KENT T. DOLLAR

Soldiers Of The Cross Confederate Soldier Christians And The Impact Of War On Their Faith

Kent T. Dollar

Soldiers Of The Cross Confederate Soldier Christians And The Impact Of War On Their Faith:

Soldiers of the Cross Kent T. Dollar, 2005 Extremely well researched and unique in its approach citing nine individual Confederate soldiers and the impact of the Civil War on their Christianity These case studies largely drawn from their own words in letters and diaries give a personal and individual perspective that has largely been overlooked in other similar works "*Soldiers of the Cross*" Kent Toby Dollar, 2001

Crossings and Dwellings Kyle B. Roberts, Stephen Schloesser, J.S., 2017-07-31 In *Crossings and Dwellings* Kyle Roberts and Stephen Schloesser S J bring together essays by eighteen scholars in one of the first volumes to explore the work and experiences of Jesuits and their women religious collaborators in North America over two centuries following the Jesuit Restoration Long dismissed as anti liberal anti nationalist and ultramontanist restored Jesuits and their women religious collaborators are revealed to provide a useful prism for looking at some of the most important topics in modern history immigration nativism urbanization imperialism secularization anti modernization racism feminism and sexual reproduction Approaching this broad range of topics from a variety of disciplinary perspectives this volume provides a valuable contribution to an understudied period

Dueling Cultures, Damnable Legacies James Hill Welborn, 2023-06-23 How did white Southerners in the nineteenth century reconcile a Christian faith that instructed them to turn the other cheek with a pervasive code of honor that instructed them to do just the opposite to demand satisfaction for perceived insults In Edgefield South Carolina in the 1830s white Southerners combined these seemingly antithetical ideals to forge a new compound a wrathful moral ethic of righteous honor *Dueling Cultures Damnable Legacies* investigates the formation and proliferation of this white supremacist ideology that merged masculine bellicosity with religious devotion In 1856 when Edgefield native Preston Smith Brooks viciously beat the abolitionist Charles Sumner on the Senate floor the ideology of righteous honor reached its apogee and took national center stage Welborn analyzes the birth of this peculiar moral ethic in Edgefield and traces its increasing dominance across the American South in the buildup to the Civil War as white Southerners sought to cloak a war fought in defense of slavery in the language of honor and Christian piety

A Wicked War Amy S. Greenberg, 2013-08-13 The definitive history of the often forgotten U S Mexican War paints an intimate portrait of the major players and their world from Indian fights and Manifest Destiny to secret military maneuvers gunshot wounds and political spin If one can read only a single book about the Mexican American War this is the one to read The New York Review of Books Often overlooked the U S Mexican War featured false starts atrocities and daring back channel negotiations as it divided the nation paved the way for the Civil War a generation later and launched the career of Abraham Lincoln Amy S Greenberg s skilled storytelling and rigorous scholarship bring this American war for empire to life with memorable characters plotlines and legacies Along the way it captures a young Lincoln mismatching his clothes the lasting influence of the Founding Fathers the birth of the Daughters of the American Revolution and America s first national antiwar movement A key chapter in the creation of the United States it is the story of a burgeoning nation and

an unforgettable conflict that has shaped American history A Companion to American Military History James C. Bradford, 2009-11-03 With more than 60 essays A Companion to American Military History presents a comprehensive analysis of the historiography of United States military history from the colonial era to the present. Covers the entire spectrum of US history from the Indian and imperial conflicts of the seventeenth century to the battles in Afghanistan and Iraq. Features an unprecedented breadth of coverage from eminent military historians and emerging scholars including little studied topics such as the military and music, military ethics, care of the dead, and sports. Surveys and evaluates the best scholarship on every important era and topic. Summarizes current debates and identifies areas where conflicting interpretations are in need of further study.

The Civil War as a Theological Crisis Mark A. Noll, 2006-12-08 Viewing the Civil War as a major turning point in American religious thought, Mark A. Noll examines writings about slavery and race from Americans both white and black, northern and southern, and includes commentary from Protestants and Catholics in Europe and Canada. Though the Christians on all sides agreed that the Bible was authoritative, their interpretations of slavery in Scripture led to a full-blown theological crisis.

