The American State Reports Abraham Clark Freeman, 1908 [Publications of the National Institute of Standards and Technology ... Catalog](#) National Institute of Standards and Technology (U.S.), 1983 *Comte De Gabalis* Abbe

N. de Montfaucon de Villars, Across the title page of the first edition of Comte de Gabalis published at Paris in the year 1670 runs the cryptic phrase from Tertullian Quod tanto impendio absconditur etiam solummodo demonstrare destruere est When a thing is hidden away with so much pains merely to reveal it is to destroy it suggesting to the mind that there is a concealed mystery Hungry souls heeding these words have sought and found beneath the esprit and sparkle of its pages a clue to that truth which all the world is seeking Many readers will recall Sir Edward Lytton s citation of Comte de Gabalis in his strange novel Zanon certain portions of which were based upon this source And others will remember the high esteem in which the wit and wisdom of the Abb de Villars masterpiece were held by litterateurs as well as occultists in the early years of the 18th century Alexander Pope in his dedication to the Rape of the Lock the first draft of which was written in 1711 says The Rosicrucians are a people I must bring you acquainted with The best account I know of them is in a French book call d Le Comte de Gabalis which both in its title and size is so like a Novel that many of the Fair Sex have read it for one by mistake According to these Gentlemen the four Elements are inhabited by Spirits which they call Sylphs Gnomes Nymphs and Salamanders The Gnomes or Demons of Earth delight in mischief but the Sylphs whose habitation is in the Air are the best condition d Creatures imaginable For they say any mortals may enjoy the most intimate familiarities with these gentle Spirits upon a condition very easy to all true Adepts an inviolate preservation of Chastity Alexander Pope s poem bears the same relation to its inspiration Comte de Gabalis that a dancing mote does to the sunbeam whose brilliance it reflects For the reader of to day this light shines as it were through a window fashioned in an alien age and mullioned with a frankness of speech almost unknown in this century of conventional circumlocutions To throw a stone at the window were ungrateful Rather let the reader view these Discourses with sympathetic understanding of the thought of the period in which they were written Let him regard not their letter but their word and so justify our belief that years are past in which to point out spiritual worth wherever found is to compass its destruction and that the day has come when we should seek to unlock the treasure of this ancient volume with a key fashioned from the Philosopher s Stone Before the Abb de Villars met the Comte he had been prepared for a work which has insured him the gratitude and reverence of those seekers for truth who have followed in his footsteps May we to day be as humble servants of that great ideal to which he dedicated himself and which he set forth in a life of action and noble endurance N de Montfaucon de Villars was born in the diocese of Alet near Toulouse in the year 1635 He was a member of the very ancient family of the Canillac Villars being a grandson of Jean Fran ois de Montfaucon de Roquetaillade Canillac Villars and a nephew of the celebrated and learned Benedictine father Bernard de Montfaucon of Saint Maur Having taken orders he came to Paris in the year 1667 with the intention of advancing himself through preaching and fired with that enthusiasm which the country brings to the city hoped for a brilliant career The Abb s wit eloquence and quiet demeanour charmed all with whom he was brought into contact and he soon gained many illustrious friends entr into the most exclusive circles won the esteem of Madame de S vign and became the centre of a coterie of beaux

esprits who were in the habit of meeting at the Porte Richelieu He awakened a desire for truth in the jaded though brilliant minds of that effete period and sought to turn them from their chief consideration the degradation of the times by pointing out the possibility of regeneration doing much to elevate the thoughts of all who came under the sway of his gentle and persuasive influence The Abb de Villars was an earnest worker for the cause of liberty and religious tolerance and the author of several books and pamphlets some of which remain to be discovered One of these on the origin of species inspired Jean Baptiste Lamarck whose writings stimulated Darwin in his quest and who was the real father of the modern doctrine of biological evolution Few of the works to day attributed to the Abb were written by him They are forgeries contrived as are the sequels and interpolations in the later editions of Comte de Gabalis itself by those who feared and sought to nullify the profound influence which this book exercised over the minds and imaginations of its readers For there were those who regarded the truth which it embodies as unorthodox and harmful to the temporal authority of the church To a politico religious source may therefore be ascribed the ingenious fiction that Comte de Gabalis is a direct translation of an Italian book La Chiave del Gabinetto by Giosepe Borri published in 1681 eleven years after the appearance of the first edition of these Discourses Thoughtful comparison of La Chiave del Gabinetto with the contemporary French and English editions of Comte de Gabalis reveals the fact that the Italian book is but a faulty translation and expansion of the former masquerading under the guise of letters dated from Copenhagen in 1666 which imaginary date was employed to lend colour to its pretension to priority and to cast discredit upon the Abb s book The pleasure loving spirit of this brilliant preacher was latterly beclouded by the loss of his friends consequent upon the persecutions of the church which forbade him the pulpit and forced him to withdraw his publications The Abb de Villars is supposed to have been assassinated while on a journey to Lyons in the year 1673 Like many of his Craft however his true place of burial is unknown Perhaps he only pretended to die as is the way of Philosophers who feign death in one place only to transplant themselves to another May the soul of this great disciple of a great Master be now in the presence of God *Air, Earth, Fire, and Water* David Elliott, 2025-07-17 We celebrate distinctive attributes of Creation its orderly structure measurable processes using an elementary analysis of the precision of Earth s systems Scriptural principle and scientific knowledge are compared at an uncomplicated level to guide the learner to greater knowledge of the Creator The character of God is seen in the Air the heavens and atmosphere the Earth the geosphere Fire energy and Water the hydrosphere A fifth element Ether proclaims the grace of nature evidence of God s providence and Earth s resilience The five elements borrowed from Greek philosophy track the divinely ordered Creation account These spheres work in tandem to collectively sustain life on Earth converging at the soil from which God made living beings the biosphere notably humans We survey these domains review man s connection and their interdependence and guide the reader to see that the visible Creation was placed before us to help us perceive the invisible Kingdom of God we call this the Romans 1 20 Principle His truth seen in its order and His grace seen in its providence and
