Solace Of Fierce Landscapes Exploring Desert And Mountain Spirituality:

The Solace of Fierce Landscapes Belden C. Lane, 1998 Explores the impulse that has drawn seekers into the wilderness for centuries and offers eloquent testimony to the healing power of mountain silence and desert indifference Cover **The ^AGreat Conversation** Belden C. Lane, 2019-05-01 In the face of climate change species loss and vast environmental destruction Belden C Lane s spiritually centered environmentalism suggests that we must look to teachers in nature to understand how to save ourselves Pairing anecdotes of personal encounters with nature with the teachings of spiritual leaders from a range of religious traditions this book invites us to participate once more in the great conversation among all creatures and the earth itself Backpacking with the Saints Belden C. Lane, 2014-11-03 Carrying only basic camping equipment and a collection of the world s great spiritual writings Belden C Lane embarks on solitary spiritual treks through the Ozarks and across the American Southwest For companions he has only such teachers as Rumi John of the Cross Hildegard of Bingen Dag Hammarskj ld and Thomas Merton and as he walks he engages their writings with the natural wonders he encounters Bell Mountain Wilderness with S ren Kierkegaard Moonshine Hollow with Thich Nhat Hanh demonstrating how being alone in the wild opens a rare view onto one s interior landscape and how the saints writings reveal the divine in nature The discipline of backpacking Lane shows is a metaphor for a spiritual journey Just as the wilderness offered revelations to the early Desert Christians backpacking hones crucial spiritual skills paying attention traveling light practicing silence and exercising wonder Lane engages the practice not only with a wide range of spiritual writings Celtic Catholic Protestant Buddhist Hindu and Sufi Muslim but with the fascination of other lovers of the backcountry from John Muir and Ed Abbey to Bill Plotkin and Cheryl Strayed In this intimate and down to earth narrative backpacking is shown to be a spiritual practice that allows the discovery of God amidst the beauty and unexpected terrors of nature Adoration Lane suggests is the most appropriate human response to what we cannot explain but have nonetheless learned to love An enchanting narrative for Christians of all denominations Backpacking with the Saints is an inspiring exploration of how solitude simplicity and mindfulness are illuminated and encouraged by the discipline of backcountry wandering and of how the wilderness itself becomes a way of knowing an ecology of the soul **Landscape as Sacred Space** Steven Lewis, 2005-07-15 Steven Lewis s Landscape as Sacred Space Metaphors for the Spiritual Journey invites new discussions about our spiritual journeys and allows seekers to rethink approaches to Christian spirituality and theology in light of postmodernity Landscape metaphors provide a common and accessible language to articulate one s spiritual journey Spiritual mountains deserts and valleys are dominant landscapes on our journey through life Most people have experienced the joy of a mountaintop spiritual experience the pain of spiritual deserts or perhaps the dreariness too often associated with spiritual valleys There is a tendency however to highlight spiritual mountaintops while avoiding spiritual deserts and ignoring spiritual valleys This leaves many Christians ill equipped either to deal with crises or to integrate God into ordinary life Each

landscape offers rich lessons that when combined together lead us toward a maturing faith and into a deeper relationship with God Landscape as Sacred Space is intended to aid those who search for more meaningful ways to articulate their faith journey The book grants permission to struggle with life s landscapes provides safe spaces to reflect on the journey and introduces language that enables exploration and discovery

contemporary social crises of widespread ecological degradation and the innocent suffering of the crucified poor In A Sacramental Prophetic Vision Eggemeier maintains that the vital key for cultivating these traditions in the present is to situate these spiritualities in the context of spiritual exercises or ascetical practices that enable Christians to live more deeply in the presence of God coram Deo and in turn to make this presence visible in a suffering world **Resilient**

Sonorous Desert Kim Haines-Eitzen, 2024-04-16 Deserts have a long religious history Think of the biblical stories of the ancient Israelites migrating through deserts after they had been freed from slavery in Egypt and the stories from the New Testament of Jesus being tempted in the desert Early Christian monks and hermits were deeply influenced by such stories drawing from them the lesson that the desert is an important place It s the place to which one flees the cacophony and distractions of the marketplace and town square in order to hear and contemplate the voice of God in solitude Of course the practice of withdrawal was a Graeco Roman ideal as well as a biblical one and some early monks were surely influenced by pre Christian philosophical ideas about the power of solitude too Alone or in monastic communities which paradoxically blended the communal and the solitary monks found something surprising in the harsh desert environment while they went there in search of silence they found that the desert too is rich with sound which one can appreciate if one pays attention One has to learn to listen to the subtle natural sounds of the desert in order to become quiet and still enough to listen with the ear of the heart in the words of the sixth century AD monk Benedict of Nursia Kim Haines Eitzen has written a book about the sayings anecdotes and stories of these desert monks based on her reading of a wide range of texts written in Greek Coptic and Latin between the third and seventh centuries including letters treatises and philosophical and practical instructions for monastic life This material speaks to the interdependence between humans and other animals and between humans and the environment The author highlights the ways in which monks wrestled with the sounds of the desert and how they used these to cultivate a quality of inner listening She invites her readers to reflect with her on what we might learn about our own world from their experience and stories how in the midst of our cacophonous surroundings we might cultivate a sense of inner quietude And how we might grapple with the tensions that those early monks also felt between the pulls of solitude and community Accompanying this book are a set of audio recordings the author made in desert environments