The Routledge Sourcebook of Religion and the American Civil War Robert R. Mathisen, 2014-10-24 In recent years the intersection of religion and the American Civil War has been the focus of a growing area of scholarship. However, primary sources on this subject are housed in many different archives and libraries scattered across the U.S. and are often difficult to find. The Routledge Sourcebook of Religion and the American Civil War collects these sources into a single convenient volume, the most comprehensive collection of primary source material on religion and the Civil War ever brought together. With chapters organized both chronologically and thematically and highlighting the experiences of soldiers, women, African Americans, chaplains, clergy, and civilians, this sourcebook provides a rich array of resources for scholars and students that highlights how religion was woven throughout the events of the war. Sources collected here include sermons, song lyrics, newspaper articles, letters, diary entries, poetry, excerpts from books and memoirs. Artwork and photographs. Introductions by the editor accompany each chapter and individual document, contextualizing the sources and showing how they relate to the overall picture of religion and the war. Beginning students of American history and seasoned scholars of the Civil War alike will greatly benefit from having easy access to the full texts of original documents that illustrate the vital role of religion in the country's most critical conflict.

Servanthood of Song Stanley R. McDaniel, 2024-05-23 Servanthood of Song is a history of American church music from the colonial era to the present. Its focus is on the institutional and societal pressures that have shaped church song and have led us directly to where we are today. The gulf which separates advocates of traditional and contemporary worship, Black and White Protestant and Catholic, is not new. History repeatedly shows us that ministry to be effective must meet the needs of the entire worshipping community, not just one segment, age group, or class. Servanthood of Song provides a historical context for trends in contemporary worship in the United States and suggests that the current polemical divisions between advocates of

contemporary and traditional classically oriented church music are both unnecessary and counterproductive It also draws from history to show that to be the powerful component of worship it can be music whatever the genre must be viewed as a ministry with training appropriate to that Servanthood of Song provides a critical resource for anyone considering a career in either musical or pastoral ministries in the American church as well as all who care passionately about vital and authentic worship for the church of today

A Companion to the U.S. Civil War, 2 Volume Set Aaron Sheehan-Dean, 2020-05-05 A Companion to the U S Civil War presents a comprehensive historiographical collection of essays covering all major military political social and economic aspects of the American Civil War 1861 1865 Represents the most comprehensive coverage available relating to all aspects of the U S Civil War Features contributions from dozens of experts in Civil War scholarship Covers major campaigns and battles and military and political figures as well as non military aspects of the conflict such as gender emancipation literature ethnicity slavery and memory

Apocalypse and the Millennium in the American Civil War Era Ben Wright, Zachary W. Dresser, 2013-11-04 In the Civil War era Americans nearly unanimously accepted that humans battled in a cosmic contest between good and evil and that God was directing history toward its end The concept of God s Providence and of millennialism Christian anticipations of the end of the world dominated religious thought in the nineteenth century During the tumultuous years immediately prior to during and after the war these ideas took on a greater importance as Americans struggled with the unprecedented destruction and promise of the period Scholars of religion literary critics and especially historians have acknowledged the presence of apocalyptic thought in the era but until now few studies have taken the topic as their central focus or examined it from the antebellum period through Reconstruction By doing so the essays in *Apocalypse and the Millennium in the American Civil War Era* highlight the diverse ways in which beliefs about the end times influenced nineteenth century American lives including reform culture the search for meaning amid the trials of war and the social transformation wrought by emancipation Millennial zeal infused the labor of reformers and explained their successes and failures as progress toward an imminent Kingdom of God Men and women in the North and South looked to Providence to explain the causes and consequences of both victory and defeat and Americans black and white experienced the shock waves of emancipation as either a long prophesied jubilee or a vengeful punishment Religion fostered division as well as union the essays suggest but while the nation tore itself apart and tentatively stitched itself back together Americans continued looking to divine intervention to make meaning of the national apocalypse Contributors Edward J Blum Ryan Cordell Zachary W Dresser Jennifer Graber Matthew Harper Charles F Irons Joseph Moore Robert K Nelson Scott Nesbit Jason Phillips Nina Reid Maroney Ben Wright

The Christian Cross in American Public Life John R. Vile, 2024-01-23 The cross is one of Christianity s most distinctive symbols increasingly cutting across Catholic Protestant and other denominational divides Although the US acknowledges no official religion a variety of both Christian and non Christian denominations have flourished Crosses dot the landscape sometimes towering over it and at other times simply marking a grave or the site of a

