Kearns,2010-05-06 The subject of rights occupies a central place in liberal political thought This tradition posits that

rights are entitlements of individuals by virtue of their personhood and that rights stand apart from politics that rights in fact hold at bay intrusions of state policy The essays in *Identities Politics and Rights* question these assumptions and examine how rights constitute us as subjects and are at the same time implicated in political struggles In contrast to the liberal notion of rights universality these essays emphasize the context specific nature of rights as well as their constitutive effects

Recognizing that political disputes throughout the world have increasingly been cast as arguments about rights the essays in this volume examine the varied roles that rights play in political movements and contests They argue that rights talk is used by many different groups primarily because of its fluidity Certainly rights can empower individuals and protect them from their societies but they also constrain them in other areas Frequently empowerment for one group means disabling rights for another group Moreover focusing on rights can both liberate and limit the imagination of the possible By alerting us to this paradox of rights empowerment and limitation *Identities Politics and Rights* illuminates ongoing challenges to rights and reminds us that rights can both energize political engagement and provide a resource for defenders of the status quo

Gumede, 2013-02-07 As a spokesman for a country a continent and the developing world Thabo Mbeki played a crucial role in world politics but to many people he remained an enigma throughout his presidency Is this simply because he was a secretive man or were there complicated political factors at play Who was the real Mbeki In this book multiple award winning journalist William Mervin Gumede chronicles Mbeki's spectacular rise to dominate Africa's oldest liberation movement He explores the complex position that Mbeki occupied following in Nelson Mandela's footsteps holding together an alliance with deep ideological differences and ruling an intensely divided country Revealing the political and personal tensions behind the

scenes Gumedes explains how Mbeki sought to mould the ANC into his image through tight control and exposes the intrigues behind the battle for succession Covering Mbeki's attempts to modernise the economy and kick start an African Renaissance and investigating his controversial stance on issues from AIDS to Zimbabwe the book offers invaluable insights into the arcane machinations behind political decisions that touch the lives of millions every day *The Rise of the African Novel* Mukoma Wa Ngugi, 2018-03-27 Engaging questions of language identity and reception to restore South African and diaspora writing to the African literary tradition **Colonial Literature and the Native Author** Jane Stafford, 2016-12-20 This book is the first study of writers who are both Victorian and indigenous who have been educated in and write in terms of Victorian literary conventions but whose indigenous affiliation is part of their literary personae and subject matter What happens when the colonised indigenous or native subject learns to write in the literary language of empire If the romanticised subject of colonial literature becomes the author is a new kind of writing produced or does the native author conform to the models of the coloniser By investigating the ways that nineteenth century concerns are adopted accommodated rewritten challenged reinscribed confronted or assimilated in the work of these authors this study presents a novel examination of the nature of colonial literary production and indigenous authorship as well as suggesting to the discipline of colonial and postcolonial studies a perhaps unsettling perspective with which to look at the larger patterns of Victorian cultural and literary formation

Royal tourists, colonial subjects and the making of a British world, 1860-1911 Charles Reed, 2016-02-01 This electronic version has been made available under a Creative Commons BY NC ND open access license This study examines the ritual space of nineteenth century royal tours of empire and the diverse array of historical actors who participated in them It suggests that the varied responses to the royal tours of the nineteenth century demonstrate how a multi centred British imperial culture was forged in the empire and was constantly made and remade appropriated and contested In this context subjects of empire provincialised the British Isles centring the colonies in their political and cultural constructions of empire Britishness citizenship and loyalty *South Africa in World History* Iris Berger, 2009-03-27 This volume begins in the early centuries of the Common Era with the various groups of people who had settled in southern Africa Stone Age foragers farmers with iron technology and pastoralists all interacted to create a complex society before Europeans arrived In the seventeenth century Dutch settlers developed a colonial society based on the menial labor of indigenous inhabitants of the Cape and slaves imported from the East Indies and other parts of Africa British conquest in the early nineteenth century brought an end to slavery as well as new forms of colonial domination tension between the British and the original Dutch settlers armed struggle between expanding European communities and Africans including the highly militarized Zulu kingdom and intensive missionary activity that transformed many African societies The discovery of diamonds and gold in the late nineteenth century brought industrialization based on migrant labor new clashes between British and Afrikaners the final conquest of African societies and new European migrants During the twentieth century despite further economic

development African communities were increasingly impoverished New forms of racial domination lead to the implementation of apartheid in 1948 and heightened political organizing among both African and Africaaner nationalists The intensification of resistance in the 1970s and 80s coupled with drastic changes in the international balance of power brought an end to the apartheid state in 1994 and an intensified struggle to overcome apartheid s economic and political legacy by building a new nonracial society The book emphasizes social and cultural history focusing on people s interactions and identities according to race class gender religion and ethnicity It also addresses changes in literature both oral and written music and the arts and draws on the extensive biographical and autobiographical literature to provide a personal focus for the discussion of major themes While this emphasis reflects dominant trends in historical scholarship for the past two decades it also includes recent material on environmental history and relationships between African Americans and South Africans Where relevant it highlights comparisons between South African and U S history

A History of the Modernist Novel Gregory Castle, 2015-06-25 A History of the Modernist Novel reassesses the modernist canon and produces a wealth of new comparative analyses that radically revise the novel s history It also considers the novel s global reach while suggesting that the epoch of modernism is not yet finished

Africa, Empire and Fleet Street Jonathan Derrick, 2018-03-15 For decades before and after African independence the London weekly West Africa was a well known source of news analysis and comment on the region especially the former British territories Jonathan Derrick who worked on the magazine s staff in the 1960s and again in its final years before closure in 2003 here studies the earlier history of West Africa through the story of its largely forgotten editor Albert Cartwright from the magazine s founding in 1917 to Cartwright s retirement in 1947 Before editing West Africa Cartwright spent twenty years in South Africa making the headlines in 1901 when as editor of Cape Town s South African News during the Boer War he was jailed for a year for a war crimes allegation against Lord Kitchener Exploring Cartwright family papers and memories Derrick reveals the complex nature of a man who for three decades ran a colonial magazine but was appreciated by Africans as someone who genuinely understood them Derrick places the story of colonial era West Africa which would reach its greatest heights during the independence period within the wider landscape of British periodicals dealing with Africa in the nineteenth and twentieth centuries
