making processes and promotes environmental justice for all living organisms The selected case studies from Brazil Canada Costa Rica Mexico and the United States highlight pioneering innovations in Blue Green Bee policy

planning across urban periurban and rural settings These initiatives propose empathetic and respectful approaches to nurturing our natural surroundings including methods for co management networked urban gardening wild native bee conservation water source protection community based water management river revitalization and metropolitan green space stewardship This book will be invaluable to students urban and rural planners researchers academics networking professionals policymakers international development practitioners environmental organization personnel and enthusiasts of the natural world alike