traffic accident or providing a place for contemplation Courts continue to decide whether it is better to remove long standing crosses on public property to protect the separation of church and state or whether removing such symbols might be misinterpreted as expressing hostility towards religion Whether marking identity triumph love grief or sacrifice the cross remains important in American life and continues to be the subject of works of art music literature and political religious and social rhetoric all of which this volume addresses in an accessible A to Z format *The ^AOxford Handbook of the American Civil War* Lorien Foote,Earl J. Hess,2021-10-12 The Oxford Handbook of the American Civil War offers a wide ranging multi perspective account of how military campaigns disrupted lives and changed the social and political history of America It is the first book to combine campaign histories with an understanding of how those military operations affected the local population the regions in which they occurred and the national strategic political context **The View from the Ground** Aaron Sheehan-Dean,2006-12-22 Civil War scholars have long used soldiers diaries and correspondence to flesh out their studies of the conflict s great officers regiments and battles However historians have only recently begun to treat the common Civil War soldier s daily life as a worthwhile topic of discussion in its own right The View from the Ground reveals the beliefs of ordinary men and women on topics ranging from slavery and racism to faith and identity and represents a significant development in historical scholarship the use of Civil War soldiers personal accounts to address larger questions about America s past Aaron Sheehan Dean opens The View from the Ground by surveying the landscape of research on Union and Confederate soldiers examining not only the wealth of scholarly inquiry in the 1980s and 1990s but also the numerous questions that remain unexplored Chandra Manning analyzes the views of white Union soldiers on slavery and their enthusiastic support for emancipation Jason Phillips uncovers the deep antipathy of Confederate soldiers toward their Union adversaries and Lisa Laskin explores tensions between soldiers and civilians in the Confederacy that represented a serious threat to the fledgling nation s survival Essays by David Rolfs and Kent Dollar examine the nature of religious faith among Civil War combatants The grim and gruesome realities of warfare and the horror of killing one s enemy at close range profoundly tested the spiritual convictions of the fighting men Timothy J Orr Charles E Brooks and Kevin Levin demonstrate that Union and Confederate soldiers maintained their political beliefs both on the battlefield and in the war s aftermath Orr details the conflict between Union soldiers and Northern antiwar activists in Pennsylvania and Brooks examines a struggle between officers and the Fourth Texas Regiment Levin contextualizes political struggles among Southerners in the 1880s and 1890s as a continuing battle kept alive by memories of and identities associated with their wartime experiences The View from the Ground goes beyond standard histories that discuss soldiers primarily in terms of campaigns and casualties These essays show that soldiers on both sides were authentic historical actors who willfully steered the course of the Civil War and shaped subsequent public memory of the event Apostle of the Lost Cause Chris Moore,2024-01-12 Perhaps no person exerted more influence on postwar white Southern memory than former Confederate chaplain and Baptist minister J William

Jones Christopher C Moore's *Apostle of the Lost Cause* is the first full length work to examine the complex contributions to Lost Cause ideology of this well known but surprisingly understudied figure Commissioned by Robert E Lee himself to preserve an accurate account of the Confederacy Jones responded by welding hagiography and denominationalism to create in effect a sacred history of the Southern cause In a series of popular books and in his work as secretary of the Southern Historical Society Papers Jones's mission became the canonization of Confederate saints most notably Lee Stonewall Jackson and Jefferson Davis for a postwar generation and the contrivance of a full blown myth of Southern virtue in defeat that deeply affected historiography for decades to come While personally committed to Baptist identity Jones supplied his readers with embodiments of Southern morality who transcended denominational boundaries and enabled white Southerners to locate their champions and themselves in a quasi biblical narrative that ensured ultimate vindication for the Southern cause In a time when Confederate monuments and the enduring effects of white supremacy are in the daily headlines an examination of this key figure in the creation of the Lost Cause legacy could not be more relevant **Both Prayed to the Same God**

Robert J. Miller, 2007-09-16 *Both Prayed to the Same God* is the first book length comprehensive study of religion in the Civil War While much research has focused on religion in a specific context of the civil war this book provides a needed overview of this vital yet largely forgotten subject of American History Writing passionately about the subject Father Robert Miller presents this history in an accessible but scholarly fashion Beginning with the religious undertones in the lead up to the war and concluding with consequences on religion in the aftermath Father Miller not only shows us a forgotten aspect of history but how our current historical situation is not unprecedented **Sister States, Enemy States** Kent Dollar, 2009-07-17

The fifteenth and sixteenth states to join the United States of America Kentucky and Tennessee were cut from a common cloth the rich region of the Ohio River Valley Abounding with mountainous regions and fertile farmlands these two slaveholding states were as closely tied to one another both culturally and economically as they were to the rest of the South Yet when the Civil War erupted Tennessee chose to secede while Kentucky remained part of the Union The residents of Kentucky and Tennessee felt the full impact of the fighting as warring armies crossed back and forth across their borders Due to Kentucky's strategic location both the Union and the Confederacy sought to control it throughout the war while Tennessee was second only to Virginia in the number of battles fought on its soil Additionally loyalties in each state were closely divided between the Union and the Confederacy making wartime governance and personal relationships complex In *Sister States Enemy States The Civil War in Kentucky and Tennessee* editors Kent T Dollar Larry H Whiteaker and W Calvin Dickinson explore how the war affected these two crucial states and how they helped change the course of the war Essays by prominent Civil War historians including Benjamin Franklin Cooling Marion Lucas Tracy McKenzie and Kenneth Noe add new depth to aspects of the war not addressed elsewhere The collection opens by recounting each state's debate over secession detailing the divided loyalties in each as well as the overt conflict that simmered in East Tennessee The editors also spotlight the war's

