Commission on Industrial Relations,1916 *Man's Impact on Climate* Wilfred Bach,2012-12-02 Man s Impact on Climate  
provides a technical review of various aspects of climate change It deals not only with the general aspects of climate change  
but also with the climate food and climate energy interactions This book is divided into three parts The first part explores  
climate history climate theory and climate modeling This part also offers climate models in which results from past climate  
events can be verified with paleoclimatic methods hence they serve as guides for interpreting future climate simulations The  
second part deals with the external causes of climate change that are induced by man such as altering the composition of the  
atmosphere adding heat to the system and changing the characteristics of the earth s surface The third and last part focuses  
on the future climate and potential consequences of climatic changes It also offers a few constructive solutions in reference  
to the carbon dioxide problem Scientists and government officials involved in climate research may find this book valuable
