

A Sailor's Prayer

Dear Lord, I'm just a sailor
A protector of our land.
A servant called to battle
When my country takes a stand.
I pray for strength and courage
And a heart that will forgive.
For peace and understanding
In a world for all to live.
My family's prayers are with me.
No matter where I roam.
Please listen when I'm lonely
And return me safely home.
Amen

temptation fear danger and death on the men and women Archbishop Sheen had formed through his popular radio shows in the 1930 s Knowing that many of his listeners were now beyond the sound of his voice fighting and dying on battlefields afar he wrote this pocket size prayerbook so that they too could put on the armor of God as they faced their new trials physical and spiritual Recently a friend showed us his tattered World War II copy We recognized immediately that with the new dangers we face since September 11 the time had come to draft this old prayer book back into service Yes it s for soldiers and you should send it to every soldier you know so he will have it in his breast pocket when he needs it but it s for you and me too Archbishop Sheen knew that no matter what our circumstances may be the deadliest enemy we face is armed not with a gun but with temptation In dangerous uncertain times like ours the Devil lures us quickly into lust anger hatred and despair Fulton Sheen s Wartime Prayer Book will help keep you from these vices so that you too can put on the armor of God and triumph over evil in our day *A Prayer Book for the Public and Private Use of Our Soldiers and Sailors* Bishop White Prayer Book Society,2023-07-18 A collection of prayers psalms and hymns intended for use by soldiers and sailors during times of war This book provides comfort and inspiration to those serving in the armed forces as well as to their families at home A powerful reminder of the importance of faith in times of trial This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant

Secularization and Religious Innovation in the North Atlantic World David Hempton,Hugh McLeod,2017 In the early twenty first century it had become a clich that there was a God Gap between a more religious United States and a more secular Europe The apparent religious differences between the United States and western Europe continue to be a focus of intense and sometimes bitter debate between three of the main schools in the sociology of religion According to the influential Secularization Thesis secularization has been an integral part of the processes of modernization in the Western world since around 1800 For proponents of this thesis the United States appears as an anomaly and they accordingly give considerable attention to explaining why it is different For other sociologists however the apparently high level of religiosity in the USA provides a major argument in their attempts to refute the Thesis Secularization and Religious Innovation in the North Atlantic World provides a systematic comparison between the religious histories of the United States and western European countries from the eighteenth to the late twentieth century noting parallels as well as divergences examining their causes and especially highlighting change over time This is achieved by a series of themes which seem especially relevant to this agenda and in each case the theme is considered by two scholars The volume examines whether American Christians

have been more innovative and if so how far this explains the apparent God Gap It goes beyond the simple American European binary to ask what is American or European in the Christianity of the nineteenth and twentieth centuries and in what ways national or regional differences outweigh these commonalities