overlooked participants including common soldiers women refugees African American soldiers and guerrilla combatants The book concludes by analyzing the difficulties these states experienced in putting the war behind them The stories of Kentucky and Tennessee are a vital part of the larger narrative of the Civil War Sister States Enemy States offers fresh insights into the struggle that left a lasting mark on Kentuckians and Tennesseans just as it left its mark on the nation *In God's Presence*

Benjamin L. Miller,2019-02-20 When thousands of young men in the North and South marched off to fight in the Civil War another army of men accompanied them to care for these soldiers spiritual needs In God s Presence explores how these two cohorts of men Northern and Southern and mostly Christian navigated the challenges of the Civil War on battlefields and in military camps hospitals and prisons In wartime military clergy chaplains and missionaries initially attempted to replicate the idyllic world of the antebellum church Instead they found themselves constructing a new religious world one in which static spaces customarily invested with religious meaning such as houses and churches gave way to dynamic sacred spaces defined by clergy to suit changing wartime circumstances At the same time the religious beliefs that soldiers brought from home differed from the religious practices that allowed them to endure during wartime With reference to Civil War soldiers diaries letters and memoirs this book asks how clergy shaped these practices how they might have differed from camp to battlefield hospital or prison and how this experience affected postbellum religious belief and practice Religion and war have always been at the center of the human condition with warfare often leading to heightened religiosity The Civil War cannot be fully explained without understanding religion s role in the conflict In God s Presence advances this understanding by offering critical insight into the course and consequences of America s epochal fratricidal war **Religion and Politics in America**

Frank J. Smith,2016-07-11 There has always been an intricate relationship between religion and politics This encyclopedia provides a comprehensive overview of the interrelation of religion and politics from colonial days to the present Can a judge display the Ten Commandments outside of the courthouse Can a town set up a nativity scene on the village green during Christmas Should U S currency bear the In God We Trust motto Should public school students be allowed to form bible study groups Controversies about the separation of church and state the proper use of religious imagery in public space and the role of religious beliefs in public education are constantly debated This work offers insights into contemporary controversies regarding the uneasy intersections of religion and politics in America Organized alphabetically the entries place each topic in its proper historical context to help readers fully grasp how religious beliefs have always existed side by side and often clashed with political ideals in the United States from the time of the colonies The information is presented in an unbiased manner that favors no particular religious background or political inclination This work shows that politics and religion have always had an impact on one another and have done so in many ways that will likely surprise modern students

Millenarian Dreams and Racial Nightmares John H. Matsui,2021-05-19 In *Millenarian Dreams and Racial Nightmares* John H Matsui argues that the political ideology and racial views of American Protestants during the Civil War mirrored their

religious optimism or pessimism regarding human nature perfectibility and the millennium While previous historians have commented on the role of antebellum eschatology in political alignment none have delved deeply into how religious views complicate the standard narrative of the North versus the South Moving beyond the traditional optimism pessimism dichotomy Matsui divides American Protestants of the Civil War era into premillenarian and postmillenarian camps Both postmillenarian and premillenarian Christians held that the return of Christ would inaugurate the arrival of heaven on earth but they disagreed over its timing This disagreement was key to their disparate political stances Postmillenarians argued that God expected good Christians to actively perfect the world via moral reform of self and society and free labor ideology whereas premillenarians defended hierarchy or racial mastery or both Northern Democrats were generally comfortable with antebellum racial norms and were cynical regarding human nature they therefore opposed Republicans utopian plans to reform the South Southern Democrats who held premillenarian views like their northern counterparts pressed for or at least acquiesced in the secession of slaveholding states to preserve white supremacy Most crucially enslaved African American Protestants sought freedom a postmillenarian societal change requiring nothing less than a major revolution and the reconstruction of southern society Millenarian Dreams and Racial Nightmares adds a new dimension to our understanding of the Civil War as it reveals the wartime marriage of political and racial ideology to religious speculation As Matsui argues the postmillenarian ideology came to dominate the northern states during the war years and the nation as a whole following the Union victory in 1865

Reviewing **Soldiers Of The Cross Confederate Soldier Christians And The Impact Of War On Their Faith**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence.
